UNIDENTIFIED FLYING OBJECTS

INFORMATION REQUIRED FOR REPORTS TO ROYAL AIR FORCE UNITS

1. Date, Time and duration of sighting. (Local).  
   29/3/85, 0430

2. Position of observer: TUN/WVS, FACING SOUTH.

3. Direction: (A landmark may be more useful than a badly estimated bearing).  
   FACING TO SOUTH.

4. Angle of Sight: (Estimated heights and distances are unreliable).  
   35°.

5. Movements: (Changes in (3) and (4) over the period, rather than an  
   estimated of course and speed).  
   NIL.

6. Description: BRIGHT FLASH OR EXPLOSION IN SKY. NOTHING NOTED.

7. Name and Address of Informant: TUN/WVS

8. Any background knowledge of the Informant:  
   NIL.

9. Any Witnesses:  
   NIL.

10. Weather at time: (Cloud, rain, moonlight, sunny, winds, as far as possible).  
    DAY, FROSTY, BROKEN CLOUD.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).
   1905  18 March 85
   5 minutes duration

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).
   Object shaped like a Cap piece with 2 strong beams of light from front and 2 weaker ones from the rear. Red, yellow and green coloured lights in clusters on the underside in 3 clusters and 2 coloured lights on either side. The whole object described as being in 3 sections and "big".

C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).
   ½ mile out of Blackmore on road to London in car heading north before stopping to roadside.

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).
   Naked eye.

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).
   North

F. Angle of sight. (Estimated heights are unreliable).
   45°

G. Distance. (By reference to a known landmark wherever possible).
   "very close"

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).
   Initially stationary but then moved slowly southwards over the heads of observers and then disappeared at speed.
J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

clear

K. Near-by objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

Field near Stansted.

Dear Sir,

Unidentified Flying Object

I forward, herewith, for your information, a copy of a police report concerning the sighting of an unidentified flying object in my Force area.

Yours faithfully.

Chief Constable

The Superintendent,
London Air Traffic Control Centre,
Porters Way,
West Drayton,
Middlesex,
UB7 9AX.

12th March, 1985
Sighting of unidentified flying object

Sir,

At 6.30pm on Saturday 16th February 1985, I spoke to a Miss Buckmell, secretary at the station, who reported sighting an unidentified flying object. I asked her questions about this occurrence and report in paragraphs A to G below as set out for this procedure:

A. 8.30pm Friday 15th February 1985 for a duration of the hour.

B. The object appeared to be of a mushroom shape, very bright and a glowing orange colour. No approximate size could be given although she stated it would be the same size as an aeroplane. There was no sound or noise coming from the object, and that was the only object visible.

C. At the time of observing the object, she was outside her house and standing in the front drive way.

D. At first, she saw it with the naked eye and then through a pair of binoculars. No photographs etc were taken.

Cont'd Overleaf / Sheet No.
The object appeared to be directly overhead over her new door neighbour's house Buckhalle.

The object was directly overhead and quite high. She further states that it was about the same height as aeroplanes fly at.

Unable to tell no landmarks available.

The object remained stationary for about one hour then moved quite quickly towards the Stoke area which took about 5 or 6 minutes then later in the vicinity of Stoke disappeared.

At the time the sky was clear, no clouds, fog or electricity fumes were apparent.

The only care shining near is Buckhalle Hospital and she states there were no bright lights.

Buckhalle, Telephone

The informant appeared to be of sound mind.
Section 40

Duckwall (Common Law Witness)

Served, spoke on Trial (another to inform)

9.20 pm, 15th February 85

A reply is requested.

HQ Command

U K

Air

The procedure in accordance with NO 784/71 has been carried out.

I respectfully suggest that this report be forwarded to the Officer in charge, Headquarters Control Room in order that the appropriate department of the Department of Trade and Industry can be informed.

18/2/85

18/1/85

G.H. Constable

20 Feb 1985

Stafford
1. Before this report is forwarded to the appropriate authority a grid reference of the place from where the object was observed and the approximate direction, e.g. north west, south west, should be stated to enable a more clear impression of the location of the object itself.

21.2.85.

Chief Constable.

Chief Supt.

Air.

The object was observed from: Ordnance Survey Sheet SJ 94 NW, grid reference 91054824 and the object then moved off in a south westerly direction towards Stoke-upon-Trent.

REVIEW OF AIR FORCE OPERATIONS SOPS

Reference:
A. D/AF Ops/2 dated 14 Jan 85

1. Thank you for Reference A in which you asked us to examine the existing SOP No 502 (Reports of Unidentified Flying Objects).

2. Please find attached an updated version of the SOP which takes account of reorganisation. Unless copy addressees wish to add anything I see no need for further amendment.

Section 40

Sec(AS)2a
Section 40
MINISTRY OF DEFENCE
AIR FORCE OPERATIONS ROOM
STANDARD OPERATING PROCEDURE NO 502

REPORTS OF UNIDENTIFIED FLYING OBJECTS

Reference: AF Ops/1/11
Annex: Report of an Unidentified Flying Object
Sponsor: Sec(AS)2

INFORMATION

1. Sec(AS)2 co-ordinate detailed investigation into reports on Unidentified Flying Objects, consulting AEW/GE and DI 55, and correspond with the public on the subject of UFOs when required.

2. Circulation of reports on UFOs is the responsibility of Sec(AS)2 during normal working hours, and AF Ops outside normal working hours. Reports may be received by telephone message or by signal message.

3. Copies of all UFO reports received in AF Ops and reports of AF Ops initial investigation, are circulated to Sec(AS)2, AEW/GE and DI 55.

4. The above mentioned reference gives considerable detail on the stages of investigation of UFO reports, and information should be passed to Sec(AS)2 as early as possible.

ACTION BY THE DUTY OPERATIONS OFFICER

5. During Normal Working Hours. Refer telephone calls reporting UFOs to Sec(AS)2, Ext 2140. No action is required on signal message reports.

6. Outside Normal Working Hours
   a. Reports Received by Telephone. Complete the proforma at the Annex to this SOP. Dispatch it through the Registry.
   b. Reports Received by Signal Message
      (1) Ensure that the message has been circulated to the staffs detailed at para 3 above.
      (2) Complete para B of the proforma at the Annex to this SOP and insert on the proforma the signal message reference to which the investigation refers. Dispatch it through the Registry.

REPORT OF UNIDENTIFIED FLYING OBJECT

A. DATE, TIME AND DURATION OF SIGHTING
   Local times to be quoted
   8.00 p.m. Dalwhinnie - Aviemore at 8.30 p.m. for 35 - 45 minutes.

