FEDERAL BUREAU OF INVESTIGATION

FREEDOM OF INFORMATION/PRIVACY ACTS SECTION

COVER SHEET

SUBJECT: NATIONAL INVESTIGATIONS

COMMITTEE ON AERIAL PHENOMENA
New Group Setting Sights on Saucers

By JIM G. LUCAS, Scripps-Howard Staff Writer

The brass plate at 1536 Connecticut-av nw reads: "National Investigations Committee on Aerial Phenomena," inside they refer to it as Project Skylight.

T., Townsend Brown of Leesburg, Va., who runs it identified himself as executive vice chairman pro tempore. He formerly was a consulting physicist for the Clevite-Brush Electronics Co. of Cleveland, O.

"I winces whenever anybody refers to 'flying saucers," he says. "But, actually, that's what we're after. We want to know whether they exist. If they do, we want to know what they are. And we think it's high time.'

WILL ELECT BOARD

National Investigations Committee—that's how they answered the phone—is just now forming. On Nov. 1 it meets to elect a nine-man board of governors.

Mr. Brown says he is representing a group of approximately 75 "scientists, educators and church leaders" interested in saucers. He expects to be around until Nov. 15, when he goes back to London as research director for Whitehall-Rand. He's also a consulting physicist in Paris for a French aircraft company. But the saucers?

"I frankly don't know," he says. "They may or may not exist. And that seems to be the general feeling of all our people. But we want to know."

FACT-FINDING BODY

The National Investigations Committee, Mr. Brown says, will be a "privately supported fact-finding body serving the national public interest." It has applied to the Treasury for tax-exempt status.

Mr. Brown has written several hundred public figures seeking their opinion on what he terms "a subject of inevitable concern in every major phase of human welfare."

50 Nov 1 1956
Mr. Brown says he's talked to officials at National Airport here in Washington—where radar sightings have been made—"and they are as interested in getting the facts as we are."

In his prospectus, he suggests a "considerable amount of effort will have to be directed toward general promotion and fund-raising." As his goal, Mr. Brown talks about the day "we'll have money in the bank—$2,000,000 or $3,000,000.

Memberships come high. A founder's endowment costs $1000; a sustaining membership, $500. Delegates are admitted for $100. Regular memberships sell for $15 and associate memberships, $7.50. The committee hopes to publish a magazine to be known as "Space Flight."
Federal Bureau of Investigation  
Washington, D.C.

Dear Sirs:

About two years ago I attended a lecture on flying saucers at Park County Auditorium. At that time, cards were distributed requesting you to sign your name and address so that I could be supplied with more information about flying saucers. During the course of time I have received all sorts of letters from many states. Today the enclosed letter arrived and I don't know how they got my name and address—family from the mail. I signed.

What do you know, is there a recognized organization? Un

point I decline to participate in any function pertaining to flying dances but only interested as a listener.

Very truly yours,

Marshall S. Major

(MARSHALL S. MAJOR)
Mr. Marshall S. Major
345 Romano Avenue
Coral Gables, Florida

Dear Mr. Major:

Your letter of April 2, 1957, with enclosures, has been received.

Although I would like to be of assistance, information in the files of the FBI is confidential and available for official use only. I know you will understand the reason for this rule and will not infer from my inability to be of service either that we do or that we do not have the information you desire.

I am returning your enclosures since they may be of value to you.

Sincerely yours,

John Edgar Hoover
Director

Enclosures (2)

Form letter from the National Investigations Committee on Aerial Phenomena and its enclosure sent in by correspondent.

NOTE: On the basis of information available, correspondent was not identifiable in FBI files. The Washington News for October 23, 1956, reflects that an organization known as National Investigations Committee on Aerial Phenomena" was located at 1536 Connecticut Avenue Northwest, Washington. No other identifying data was located in files re this organization.

Dear friend:

Your interest in our investigation of Unidentified Flying Objects (flying saucers) is greatly appreciated. Since 1950 the Air Force has kept thousands of authentic UFO reports from the public. While we believe we know their reasons, we are convinced that Americans have a right to the truth. To that end, NICAP has set up a nationwide network—soon to be worldwide—for reporting UFO sightings and hidden developments.

