Ah, the joy of it! I hope you enjoy these recipes, all taken from various books and the internet. I must apologise for anyone who doesn't get credit for their recipes – I tried, but many of recipes' sources are lost in time and space.

How to use this book? I would recommend marking with a pencil all the recipes that you try, grading them out of ten and making notes such as 'too watery', 'too much salt', which will help if making them again.

I haven't tried all these recipes out, as there are so many... so, there could be good as well as bad lurking in there. Apologies for any duds!

Regards, Ralph.
**Glossary**

Here are just a few curry terms to get you going, if you get stuck. The problem with Asian foods, is that there are literally hundreds of words for similar things – take India for example, where everyone speaks a few languages and there are more than a dozen in the country. So each region has its own dishes, which may be similar to a neighbour’s, but have different names.

We can, then, separate curry dishes into three types – first, the regional, speciality dishes that you rarely find in your local restaurant – the Masala Dosas, Pakodi Kadhis and Barwa Baigans of the world; then the mainstream, breakthrough curries that everyone knows and loves – vindaloo, rogan josh, etc.; and finally the dishes that have been created in the west to mimic them – the ubiquitous 'Vegetable Curry', which you'll more than likely be served if your Australian auntie offers to cook you a curry.

Another problem is the fact that Indian languages are all written using phonetic scripts, and there is some disagreement about how to write them in a Roman script – the 'Dal' vs. 'Dhal' debate, if you like. So, go by the sound of things, and if two things sound similar, they are probably the same. This is also why India produces such amusing English menus – they often spell English phonetically too.

"Vegetable Curry"

Yes, this is it. The curry that anyone can make simply by mixing cumin, coriander and turmeric with some vegetables, or, with a tin of Patak's curry sauce mix. I've grouped all curries that don't mention a particular style or region in here – the 'curried mushrooms', the 'aloo gobi'. Some are quite traditional, and some more modern - you can normally judge from the ingredients and style of writing.

**Aloo Gobi 2**

This recipe livens up ordinary cauliflower and potatoes into something quite different. The recipe shown here has spices that are not necessary (like cloves and cardamom) or at least that's not how mom made it at home, however it adds a nice touch.

Ingredients:

- 1 Large cauliflower
- 3 Medium sized potatoes
- 1/2 large Onion sliced thin in long slices
- 1 tsp Mustard seeds
- 2 or 3 pods Cardamom
- 1 tsp Coriander
- 1 tsp Cumin seeds
- 1/2 tsp Turmeric
- 1 Bayleaf
- 3 Cloves
- 3 tblsp Vegetable Oil

Method:

1. Start boiling the potatoes in a saucepan. Let them boil for at least 15 minutes. After they are done, turn off the heat and let them stand in the water.
2. Cut the cauliflower into small bite sized pieces (roughly 1” cubes), throwing away most of the stem pieces. Wash and drain in a colander.
3. While the potatoes are cooking, heat the oil in a wide skillet until it is very hot. Add the mustard seeds and wait until they start popping. Add bay leaves, cardamom and cloves.
4. Mix around for a while and then add onions. Wait until the onion starts to turn before adding the rest of the spices (except for turmeric).
5. Put the cauliflower in the skillet and fry in the oil and spices for 2 minutes. While the cauliflower is frying, cut up the potatoes into bite sized pieces and add to the skillet. Add turmeric and stir.
6. Continue stirring the vegetables under medium heat for another couple of minutes. Add 1/2 cup of water and reduce heat to low. Cover skillet and let cook for 5 minutes.
7. Check tenderness of vegetables. If they are still too hard, add another 1/4 cup of water and cover again for 5 minutes.
8. Salt to taste and serve.

Capetown Fruit and Vegetable Curry

Ingredients:

- 4 cups (or less) chopped onion
- 2 garlic cloves, minced
- 1 teaspoon grated fresh ginger root
- water

Spices:

- 1 1/2 Tablespoons ground cumin
- 1 1/2 Tablespoons ground coriander seeds
- 1 1/2 teaspoons cinnamon
- 1 teaspoon turmeric
- 1/2 teaspoon cayenne or other ground red chili
- 1/2 teaspoon ground fennel seeds
- 1/4 teaspoon ground cardamon
- 1/4 teaspoon ground cloves