B. DESCRIPTION OF OBJECT
   Number of objects, size, shape, colour, brightness, sound, smell, etc
   One white light - size of car head light.

C. EXACT POSITION OF OBSERVER
   Geographical location, indoors or outdoors, stationary or moving
   One mile south of Dalwhinnie, A9 Inverness to Perth public road, District of
   Badenoch and Strathspey.

D. HOW OBSERVED
   Naked eye, binoculars, other optical device, still or movie camera
   Naked eye.

E. DIRECTION IN WHICH OBJECT WAS FIRST SEEN
   A landmark may be more useful than a badly estimated bearing
   Above hill on lefthand side of A9, one mile south of Dalwhinnie.

F. ANGULAR ELEVATION OF OBJECT
   Estimated heights are unreliable
   30% approximately.

G. DISTANCE OF OBJECT FROM OBSERVER
   By reference to a known landmark wherever possible
   2 miles approximately from roadside to peak of hill.

H. MOVEMENTS OF OBJECT
   Changes in E, F and G may be of more use than estimates of course & speed
   Stationary for 1/2 minutes at a time then sudden accelerated movements.

J. METEOROLOGICAL CONDITIONS DURING OBSERVATION
   Moving clouds, haze, mist, etc
   Moving clouds.

K./

P.T.O.
K. NEARBY OBJECTS.
Telephone or high-voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings; tall chimneys; steeples; spires; television or radio masts; airfields; generating plant; factories; pits or other sites with floodlights or other lighting

None observed.
(Rough non urban hill country).

(No further details).

P. DATE AND TIME OF RECEIPT OF REPORT

21.30 p.m. on 6th February 1985.
MINUTE SHEET

Station: HOLMFIRTH                                      Date: 15 February 1985

Divisional Officer, Kirklees (Huddersfield)

At 7.15 am on Friday 15 February 1985 I was on duty in the Control Room at Holmfirth Police Station when I received a telephone call from Section 40 (tel: Section 40) Meltham, Huddersfield

Section 40 informed me that at precisely 4.02 am the same morning he had looked out of his house window and seen a strange object, which he could only describe as a bright orange ball in the sky.

The location given is above Castle Hill, Almondbury, Huddersfield. Section 40 stated that as he watched this 'object' hovering in the sky above Castle Hill, it descended, rose up again, descended onto moors, then rose up again, moved in the direction of the Emley Moor mast, Emley, Huddersfield, getting gradually higher, until it was eventually out of sight.

Section 40 called his wife, who also watched the object, he is adamant that it was not an aircraft.

I have made enquiries with Manchester Air Traffic Control, who confirmed that at that time a DC9 aircraft was over this area.

I submit this report for your information and request that it be passed to Chief Superintendent, Admin, for details to be passed to the Ministry of Defence, Department S4F (Air), Main Building, Whitehall, London, SW1A 2HB.

Section 40

Wpc

2.

Chief Superintendent, Administration

Forwarded for attention at your office please in accordance with instructions dated 9.11.67. that all such reported sightings should be reported to you.

2. Details of incident
   a. Date
   b. Time (Local or GMT)
   c. No of a/c involved
   d. Height
   e. Direction

3. Details of aircraft - (Tick as appropriate)
   Jet a/c  Propeller a/c  Military a/c  Civil a/c  Fighter
   Bomber  Helicopter  Light a/c  Other  Camouflaged
   Silver  Red and white  Other colours/special markings (specify)

4. Location of complaint - sighting
   a. Address as 1b. above
   b. ____________________________

5. Claims. Is there any injury to persons and/or livestock or damage to property which will result in a claim? If so, is complainant owner of the property? (Details)
   N/A
6. Full details of complaint - Sighting:

An object with approximately nine red and green lights, giving the impression of a "X", five vertically, and two for each branch, was seen at a position South of Anglesey. It was seen continuously for 2 minutes, then for another 5 minutes intermittently before the object disappeared.

7. Date and time report received: 12 JAN 85, 17:21:33

Signed

Name

Rank: SAC

Tel No

Date: 12 JAN 85
Date, Time Duration of Sighting:
5/2/85
FIRST SEEN 1745
STILL VISIBLE AT 1945

Description of Object:
LIKE A BRIGHT STAR. SHAPE LIKE A MUSHROOM
BRIGHT BLUE UNDERNEATH

Exact Position of Observer:
AT HIS HOME

How Observed:
WITH NAKED EYE AND THEN THROUGH BINOCULARS

Direction in which Object was first seen:
TO THE WEST OVER THE ISLE OF ARRAN

Angular Elevation of Object:
HIGH - LIKE A STAR

Distance of Object from Observer:
HARD TO ESTIMATE - NO DISTANCE GIVEN

Movements of Object:
MOVING WEST - ERRATICALLY

Astronomical Conditions During Observations:
Moving Clouds, Haze, mist etc.
CLEAR NIGHT

Nearby Objects:
NONE

To Whom Reported:
WATCH MANAGER
SCOTTISH AIR TRAFFIC CONTROL CENTRE

Name & Address of Informant:

Any Background Information on the Informant that may be volunteered:
ELECTRICAL CONTRACTOR

Other Witnesses:
WIFE AND 2 DAUGHTERS

Date & Time of Receipt of Report:

UFO REPORT - KIRKWALL 25 JAN 85

In accordance with usual procedures we enclose a copy of an UFO report which was notified to the ScATCC on the 25 Jan 85.

Enclosure:

1. UFO Report 25 Jan 85.
UFO REPORT

Date and time and duration of sighting (local time to be used) 25 Jan 65
0618-0621 (At Kirkwall)

E. Description of object (Number, size, shape, colour, smell) One Spherical
   object, very bright with long tail.

C. Exact position of observer (Geographical Location/Indoors/Outdoors,
   stationary/moving) Kirkwall Coastguard

D. How observed (Naked eye, binoculars, other optical device, still or cine camera)
   Naked eye.

E. Direction in which object was first seen (A landmark can be more useful than a
   badly estimated bearing) North West of Kirkwall

F. Angle of sight: High

G. Distance: (By reference to a known landmark if possible) Not known

H. Movement (Steady, changing or erratic) Moving from NW to SE, the object split
   into two, Aberdeen reported 2 objects.