All this information — uncensored — will be revealed to NICAP members in a monthly magazine and in confidential bulletins. The magazine will include dramatic, authentic sightings by veteran pilots and other competent witnesses; behind-the-scenes stories of the Air Force secret investigation; proof of the censorship which has muzzled hundreds of pilots; the pro's and con's of the question, "Is there life on Mars?"; and special articles on the UFO problem and our own space-travel plans.

In addition, NICAP will hold public hearings on claims of contacts with spacemen—to expose hoaxes and also to ferret out the facts. All this will be covered in the monthly magazine, with many other features, such as a serialized history of UFO's with new sidelights on famous sightings; frank answers to readers' questions; and a monthly department in which I shall reveal some "inside stories" I have learned in the last two years.

As an Associate Member of NICAP—for an annual fee of $7.50—you will receive the monthly magazine and the special bulletins. You will also be privileged to join a NICAP club in your area and become part of our large reporting network. Most important of all, you will be playing a vital role—not only in aiding to end the censorship—but in helping to find all the answers to the UFO mystery.

To become a NICAP member, merely forward your $7.50 membership fee to

NICAP
1536 Connecticut Avenue
Washington 6, D. C.

We hope you will join us in this factual yet fascinating work.

Sincerely yours,

Donald E. Keyhoe, Major, USMC, Ret.
Director of NICAP

A privately-supported fact-finding body serving the national public interest.
Statement on Unidentified Flying Objects by Admiral Delmer S. Fahrney, USN (Ret.)

Chairman of the Board of Governors of NICAP

"Reliable reports indicate that there are objects coming into our atmosphere at very high speeds... No agency in this country or Russia is able to duplicate at this time the speeds and accelerations which radars and observers indicate these flying objects are able to achieve.

"There are signs that an Intelligence directs these objects because of the way they fly. The way they change position in formations would indicate that their motion is directed. The Air Force is collecting factual data on which to base an opinion, but time is required to sift and correlate the material.

"As long as such unidentified objects continue to navigate through the earth's atmosphere, there is an urgent need to know the facts. Many observers have ceased to report their findings to the Air Force because of the seeming frustration—that is, all information going in, and none coming out. It is in this area that NICAP may find its greatest mission.

"We are in a position to screen independently all UFO information coming in from our filter groups.

"General Albert C. Wedemeyer will serve the Committee as Evaluations Adviser and complete analyses will be arranged through leading scientists. After careful evaluation we shall release our findings to the public."

***

Statement by Donald E. Keyhoe, Major USMC (Ret.)

Director of NICAP

"To carry out the policy stated by Admiral Fahrney, NICAP is developing investigative units and clubs which interested persons may join. Membership in NICAP, at $7.50, also will include a monthly newsletter containing recent UFO (or flying saucer) sightings, reports on secret developments, exciting articles by scientists, pilots and UFO researchers, a new serialized history of flying saucers, and many other features.

"Regardless of membership, we would greatly appreciate receiving news clippings or firsthand UFO sighting reports."
Subject, Director of National Investigations Committee on Aerial Phenomena, by letter of 9/22/58 requested particulars of Bureau's participation concerning unidentified flying objects. The committee he heads is described on letterhead as "A privately supported fact finding civilian committee serving the public interests" and he lists several prominent individuals among "our Board members and Special Advisers." He is a retired Marine.

Keyhoe has been known to the Bureau since 1935 and was, and may still be, a free-lance writer. In 1948 he was described by Mr. Nichols as "a flamboyant writer and we have found from previous experience that much of his material is irresponsible." In 1951 the Director concurred with Mr. Nichols' statement that "We should not get involved with him."

As an example of his writing, the January, 1941, issue of "Cosmopolitan" magazine carried an article written by Keyhoe and John J. Daly entitled "Hitler's Plan to Seize the United States Merchant Marine." This article indicated the Bureau had in its possession documents concerning such a plan by Hitler which indication was completely false.

EX - 133 REC 21 / 9-30-58 - 1 - 3

The attached suggested letter to Keyhoe responds in a very general way to his questions, some of which are extremely pointed such as "Have FBI Agents told witnesses not to talk about UFO sightings?" and "Does the Bureau make character investigations of UFO witnesses in some cases?" The answers which have been furnished are designed to avoid the charge we have not answered questions yet they are broad in nature to avoid his apparent pointed inquiries. His request for an interview with a Bureau official concerning our policy concerning unidentified flying objects has been side-stepped since there appears to be no point in discussing this matter further with him. JANAP 146 is Defense document re reporting intelligence sightings.

ACTION:
That the attached suggested letter be forwarded to Keyhoe. In view of Air Force interest, copy of incoming with copy of our 62-103581 reply being sent Air Force separately.

Enclosure

ESS: jas 9-26-58

53 OCT 9 1958
Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
Washington 25, D.C.

Dear Mr. Hoover:

Some time ago I wrote to you about the subject of unidentified flying objects. I congratulated you and the FBI for the exposure of the so-called "Venus swindle"; at that time I told you that this committee is making a serious, factual investigation of UFOs; we have a mass of verified evidence which disproves suggestions that these sightings are caused by mirages, hallucinations, etc.

The standing and serious aim of our committee may be judged by examining a list of our Board members and Special Advisers. Among them are such distinguished citizens as: Vice Admiral R. H. Hillenkoetter, USN (Ret.), former director of the Central Intelligence Agency; Rear Admiral H. Knowles, USN (Ret.); Colonel Robert Emerson, USAR; Major Dewey Fournet, USAFR, formerly on the Air Force UFO project; Mr. J. B. Hartranft, president, Aircraft Owners and Pilots Association; and other citizens well known in the fields of education, religion, and science.

I am writing to ask what part, if any, the Federal Bureau of Investigation plays in the official investigation of UFOs. Some years ago, Air Force Intelligence officers once told me, FBI agents helped the Air Force interrogate witnesses on some occasions -- particularly when Air Force representatives were not immediately available. I understand that to a limited extent this has occurred in the last year or so. I have also been told that the FBI has a general directive to help the Air Force in its collection of any UFO information.

These of course would be normal functions of which anyone would approve. In this connection, however, we have received several reports which may or may not be correct. We have been told that on certain occasions FBI agents ordered or warned witnesses not to discuss what they had seen, nor to reveal that they had been interviewed officially.

A PRIVately SUPPORTed FACT FINDING CIVILian COMMITTEE SERVING THE PUBLIC INTERESTS
It is possible that the agents suggested or advised such action, rather than giving direct orders.

So far as I know there is no authority to command a private citizen to withhold such information and I am sure the FBI would not approve of such orders without legal authority.

Also, we realize that in some cases even a routine visit by an FBI agent could be misconstrued as carrying serious implications, even requiring silence.

We have been asked about this possibility several times, and I have been questioned once or twice during lectures. We should greatly appreciate having whatever information you can give us so that we may answer such questions, correctly.

Specifically we have been asked:

Does the FBI officially investigate UFO sightings in any way?

Have FBI agents told witnesses not to talk about UFO sightings?

Does the FBI make character investigations of UFO witnesses in some cases?

Does the FBI have any information on UFOs, which can be released?

Is the FBI bound by JANAP 146, as regards the release of UFO sighting reports coming into its possession?

Our Committee believes that censorship of UFO information is not warranted since the Defense Department has repeatedly declared there is no danger involved and no threat to national security. We believe on the contrary, that the policy of secrecy could under certain circumstances lead to hysteria and possibly even panic. We should like to know whether, in the event that the UFOs prove to be extraterrestrial, the FBI has any assigned part in any official plan to prepare for possible communication with extraterrestrial vehicles from another planet.

Several of our Board members have suggested that interviews with Federal agencies involved in this question could be of mutual benefit. If possible, I should like to have an interview with an FBI official acquainted with the facts, and with the FBI policy which may be involved. Thank you for your consideration of these requests.

Sincerely yours,

DONALD E. KEYHOE, Major USMC (Ret.)
Director of NICAP

DEK: k
Dear Sir:

In response to your letter of September 22, 1958, the following requested information is furnished:

The Federal Bureau of Investigation does not investigate sightings of unidentified flying objects. When the details of such a sighting are reported to representatives of this Bureau, the information is forwarded to the Air Force.

Representatives of this Bureau do not issue instructions to individuals who have sighted unidentified flying objects that they should not talk about such sightings.

It is not a function of this Bureau to make character investigations of individuals who have witnessed unidentified flying objects.