J. Met conditions during observation (Moving clouds, haze/mist, etc) Not known

K. Nearby objects, buildings, etc

L. To whom reported (Police, military agencies, press) Pitreavie RCC who informed
   ScATCC (Mil) D & D at 0631

M. Name and address of informant Pitreavie RCC/Kirkwall Coastguard/Aberdeen Coast-
   guard

N. Any background information of the informant which may be volunteered

O. Other witnesses Aberdeen Coastguard also reported to Pitreavie - object also
   being reported by ScATCC (Civil).

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).

22 JUN 45 & JAN 46 - 20-25 mins

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Bright Star like object.

C. Exact position observer. (Geographical location, Indoors or outdoors. Stationary or moving).

Outdoors initially at informant's address. Later from bedroom window.

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye and later binoculars (described as "fairly good").

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).

W 20° W of W 20° of Chesham

F. Angle of sight. (Estimated heights are unreliable).

Above rooftop of house opposite when seen from ground level.

G. Distance. (By reference to a known landmark wherever possible).

Unable to say.

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

Moved off to northerly direction having remained stationary for some time.
J. **Meteorological conditions during operations.** (Moving clouds, haze, mist etc).

Calm sky.

K. **Near-by objects.** (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

None

L. **To whom reported.** (Police, military organisations, the press etc).

See (A5) 2. Re.

M. **Name and address of informant.**

Section 40

None

N. **Any background on the informant that may be volunteered.**

None

O. **Other witnesses.**

Section 40 (wife)

Son (age not known).

P. **Date and time of receipt of report.**

23 Jan 85

Redacts: like Army Helicopter

A night having exercise.

UNIDENTIFIED FLYING OBJECT

MINUTE SHEET

Station: Otley........................................Date: 28 November 1984

Chief Superintendent Section 40

At 14.10 hours on Wednesday 28 November 1984, I attended at Otley and there spoke to Section 40
and her mother Section 40
Section 40

Section 40

informed me that at about 14.25 hours on Tuesday 27 November 1984 she was stood in the kitchen of the above address looking out towards Otley Chevin, which is to the South of Otley, when she saw an object which she describes as disc shape and spherical, and larger than a distin lid. No lights were displayed on the object and it appeared to be moving under power as opposed to drifting about in the sky.

I informed both ladies that to the best of my knowledge when aircraft took off or landed from Yeadon Airport they cleared The Chevin at approximately 500 feet, and I asked them if the object was as high in the sky as this. Section 40 informed me that it was lower.

Whilst watching the object I was informed that the sun was not shining, however, it appeared to them to be a dull grey colour but when either the underside or topside was in view it glinted with a metallic effect.

When the object was first seen it was to the South of Otley and was below the skyline of Otley Chevin. The object then travelled towards the North East, that is right across the Wharfedale Valley in the direction of a small radio mast situated near Almscliffe Crag. Whilst watching the object they saw it turn round travel back across the valley in a Southerly direction over ploughed fields in front of Farnley Hall, and appeared to land in an area known as Knotford Nook.

Both ladies did not actually see the object land as at this point their view was obscured by trees. They then returned inside the house.

At 15.30 hours the same day, I spoke to the Air Traffic Controller at Yeadon Airport, who informed me that at the time and on the date in question there was no aircraft movement whatsoever from the Airport and no weather balloons had been released at that time.

On instructions of Headquarters minute sheet dated 9 November 1967, I submit this report for the information of the Chief Superintendent, Headquarters Admin so that he may notify the Ministry of Defence.

Section 40
REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).
   30 Nov 20:45 1984 10 min

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).
   Large white light as car headlight, intensified three times. Dropped an orange ball of light which was as bright as the main light.

C. Exact position observer. (Geographical location, Indoors or outdoors, Stationary or moving).
   Outdoors, standing on grass embankment at a traffic island next to Observer’s car.

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).
   Naked eye

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).
   Object seen travelling in same direction when first seen by observer who was travelling in his car from DAWELEY to OAKINGATES.

F. Angle of sight. (Estimated height are unreliable).
   60° – 70° when object stopped in front of observer.

G. Distance. (By reference to a known landmark wherever possible).
   Not far away and not very high

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).
   Not observed in car, Observer parked car and Object came towards him. After dropping orange object Observer wasissued away. Whist travelling away down the road Object rapidly reversed.

J. Meteorological conditions during observations. (Moving clouds, haze, sky, ground mist etc).
   Clear night except for cloud to the South
K. Nearby objects. (Telephone lines; high voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories; pits or other sites with flood-lights or other night lighting). None that Observer noticed.

L. To whom reported. (Police, military organisations, the press etc). RAF SHAWBURY.

M. Name and address of informant. Telephone DAWLEY. Any background on the informant that may be volunteered. Male Old Habit not been drinking.

N. Other witnesses. None.

O. Date and time of receipt of report. 1845 1 DEC 84.

Q. Description of events. Whilst travelling to the pub, Observer noticed a strange bright light. He pulled over at a nearby traffic island, mounted the kerbside with his two front-wheels and continued flashing his lights. Object of White brilliance then came towards him (ie changed direction) and came to rest in front of Observer. An Orange ball of light dropped from underneath the White-light and as though in freefall but then levelled out and moved towards observer. Observer in panic left the scene rapidly not seeing the orange ball of light again. However he did see the White ball of light ascend rapidly towards the south and disappear into a cloudbank. Whilst this event took place the observer did not hear any noise from the object remarking that the only noise he heard was from the traffic passing him.

REPORT OF AN UNIDENTIFIED FLYING OBJECT – EAST ANGLIA
21 OCT 84

In accordance with the usual procedures we enclose a copy of an UFO report dated 21 Oct 84 received by one of our units.

Sqn Ldr
for AOC

Enclosure:
1. UFO Report 21 Oct 84.
REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time, and duration of sighting. (Local times to be quoted).
   21 Oct 64
   1720 APPROX
   1 - 12 MINS

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).
   ONE OBJECT, SIZE OF SMALL COMMERCIAL AIRCRAFT
   SHAPE LIKE AN UPSIDE-DOWN SAUCER, VERY BRIGHT
   SLIGHTLY SILVER UNDER SURFACE WITH A DOZEN OR MORE
   RAISED RED LIGHTS ON TOP. NO SOUND OR SMELL.

C. Exact position observer. (Geographical location. Indoors or outdoors.
   Stationary or moving).
   OBSERVED WHILE TRAVELLING BY CAR FROM ASHORE TOWARDS TO
   TACOMINON ON THE MAIN ROAD NORTH OF THE
   TACOMINON TO MAST.