This Bureau does not have information on unidentified flying objects which can be released. This does not imply that this Bureau has information concerning unidentified flying objects which cannot be released.

It is understood that JMKU 146 is a Department of Defense document and is not, as such, applicable to the operations of the Federal Bureau of Investigation.

Possible communication with extraterrestrial vehicles from another planet, should the unidentified...
Major Donald E. Keyhoe

flying objects prove to be extraterrestrial, is not a function of the Federal Bureau of Investigation. This Bureau is, of course, interested in any aspect of any development which would affect the internal security of the United States.

Your letter of September 22, 1958, requested an interview with an official of this Bureau concerning the matter of unidentified flying objects and this Bureau's policy in connection therewith. Since this Bureau's policy in connection with unidentified flying objects has been fully set forth above, you may feel that the requested interview is not now necessary.

Sincerely yours,

J. Edgar Hoover

MAIL ROOM
March 21, 1960

J. Edgar Hoover, Director
Federal Bureau of Investigation
Department of Justice
9th & Pennsylvania Ave., N.W.
Washington 25, D.C.

Dear Mr. Hoover:

According to a report in the Detroit Times, March 9 (a copy of which is enclosed for your convenience), FBI agents from the Flint, Michigan office viewed a color photograph of an unidentified flying object (UFO), then took the photograph for analysis. The photograph in question was taken by Mr. Joe Perry and reportedly showed a disc-shaped object with a dome, silhouetted against the moon.

In a letter last year you stated that investigation of UFOs was not within the jurisdiction of the Bureau, and that the Air Force is the responsible agency. In view of the Detroit Times report, we would appreciate having answers to the following questions:

(1) Has there been a change in FBI policy in regard to UFO investigation since last year?

(2) If not, does the FBI gather evidence of UFOs on behalf of the Air Force (and does this explain the action by FBI agents in the case of the color photograph)?

(3) If the above-mentioned photograph has been analyzed in FBI laboratories, or for FBI purposes, may we have a copy of the analysis report and be informed of the final disposition of the photograph?

Sincerely yours,

Richard Hall
Secretary of
FBI WANTS TO KNOW

Pizza Pie–Or Flying Saucer?

GRAND BLANC, March 9—asked to see it again and again.

The FBI today probed into a color photograph of the moon taken by Joe Perry, a talented pizza pie maker, who also takes potshots at the sky with a home-made telescope-camera.

The FBI is interested in the picture Joe snapped last night, and the next day two agents from the Flint office visited Joe's place here.

"I showed them several slides of photographs I took on that particular night," Joe said. "They don't seem to be interested. I showed this particular one and then both of them jumped up."

The agents took the photographs and several others.

"Joe, a grandfather at 44, hopes he has been of some service to government experts in their search for answers in outer space.

"But I hope I get that picture back," he said.

Detroit Times; Wed., March 9, 1960
Mr. Richard Hall  
Secretary  
National Investigations Committee on Aerial Phenomena  
1536 Connecticut Avenue, N.W.  
Washington 6, D.C.

Dear Mr. Hall:

In response to your letter dated March 21, 1960, this is to advise that there has been no change in this Bureau's policy in regard to unidentified flying objects that we do not gather evidence pertaining thereto for the Department of the Air Force, although any information volunteered is, of course, accepted; and that the photograph mentioned in your letter was not examined by the FBI Laboratory or anyone else for FBI purposes.

With respect to the article which appeared in the "Detroit Times," issue of March 9, 1960, entitled "FBI WANTS TO KNOW—Pizza Pie—Or Flying Saucer?" it is noted that certain of the facts in this article as they pertain to the FBI are not set forth accurately and the appropriate officials of the "Detroit Times" have been so advised. Actually, although Mr. Perry, mentioned in the article, did voluntarily furnish two photographs to representatives of this Bureau who contacted him at his request, the FBI did not conduct any investigation in this matter. We did, however, furnish these photographs to a representative of the Department of the Air Force for whatever action was deemed appropriate by that agency.

I trust that the above clarifies this situation.

Sincerely yours,

[Signature]

Note: See cover memo Donahoe to Belmont, ditd 3/23/60, subj: Unidentified Flying Objects (UFO). Jos. Perry, Director, Grand Blanc, Mich., Complainant; JFW: bcm

1 - Detroit (Enclosure)  
Note for SACs WFO and Detroit: Enclosed is copy letter received from Hall. No action desired.
Memorandum

TO: A. H. Belmont
FROM: S. B. Donahoe
DATE: March 23, 1960

SUBJECT: UNIDENTIFIED FLYING OBJECTS (UFO), JOSEPH PERRY, GRAND BLANC, MICHIGAN, COMPLAINT

This memorandum encloses a letter to Secretary Richard Hall, National Investigations Committee on Aerial Phenomena (NICAP), Washington, D. C., pointing out that our policy re UFO incidents has not changed and that certain data in the "Detroit Times" article of 3-9-60 are inaccurate.

The NICAP is described on its letterhead as "a privately supported fact-finding body serving the national public interest." In a previous letter from this outfit dated 4-3-57 its purpose was set out as reporting UFO sightings and developments. We have received no derogatory data concerning this organization and have conducted no investigation pertaining thereto. Its Director is Donald F. Keyhoe, a free-lance writer described by former Assistant to the Director Nichols as "irresponsible." In 1958 Keyhoe asked the Bureau questions pertaining to our investigation of UFO and in our letter of 9-26-58 we pointed out that we did not investigate such occurrences but furnished information concerning them to Air Force.

The "Detroit Times" 3-9-60 carried an article indicating that Joe Perry, a pizza pie maker in Grand Blanc, Michigan, had taken pictures of the moon with his homemade telescope camera; that a photograph resulting therefrom portrayed a saucer-like object silhouetted against the moon; that "the FBI got wind of it" and contacted Perry; that the FBI "probed" into the photograph taken by Perry. Detroit airnel 3-9-60 furnished letterhead memorandum containing facts of this matter indicating that Perry on 3-5-60 was contacted by agents at his request; that he furnished two photographs; that these photographs were turned over to OSI at Selfridge Air Force Base, Mt. Clemens, Michigan. Detroit teleype 3-9-60 pointed out that "Detroit Times" was advised FBI has not and is not conducting investigation concerning the photographs but had turned over the information to the Air Force.

Letter 3-21-60 from Richard Hall, Secretary of NICAP, referred to the "Detroit Times" article and to fact that we had previously advised.

Enclosure

JMW: bcm:to

REC. 83 (2 - 10331 5) 8
11 MAR 30 1960

MAR 4 1960
Memo Donahoe to Belmont
Re: Unidentified Flying Objects
62-103581

that investigation of these matters was not within jurisdiction of Bureau but that Air Force was responsible Agency. Hall wanted to know whether there had been any change in our policy; whether the Bureau gathered evidence of UFO for the Air Force; and whether the photograph described in the article had been analyzed at FBI laboratories or for FBI purposes. Bureau contains no identifiable data re Hall.

ACTION:

Enclosed is a letter to Hall pointing out that the article erred and the appropriate officials at the "Detroit Times" have been advised; that Perry asked to be contacted and voluntarily furnished our agents the photographs; and that we turned these photographs over to Air Force taking no further action.
Dear Mr. Hoover:

I am inclosing an article from today's Washington Post concerning the new law designed to prevent trading on the name of the Federal Government for non-governmental purposes.

As you well know, the National Investigation Committee on Aerial Phenomena has done this for many years and has been a thorn in the side of many governmental agencies during this period including the FBI, the Air Force, Department of Defense, various Congressional Committees and individual Congressmen and Senators.

Could not we possibly invoke this law to curtail the activities of this organization in a manner similar to that described in the inclosed article?

Sincerely,

Inclosure

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
Washington 25, D.C.
Trading on U. S. Name Charged

FBI Invokes New Law to Arrest Woman in Debt-Collection Scheme

By Milton Viorst

The FBI arrested a 53-year-old Silver Spring woman yesterday under a new law designed to prevent trading on the name of the Federal Government for nongovernmental purposes.

Ann J. Wacksman of 8600 Carroll ave., was charged with using a name "calculated to convey the false impression" that her debt-collecting business was a Federal agency. This is the first arrest under the law, the FBI said.

Mrs. Wacksman operated the "National Deposit System" in the Woodward Building, 733 15th st. n.w., the FBI said. She sold printed forms that looked like IBM cards and were designed to convey an official look, the FBI said.