D. How observed. (Naked eye, binoculars, other optical device, still or
   moving target).
   OBSERVED WITH NAKED EYE. A PHOTOGRAPH WAS
   TAKEN AS OBJECT PASSED TOWARDS HORIZON PHOTOGRAPHIC
   PRINT IS AVAILABLE.

E. Direction in which object was first seen. (A landmark may be more
   useful than a badly estimated bearing).
   TOWARDS N E

F. Altitude. (Local heights are unreliable).
   LOW ON HORIZON TO OVERHEAD

G. Statement. (By reference to a known landmark wherever possible).
   DISAPPEARED FROM OVERHEAD VIEW AT APPROX 5 MIN.

H. Movements. (Changes in H, p, a.m. may be of more use than estimates of
   course and speed).
   STRAIGHT GENERAL DIRECTION BUT MOVING FROM
   SIDE TO SIDE

I. Meteorological and other visual observations. (Leaving clouds, haze
   conditions).
   GENERAL HIGH CLOUD COVER PASTY BUT BRIGHT
K. Nearby objects. (Telephone lines; high voltage lines; reservoir, lake swamp; or marsh; river; high buildings; tall chimneys, steeples, spires, TV or radion mast; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting). Passed within ½ km of Tacolneston TV mast at which point weird motions were observed.

L. To whom reported. (Police, military organisations, the press etc.). Anonymously to local Police on 21 Oct 84 to Eastern Daily Press with photograph.

K. Name and address of informant.

Section 40

N. Any background on the informant that may be volunteered.

Served in RAF National Service 1968.

O. Other witnesses.

None.

P. Date and time of receipt of report.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

Date, time and duration of sighting. (Local times to be quoted)
13 22 30 Z 07 34 1 minute

Object. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).
Circular, James Bond, & glaring white with dark band pulsating light.

Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).
Waterloo Bridge

How observed. (Naked eye, binoculars, other optical device, still or movie camera).
Naked Eye

Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).
Dan River, towards St Paul

Angle of sight. (Estimated heights are unreliable).
30° - roughly

Distance. (By reference to a known landmark wherever possible).
Roughly 5000 feet

Movements. (Changes in E, F and G may be of more use than estimates of course and speed).
Steady up + down, side by side.

Weatherological conditions during observations. (Hanging clouds, haze, mist etc).
Cloudy Night
K. Nearby objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, tv or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

To Whitehall

L. To whom reported. (Police, military organisations, the press etc).

DS8a

M. Name and address of informant.

Section 40

N. Any background on the informant that may be volunteered.

O. Other witnesses.

Rural road and the people a bridge

P. Date and time of receipt of report.

### REPORT OF AN UNIDENTIFIED FLYING OBJECT

| A. Date, Time & Duration of Sighting | 3D Aug 84 2130A  
|--------------------------------------|---------------------  
|                                       | A few minutes       |
| B. Description of Object             | Glowing steady light, 
| (No. of objects, size, shape, colour, brightness) | Discreetly pow lights, 
|                                       | No sound           |
| C. Exact Position of Observer        | Castle ton, out of doors  
<p>| Location, indoor/outdoor, stationary/moving | Object seen directly overhead, Object moving from North direction to South direction |
| D. How Observed (Naked eye, binoculars, other optical device, still or movie) | Naked eye |
| E. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing) | Coming up from East Griendale direction |
| F. Angle of sight (Estimated heights are unreliable) | Straight up vertically |
| G. Distance (by reference to a known landmark) | Too high to normal eye |
| H. Movements (Changes in E F &amp; G may be of more use than estimates of course and speed) | Moving Northly very quickly |
| J. Met Conditions during Observations (Moving clouds, haze, mist etc) | Very clear skies |
| K. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting) | Tall chimneys but out of use and k opposit direction, Observer under flight path from Heathrow, Not familiar with movement from Heathrow |
| L. To whom reported (Police, military, press etc) | Two Scotland Yard PC |
| M. Name &amp; Address of Informant | Section 40. Section 40. Section 40. |
| N. Background of Informant that may be volunteered | Interested in aircraft, Not familiar with their movements. |
| O. Other Witnesses | Not known. |
| P. Date, Time of Receipt | 30 Aug 2140Z. |</p>

## REPORT OF AN UNIDENTIFIED FLYING OBJECT

| A. Date, Time and Duration of Sighting. | 9 Aug 84  
|                                          | 2200  
|                                          | 3 Mins |
| B. DESCRIPTION OF OBJECT  
(Number of objects, size, shape, colour, brightness) | 1 Bright light, looked like star but wasn’t. |
| C. EXACT POSITION OF OBSERVER  
(Location, indoor/outdoor, stationary, moving) | Outdoor. Standing at the gate of his house. |
| D. HOW OBSERVED  
(Naked eye, binoculars, other optical devices, still or movie) | Naked eyes. |
| E. DIRECTION IN WHICH OBJECT FIRST SEEN  
(A landmark may be more useful than a badly estimated bearing) | 1 1/2 nm S of Newcastle airport. |
| F. ANGLE OF SIGHT  
(Estimated heights are unreliable) | Very high and travelling fast. |
| G. DISTANCE  
(By reference to known landmark) | No distance possible. |
| H. MOVEMENTS  
(Changes in E, F and G may be of more use than estimates of course and speed) | Very high and very fast. Right across sky W to E. |
| J. MET CONDITIONS DURING OBSERVATIONS  
(Clouds, haze, mist etc) | Very clear - viz excellent. |
K. NEARBY OBJECTS  
(Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with flood lights or night lighting)  
An aircraft from Newcastle was seen under and in front of this light.

L. TO WHOM REPORTED  
(Police, military, press etc.)  
Newcastle airport.

M. NAME AND ADDRESS OF INFORMANT  
Blakelew Newcastle

N. BACKGROUND OF INFORMANT THAT MAY BE VOLUNTEERED  
Signaller of the Royal Regt of Fusiliers

O. OTHER WITNESSES  
Neighbours & 2 brothers.

P. DATE AND TIME OF RECEIPT  
092135Z Aug 84.

Q. ANY UNUSUAL METEOROLOGICAL CONDITIONS  
A clear night.

R. REMARKS  
The person reporting was clear concise and knew what he had seen and would not accept possible solution of other aircraft.

Subject: UNIDENTIFIED FLYING OBJECT

1. At 10.40pm on Thursday 26 July 1984, at the Main Police Office, RAF CARLISLE, I received a telephone call from Mr. WHITEMAN (Tel. No. Whitehaven) reporting that he had observed an object in the sky, which he and his family had observed for a period of about five (5) minutes between 10.30pm and 10.35pm this date.

2. He described the object as being a light, white in colour, and spheroid in shape. It was observed against a backdrop of cloud to the North of his house. He could not estimate either range nor height of the object, but said if the height of the cloud was known he had taken a measurement that could be of assistance in establishing this date.

3. He stated that his wife and two daughters had observed the light through binoculars, but could not see any feature on it's surface. He had called on a neighbour to obtain a better pair of binoculars when his wife had seen the object move upwards into the cloud. He was unable to offer estimates of speed or rate of acceleration.

4. When asked why he had chosen this Unit, rather than the local police to report the sighting, he gave the impression that he would receive a more sympathetic hearing from the Service Authorities.
6. At 10.45am, following the compilation of the report, I obtained the following estimates of cloud formations in the area from the Unit weather officer:

- 1/8 cumulus at 4000 feet
- 2/8 altocumulus at 1200 feet
- 6/8 cirrocumulus at 2500 feet.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. DATE, TIME AND DURATION OF SIGHTING (local times to be quoted)
   16 7 84     1130-1132

B. DESCRIPTION OF OBJECT (Number of objects, size, shape, colours, brightness, sound, smell etc.)
   One white ball very bright travelling fast

C. EXACT POSITION OF OBSERVER (Geographical location, indoors or outdoors stationary or moving)
   Smethwick, Birmingham. Stationary outdoors

D. HOW OBSERVED (Naked eye, binoculars, other optical device, still or movie camera)
   Naked eye

E. DIRECTION IN WHICH OBJECT WAS FIRST SEEN (a landmark may be more useful than a badly estimated bearing)
   No useful information

F. ANGULAR ELEVATION OF OBJECT (Estimated heights are unreliable)
   Overhead

G. DISTANCE OF OBJECT FROM OBSERVER (By reference to a known landmark wherever possible)
   Unable to say

H. MOVEMENTS OF OBJECT (Changes in E, F and G may be of more use than estimates of course and speed)
   Straight line - no erratic movements

J. METEOROLOGICAL CONDITIONS DURING OBSERVATIONS (Moving clouds, haze, mist etc)
   Very good visibility - some cloud

K. NEARBY OBJECTS (Telephonic or high-voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories; pits or other sites with floodlights or other lighting)
   None significant

L. TO WHOM REPORTED (Police, military organisations, the press etc)
   ATC Birmingham

M. NAME AND ADDRESS OF INFORMANT

N. ANY BACKGROUND INFORMATION ON THE INFORMANT THAT MAY BE VOLUNTEERED
   None

O. OTHER WITNESSES
   2 other family members

P. DATE AND TIME OF RECEIPT OF REPORT
   16 7 84     2250 p
Dear Sirs,

On the evening of Wednesday the 11th. inst., I, together with my two neighbours observed an object at a very great height. It shone with the magnitude of Venus at it's brightest. We observed it through binoculars. It did not move for a period of about half an hour. From our viewpoint it was at approximately 60° and in an estimated N.W. direction.

It appeared to have circular form. I first noticed it at about 9.15 (21.15) and observed it until about 21.45 at which time I went indoors to fetch my x25 telescope. However, upon finding the 'scope I was disappointed to find that the object had disappeared.

I had however fixed it's position by aligning it with the corner of the roof.

The time was then almost 22.00.

Upon making a further aligned viewing I found I was looking at a point approximately in the centre of the "Plough" which was by then faintly visible.

My neighbours would corroborate.

Your's Faithfully,

(ex R.A.F.)

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. DATE, TIME AND DURATION OF SIGHTING (local times to be quoted)
   12 July 1984       2330 to 2355

B. DESCRIPTION OF OBJECT (Number of objects, size, shape, colours, brightness, sound, smell etc.)
   One/Large/Bright Lights; Orange, Red and Blue / Silent.

C. EXACT POSITION OF OBSERVER (Geographical location, indoors or outdoors; stationary or moving)
   Section 40
   Inside Car which stopped, Nuneaton.

D. HOW OBSERVED (Naked eye, binoculars, other optical device, still or movie camera)
   Naked Eye

E. DIRECTION IN WHICH OBJECT WAS FIRST SEEN (a landmark may be more useful than a badly estimated bearing)
   To North West

F. ANGULAR ELEVATION OF OBJECT (Estimated heights are unreliable)
   About 15° above horizon / Estimated 1000 feet

G. DISTANCE OF OBJECT FROM OBSERVER (By reference to a known landmark wherever possible)
   1/2 mile at nearest point

H. MOVEMENTS OF OBJECT (Changes in E, F and G may be of more use than estimates of course and speed)
   To South East / Distance covered 40 - 60 miles

I. METEOROLOGICAL CONDITIONS DURING OBSERVATIONS (Moving clouds, haze, mist etc)
   Very clear skies

J. NEARBY OBJECTS (Telephone or high-voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings; tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories; pits or other sites with floodlights or other lighting)
   Open fields

L. TO WHOM REPORTED (Police, military organisations, the press etc)
   Air Traffic Control, Birmingham Airport.

M. NAME AND ADDRESS OF INFORMANT
   Section 40

N. ANY BACKGROUND INFORMATION ON THE INFORMANT THAT MAY BE VOLUNTEERED
   Quite used to seeing aircraft, but not connected with aviation.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted)
   July 1 0300 45-50 secs

B. Description of object. (Number of objects, size, shape, colour, brightness, sound, smell, etc).
   First approval: the star single bright light.
   Then second bluish light, red and green lights.
   Shape: oval, accuracy perspective, approval circular from under side.

C. Exact position observer. (Geographical location, indoors or outdoors, stationary or moving).
   In or near, A37 between Chirvin and Ballintrae.

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).
   Naked Eye.

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).
   North South West.

F. Angle of sight. (Estimated heights are unreliable).
   15-20° when first sighted.

G. Distance. (By reference to a known landmark wherever possible).
   We first approved very distant, then second.
   2 miles ± 20.

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).
   First in front, then veered right (west), then left (east) over and over.

I. Meteorological conditions during observations. (Fog, clouds, haze, etc).
   Very clear night.
K. Nearby objects. (Telephone lines; high-voltage lines; reservoir; lake; swamp or marsh; river; high buildings; tall chimneys, steeples, spires, tv or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

Dear Sir

I enclose for your information and any action considered necessary, copies of police reports and witness statements concerning the sighting of an alleged unidentified flying object on Thursday 26 April 1984.