The form stated that "there is a sum of money on deposit for you not in excess of $100" if the recipient answered a series of questions. Mrs. Wacksman sent the forms, in brown window envelopes, to addresses designated by her customers.

The FBI said such official-looking letters got to the addresses while others did not. The merchants were then free to follow up in the debt collection.

The FBI charged that use of the term "National Deposit System Certificate," the format and phraseology and the mailing from Washington "misleads persons into the erroneous and mistaken belief that the form comes from a branch of the United States Government.

A disclaimer which points out on the form that no Federal agency is involved does not destroy the overall effect of the display, the FBI said.

After returning the form, the sender usually received 2 cents, the FBI said, as the sum "not in excess of $100."

Mrs. Wacksman had been issued a "cease and desist" order by the Federal Trade Commission several months ago, the FBI said, and the arrest was made in response to an FTC complaint.

Mrs. Wacksman was arraigned before Municipal Court Judge Thomas C. Scalley and held under $500 bond. The case was continued until Aug. 30.

The Justice Department said the law was passed last year to combat repeated use by collecting agencies and private detectives of names suggesting the authority of the Federal Government.
August 31, 1960

Lieutenant Colonel Lawrence J. Tacker
Chief, Magazine & Book Branch
Department of the Air Force
Washington 25, D. C.

Dear Colonel Tacker:

I am in receipt of your letter of August 23, 1960, concerning the National Investigation Committee on Aerial Phenomena.

The public law to which you refer, Section 712, Title 18, U. S. Code, applies only to skip-tracing or collection agencies for bad debts, and private detective agencies. In view of this fact, no investigation can be conducted concerning the National Investigation Committee on Aerial Phenomena under the afore-mentioned statute.

Your interest in this matter is appreciated.

Sincerely yours,

John Edgar Hoover
Director

NOTE: Air Force Colonel read newspaper publicity on the "Ann J. Wacksman, T/A National Deposit System" Bulletin 43-15022. The Colonel apparently feels that any organization with the words National, Federal etc., in its organization name comes within purview of Section 71, Title 18, U. S. Code, whereas such applies only to skip-tracing and private detective agencies.

NOTE CONTINUED PAGE TWO
The National Investigation Committee on Aerial Phenomena (Bureau file 62-103581) has corresponded with Bureau since 1957 forwarding various material concerning flying saucers. This matter has been referred to the Air Force for any action. No investigation of the organization has been conducted by the Bureau. To date, there has been no complaint received against the organization alleging violation of law over which Bureau has jurisdiction.
Edgar J. Hoover  
Director  
Federal Bureau of Investigation  
Washington, D. C.

Dear Mr. Hoover:

On March 1, 1961, I subscribed for a one year membership ($5.00) to "The U.F.O. Investigator," published by the National Investigation Committee on Aerial Phenomena - NICAP. This organization is located at 1536 Connecticut Avenue, N. W., Washington, D. C.

Today, I received acknowledgement of membership and my first issue of "U.F.O. Investigator."

The contents of this issue points up the pressure being applied to the United States Air Force, Congressional leaders and others to divulge secret information regarding Flying Saucers, etc.

If our Air Force (or any other agency) has such information and our government desires to keep same secret in the interest of national security, I would appreciate your answering this question for me.

"IS NICAP a Communist sponsored outfit???

If so, I have inadvertently contributed my name and support to their cause, by my membership for one year.

Thank you for your interest and reply.

Sincerely yours,

Francis X. Schork

CORRESPONDENCE 502
March 21, 1961

Mr. Francis X. Schork
214 West Broad Street
Tamaqua, Pennsylvania

Dear Mr. Schork:

I have received your letter dated March 13, 1961, and the interest which prompted your communicating with me is indeed appreciated.

This Bureau has conducted no investigation of the organization about which you inquired. In addition, the jurisdiction and responsibilities of the FBI, strictly an investigative agency of the Federal Government, do not extend to furnishing evaluations or comments concerning the character or integrity of any organization, publication, or individual. I am sure you will understand the necessity for this policy and will not infer that we do or do not have in our files the information you desire.

In view of your interest in the internal security of the United States, I am enclosing some literature which you may wish to read.

Sincerely yours,

J. Edgar Hoover