Yours faithfully

Section 40

for Assistant Commissioner
(Traffic)

We have already been notified of this by a signal from the police.
Chief Superintendent

On Thursday, 26 April 1984, PC 657 Section 40 was on duty at Edgware Police Station when at approximately 10.20pm he received a telephone call from Mrs Section 40, aged about 29 years, of Section 40, Stanmore. As a result of what Mrs Section 40 told the officer, he went to meet Mrs Section 40 and Miss Section 40, aged 21 years, of Section 40, Stanmore. They stated in the presence of PC 657 Section 40 and PC 541 Section 40 that they had seen an object of an unusual nature in the sky above her rear garden.

Both officers accompanied Mrs Section 40 and Miss Section 40 into the rear garden of Section 40, where Mrs Section 40 pointed east towards a flashing light, approximately 45° up in the sky from where they were standing. The officers obtained a pair of binoculars and studied the object through them and saw that the object was circular in the middle with a dome on the top and underneath. The middle of the object had blue lights around the middle and a red/pink lights on the extreme right of the middle. The dome on the top and blue and white flashing lights, the dome underneath was blue, green and red/pink with white flashes. They observed the object for an hour and during that time the object moved erratically from side to side, up and down and to and fro, not venturing far from the original position. During the time the officers observed the object it moved up to the right to a position of approximately 50° from where they were standing.

SC 118 Section 40 was also present during this time and observed the object. The object appeared to be over Borehamwood or Mill Hill.

Mrs Section 40 stated "At 9.45 approximately, I opened my back door to let the dog in, when I noticed a bright light in the sky about 45° up above the trees in our back garden that was flashing blue, white, green and pink and it seemed to have things flashing off it. I called my friend out to show her. We both stood and watched for about 5-10 minutes. I ran out to tell my neighbours but saw two young boys walking by and asked them if they could see it they said they could. I ran back into my friend, we watched a little longer. I then ran next door and told them, we went in their garden. They also saw it and the light flashing off it. I ran back in again and my friend and I stood watching it when a blinding white ball with a trail behind went above from left to right, we both screamed at the same time our neighbours heard us. The light at this time was going further back in the sky and throughout the whole time the object was moving very fast and very erratic the whole time. I am not a mutter. I phoned the police who sent three officers round, who all witnessed and agreed this was not a plane or a star and that it was flashing colours and moving very erratic. This object was also viewed through binoculars by the police and myself".
Miss [Section 40] stated "My friend called me into her back garden at 9.45pm and we both saw a large flashing object, much larger than a star in the sky between two trees. The object was flashing bright pink, blue and white and small white objects were shooting away from the main object while it moved in a triangular motion. We watched it for 55 minutes and in this time it faded almost away and then came back and started to fade slowly. After watching for about 20 minutes a bright white light flashed rapidly past us about 100 feet from the house from left to right leaving a bright white trail.

I saw one white object go back to the main red, white and blue one after about 20 minutes."

Air Traffic Control informed. OB 168 and SM 63A of 26.4.84. and SM 3 of 27.4.84. refer.

Inspector

2

B1 Branch (throu' Commende

I have interviewed both officers in this case and I am satisfied as to the veracity of their statements. The civilian witnesses have not been interviewed in depth. However, they are willing to be seen by Ministry of Defence authorities should this be considered necessary.

QA 3.5.84.

Chief Superintendent
Unidentified object as seen by PC 657 Milthorp and PC 5410, Hoos through binoculars at approximately 11 pm. Dated 26th April 1984.
STATEMENT OF WITNESS

On Thursday 26th April 1984 I was on duty in full uniform at Edgware Police Station. When as a result of what Mrs. section 40 told me over the telephone. I went to Section 40 Stanmore, where I met Mrs. Section 40 and Miss Section 40. They stated in the presence of P.C. Section 40 and myself that they had seen an object of an unusual nature in the sky above her rear garden. P.C. Section 40 and myself accompanied the females into the rear garden where she pointed east towards a flashing light approximately 45 Degrees up in the sky from where we were standing. A pair of binoculars were obtained and I studied the object, through them. I saw that the object was circular in the middle with a dome on top and underneath. The middle Section of the object had bright blue lights around it with a red or pink light on the extreme right. The Dome on the top had blue and white flashing. Underneath the bottom dome was or appeared to be covered in blue green

red, pink and white flashing lights. We observed the object for one hour, during this period of time the object moved erratically from side to side, up and down and to and fro, not venturing far from its original position. During the observation I saw the object move up to the right approximately fifty degrees up in the sky, S.P.C. also observed the object. The object appeared to be over the Borehamwood or Mill Hill area. There was a prevailing easterly wind.

REPORT ON UNIDENTIFIED FLYING OBJECT

Date, Time and Duration of Sighting
8 June 1984 - Approx 1240 Local Time - Several minutes

Description of Object
Large Silver "Dot" with an "Aura" around it.

Exact Position of Observer
Garden of House, in Catterline to the East of Glasgow

How Observed
Visually

Direction in Which Object was First Seen
Overhead observation point "high in the sky"

Angular Elevation of Object
Overhead for 4 minutes or so, then proceeded west to Paisley direct at high speed.

Distance of Object from Observer
Difficult to assess

Movements of Object
Still at first then rapid movement to west

Meteorological Conditions During Observations
CAVOK 35 to 40K VIS.

Nearby Objects
An H/C (not recognised) appeared to be below object.

To Whom Reported

REPORT OF UNUSUAL AERIAL PHENOMENON

a. Date, time, duration. 19 APR 84 - 1600 hrs. Duration not definitely known.
b. Description. A brilliant, very solid "ball" of light, bright silver in colour.
d. How observed. Through window, then through binoculars.
e. Direction seen. ENE moving to N.
f. Elevation. See section h.
g. Distance. 2 NM to 2 NM
h. Movements. Object decended (as per converted a/c) touched down on runway.
i. Climbed out near vertically.
j. Weather. CAVOK with light SW.
k. Nearby objects and structures. Airport installations.
l. To whom reported. Local Bursa investigator.
m. Name & address of observers. Names withheld.
n. Other witnesses. None known.

Date & time of report. Reported to Bursa on 20 APR.

Any other pertinent info. At request of witnesses, their names and the airport involved are withheld.

Summary:

SATCO (14 years experience) came up to VCR to over see "deputy controller" (deputy SATCO?) plus assistant (12 years & 8 years experience respectively) "talking in" a light plane on runway 22. SATCO scanned the sky and observed "lilp" (light in the sky) coming in on runway 27 and told the controller the plane was on 27 and not 22. Then the light plane called base leg for 22 and everyone became aware that the object on final for 27 was unidentified. SATCO reports that the object came in "at speed", made a break and go on runway 27, then departed at "terrible speed" in a "near vertical" climb. It was at this point that SATCO observed the object through binoculars, resulting in the description at (b).

The Aircraft in the control did not see it.

The Airport's radar was not being used; a nearby RAF aircraft (with radar) was selected for the better agent.

NB: Phrases in parentheses are quotes from the report I was given.
Witnesses do not wish to be identified in case their professional integrity is questioned.

### REPORT OF AN UNIDENTIFIED FLYING OBJECT

| A. Date, Time and Duration of Sighting | 2020/53% MAR 84
| Instantaneous Flash |
| B. DESCRIPTION OF OBJECT  
(Number of objects, size, shape, colour, brightness) | Bright, orange flash in the sky, something appeared to fall to the ground. Originally thought to be an a/c but after inspection by civ police assumed to be a UFO. |
| C. EXACT POSITION OF OBSERVER  
(Location, indoor/outdoor, stationary, moving) | Outdoors in Grain St, Coalville. |
| D. HOW OBSERVED  
(Naked eye, binoculars, other optical devices, still or movie) | Naked eye |
| E. DIRECTION IN WHICH OBJECT FIRST SEEN  
(A landmark may be more useful than a badly estimated bearing) | Not known |
| F. ANGLE OF SIGHT  
(Estimated heights are unreliable) | Not known |
| G. DISTANCE  
(By reference to known landmark) | Not known |
| H. MOVEMENTS  
(Changes in E, F and G may be of more use than estimates of course and speed) | Bright flash |
| J. MET CONDITIONS DURING OBSERVATIONS  
(Clouds, haze, mist etc) | Cloudy and overcast |
**K. NEARBY OBJECTS**
(Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with flood lights or night lighting) None

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).
   10 Feb
   0145
   +345 at about 5 minutes
   0145

B. Description of object. (Number of objects, size, shape, colours, brightness,
   sound, smell, etc).
   Smaller & aircraft, lights. Pulsating lights pent and
   back. A number of lights on top of the object.
   No sound.

C. Exact position observer. (Geographical location. Indoors or outdoors.
   Stationary or moving).
   At home in bedroom, facing west facing south

D. How observed. (Naked eye, binoculars, other optical device, still or movie
   camera).
   Naked eye through windows

E. Direction in which object was first seen. (A landmark may be more useful
   than a badly estimated bearing).
   South

F. Angle of sight. (Estimated heights are unreliable).
   From house on one side of valley, object on
   other side of valley slightly higher than observer.

G. Distance. (By reference to a known landmark wherever possible).
   About 1 mile.

H. Movements. (Changes in E, F and G may be of more use than estimates of
   course and speed).
   Initially stationary, then moved to observers
   right (west) u. slowly. Then moved to left u.
   slowly. Then accelerated u. rapidly away.
J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

I. Clear night no clouds

K. Nearby objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

Street lights on this side of valley.

L. To whom reported. (Police, military organisations, the press etc).

Me DS8

N. Any background on the informant that may be volunteered.

O. Other witnesses. Husband + Daughter

P. Date and time of receipt of report.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).
   Friday 13 Jan 84, 2015
   Less than five minutes

B. Description of object. (Number of objects, size, shape, colours, brightness,
   sound, smell, etc).
   Circular, surrounded by lights, under
   object appeared at site (Black, surrounded
   intense, sky lights)

C. Exact position observer. (Geographical location, Indoors or outdoors.
   Stationary or moving).
   Off deck to house. Outside
   Slideway

D. How observed. (Naked eye, binoculars, other optical device, still or movie
   camera).
   Naked Eye

E. Direction in which object was first seen. (A landmark may be more useful
   than a badly estimated bearing).
   Not known
   Toward, to the seaward

F. Angle of sight. (Estimated heights are unreliable).
   About 60°

G. Distance. (By reference to a known landmark wherever possible).
   Not known

H. Movements. (Changes in E, F and G may be of more use than estimates of
   course and speed).
   The second object moved down + disappeared
   into clouds. First object observed by
   clouds + disappeared.
J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

Today, cloudy.

K. Near-by objects. (Telephone lines; high voltage lines; reservoir; lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

Dear Sir,

UNIDENTIFIED FLYING OBJECT

Set out below is a report of an unidentified flying object as MATS 6-18,
Chapter 4 Part 3, the details of which were telephoned AIS (Military) LATCC
032000.

A. 030533. 45 seconds.
B. Triangular giving off a pinkish, reddish glow.
C. Keynsham, Bristol, Avon.
D. Naked eye.
E. From east.
F. Overhead.
G. Not determined.
H. Flashed across the sky like a meteorite, paused, then headed off in
   another direction, paused, then disappeared in northerly direction.
J. Sky clear.
K. No information.
L. Bristol Police, RAF Lyneham.
M. Mr. Keynsham, Bristol.
N. Passed information on previous sightings of satellites and correspondence
   that he had received from the Daily Mail concerning their movements.
O. Nil.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time and Duration of Sighting. (Local Times to be quoted).

B. Description of Object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

C. Exact Position Observer. (Geographical location. Indoors or Outdoors. Stationary or moving).

D. How Observed. (Naked eye, binoculars, other optical devices, still or movie camera).

E. Direction in Which Object was First Seen. (A landmark may be more useful than a badly estimated bearing).

F. Angle of Site. (Estimated heights are unreliable).

G. Distance. (By reference to lone landmark wherever possible).

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

J. Meteorological Conditions During Observation. (Moving clouds, haze, mist, etc).

K. Nearby Objects. (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, or other sights with flood-lights or other night lighting).

L. To Whom Reported. (Police, military organisation, the Press etc).

A-1 of 2 pages
Report of unidentified flying object

A. 13 Dec 83 2104 hrs Duration 45 to 60 seconds

B. Object itself unseen due cloud cover. A bright green directional light was penetrating the cloud.

C. 3 miles north of Balloch on M60 inside moving vehicle.

D. Naked eye.

E. North east ¾ mile (no visual landmark).

F. 35° 40° from horizon.

G. Approx ¾ mile (no landmark).

H. Nil.

J. Low cloud - base approx 1000' - 1500' AGL.

K. None.

L. Flying companions flight. He sees (UK) RAF BURFOE MANSFORD.

Observeur: Flying Officer No. 6 Section
RAF Lassiemouth

Comments: Observeur initially thought sighting to be an aircraft operating a laser light but subsequently disregarded this as

a) Light beam penetrated cloud - ?

b) Had not experienced a military aircraft with this capability in the service as RAF officer Area 1.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).
   3 Dec, 0455, just over 1/2 hour.

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).
   No specified round, roughly football, bright white.

C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).
   At home, indoors.

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).
   Naked eye, through windows.

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).
   Over house to right and front of house.

F. Angle of sight. (Estimated heights are unreliable).
   Slightly higher than helicopters usually fly.
   House height of then six story house.

G. Distance. (By reference to a known landmark wherever possible).
   20 hundred yards.

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).
   Coming down from sky, orbited around each other, repeatedly, slightly, 100 yards, are moved up, return slightly, are moved again to left, lowered and broodlike speed, 10 miles. Seemed to continue in same or brush, 40 yards. Other changes in size.
J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

Very clear early morning.

K. Nearby objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires; TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

1. Small lake, tall chimney on MOD site at Northwich, very factious.

L. To whom reported. (Police, military organisations, the press etc).

DSB

M. Name and address of informant.

Section 40
SE 28.
Section 40
(Between MOD and Royal Trent
at Northwich.)

N. Any background on the informant that may be volunteered.

Insomniac, often awake in small hours.

O. Other witnesses.

S. Mark Husband.
Second time seen similar before, but three lights.

P. Date and time of receipt of report.

6 Dec 1970

Tel:

Our ref: D\ISS\10\1209

Subject: Correspondence from Republic-UFOs

I attach a copy of a letter from enquiring about the possible identity of a light viewed over Brighton on 9 October.

While I could give the standard reply that we are not interested in the defense implications of UFOs, I would like, if anyone has any bright ideas as to what the object light might have been, to let Ms. know.

Can you help please?

No bright ideas!!!

Diss
Dear Sirs,

I wonder if it is possible for you to help me to find a logical explanation of what to me, was a strange occurrence?

Around midnight, on October 9th, from an upper window here, I saw a very large globe of yellow light which moved horizontally across the sky line, during about a quarter of a minute. This globe disappeared as abruptly as it had appeared.

Assuming the Ministry of Defence has minutely detailed maps here is more detailed information. From my bed in Eldene Avenue, Hove, appeared at the far left of, and higher than Sussex Heights (a tall block of flats), Brighton, and disappeared over approximately West Street, approach to Brighton Station. Taking distance into account, its size must have equaled that of a semi-detached house!

Investigation has revealed nothing unusual in the way of electrical storms, meteors, etc., or local fire. The only suspect occurrence was a lifeboat launch, but no flares do it.
Although nothing can ultimately be proved about anything, there is a point—where one may say—it would seem to be so.” The UFO question, for instance, has not reached it. The whole subject is open to fake wishful thinking and publicity seeking. However, 100 years ago the idea of television would have met with the same scepticism that UFOs do today.

I hardly believe that I said this globe of light, yet I know that I did see it. I would be very grateful if you could let me know of any other investigations you could make, or if you have any explanation of this odd occurrence.

Thanking you,
Your faithfully,

P.S. Satellites are always thought to be and to remain, out in the “wide blue yonder.” Are they, and do they?

Please don’t add me just another crank. I’m just an astounded realist.

Report of Unidentified Flying Object

A. 19th October, 1983 - 0539  
   Observed 1 hour 04 minutes

B. Very bright, like a star  
   Shaped like letter J, then appeared to take on  
   clock-face shape with halo

C. Observed from:  
   Section 40  
   Peel,  
   Isle of Man.

D. Observed by naked eye

E. Observed in direction of Stanley Mount, Peel -  
   believed to be between North and East

F. Well above chimney pot height

G. Not known

H. Slow moving

J. Moving clouds

K. Not known

L. A.T.C. Ronaldsway

M. Freq: Section 40  
   Section 40  
   Peel,  
   Isle of Man.  
   Tel: Section 40

N. Claimed that she does not drink!

O. Husband of informant

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).
   4-10-83  2400 - 0010

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).
   Big bright white object. Had very bright white lights at front. At rear, one white light on outside edge.
   Red light on left, green on right, blue in centre.
   Oval in shape, undersides had different shades of light.

C. Exact position observer. (Geographical location, indoors or outdoors).
   In car driving from Romford to Hornchurch, Essex.

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).
   Naked eye

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).
   Travelling north to south

F. Angle of sight. (Estimated heights are unreliable).

G. Distance. (By reference to a known landmark wherever possible).
   Flying low

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).
   Began by moving north to south then changed direction to east-west then north to south to north etc as if flying in square.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).
   June 23, 0330, 5 mins.

B. Description of object. (Number of objects, size, shape, colours, brightness,
   sound, smell, etc).
   Rectangular, possibly glass, brilliantly lit, dimmed into
   seven points. Sketch attached.

C. Exact position observer. (Geographical location. Indoors or outdoors.
   Stationary or moving).
   At home in bedroom, stationary.

D. How observed. (Naked eye, binoculars, other optical device, still or movie
   camera).
   Naked eye.

E. Direction in which object was first seen. (A landmark may be more useful
   than a badly estimated bearing).
   South East.

F. Angle of sight. (Estimated heights are unreliable).
   Seemed to be just above rooftop.

G. Distance. (By reference to a known landmark wherever possible).
   Just other side of street.

H. Movements. (Changes in E, F and G may be of more use than estimates of
   course and speed).
   Moved from South E West as
   seen by observer.
J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).
   Still, dead sky, no sign of wind.

K. Nearby objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).
   None

L. To whom reported. (Police, military organisations, the press etc).
   Me

M. Name and address of informant.
   Mr. [Section 40]
   Sandford

N. Any background on the informant that may be volunteered.
   No.

O. Other witnesses.
   No.

P. Date and time of receipt of report.
   11 Jan 84.
Photostat made of original sketch made of object seen in night sky over Surrey, June 1983.

Observation made by Mrs. Sanderstead, South Croydon, Surrey, sometime during the month of June 1983 at approximately 3am one morning. Slate grey sky. No moon or stars visible. Object appeared to pass very slowly across Mrs. view from her left to right (in relation to the position of the house from south to north-north east). There seemed to be no means of propulsion. The object was not being pushed, pulled, lifted or carried. Its movement was silent.