- 2 (or more) medium zucchini, quartered lengthwise and chopped into 1 inch pieces
- 1 1/2 cups water
- 1 cup (or more) firm green beans
- 2 tart green apples (or pears), cored and cubed
- 1 red (or green) bell pepper, coarsely chopped
- 1/2 to 1 cup chopped dried apricots
- 1/2 cup currants or raisins (I used currants)
- 1/4 to 1/2 cup apricot conserve (or orange marmelade --- I used 1/4 cup)
- fresh lemon juice (optional)

- cooked brown rice (or white)
- bananas

Method:

1. Heat a heavy pot (non-stick or sprayed with cooking spray) until medium-hot. Add onions, garlic and ginger, stir til slightly brown and sticking, then add a splash of water and stir to unstick the onions. Keep cooking for about 5 minutes, stirring all the while. Let the onions stick a little, but add small amounts of water and scrape the bottom to prevent burning.

2. Add spice mix and continue to cook for 10 more minutes, again letting the mixture stick slightly but adding water as needed to prevent burning. (I set the timer for 10 minutes to make sure I'm patient enough to cook for 10 minutes. If you need to leave it for a little while, just add more water to prevent burning).

3. Add zucchini and 1 1/2 cups water, stir well to clear the bottom of the pan, cover and simmer for 10 minutes.

4. Mix in green beans, apples, bell pepper and dried apricots. Simmer gently for about 20 or 30 minutes, until beans are cooked to your taste. Stir in currants and apricot conserve (orange marmelade). Adjust flavors to your liking by adding more cayenne or Garam Masala for spiciness, lemon juice for tartness, more apricot conserve for sweetness.

5. Serve over rice garnished with sliced banana.

**Ralph's Basic Curry**

**Prep time:** 20 mins.
**Cooking:** 1 hour or more.

**Ingredients:**

**Paste:**
- 3 tbsp curry powder.
- 1 tsp cumin (powder or seed)
- 1/2 tsp turmeric
- 1 tsp cinnamon
- 1/4 tsp cayenne pepper
- 1/2 tsp mustard seeds
- 1/4 tsp fenugreek seeds
- 1/2 tsp salt
- 1/2 tsp sugar
- 2 tbsp oil (ghee or any other kind)
- 1 inch ginger
- 2 garlic cloves
- small capfull vinegar
- a few cloves
- 1 hot chilli pepper

**Other:**
- fresh coriander
- some vegetable stock (cube or liquid)
- 2 medium sized onions

**Method:**
1. Preheat a sturdy frying pan and get a bigger pan with a lid ready.
2. Add oil to the pan and allow to pre-heat on medium heat.
3. Peel and chop the onions as finely as you can.
4. Add to the hot oil and sprinkle a little salt on the top. Ensure that the pan is not too hot, you don’t want the onions going brown.
5. Whilst the onions cook slowly, make the curry paste.
6. Add all the powders and seeds together in a stain-proof bowl, peel and chop the ginger as finely as you can, along with the garlic and chilli (which can be cut into slices or finely) and add it all to the powder. Add the oil and vinegar and mix well. If it is too stiff, add more oil (you need a lot of oil to make a good curry, use olive oil if you’re worried about your health.)
7. Remember to stir your onions upon occasion. When they are well cooked and clear, turn down the heat to low and allow to cool slightly.
8. Push the onion to the edges of the pan and make a space in the middle. Add the curry paste to fill the centre and allow to cook for a minute or two. This should make a very nice smell.
9. Mix the onions with the paste and cook for another minute or less. This onion mix is the base for any curry.
10. In the large pan, boil a cup of water or two, and add the stock. Add the onion mix to this and any other ingredients too and cook on a low heat, covered, for an hour or so.
11. You may need to salt the curry more than I have, I like to add quite a lot, but not everyone has the same taste, remember that salt is a flavour enhancer and really brings out the tastes. But don’t be like me when cooking a curry from the Hare Krishna cookbook which called for a ‘tablespoon of salt’, which made the curry absolutely inedible. Upon reflection, it was probably supposed to be a teaspoon.
12. Add the chopped, fresh coriander about ten minutes before serving.

Example: **Potato, spinach and lentil.**

(Use the Basic Recipe as base)

Lentils add a real flavour kick to curries and help the texture.

1. 2 Handfuls dry lentils. (Canned lentils will do, if you must, but they aren’t as good, but can be added without cooking).
2. Boil some water, half of a medium pan full, adding a generous amount of salt.
3. Add the lentils and boil for ten mintes.
4. Turn down the heat and cook for at least 30 minutes covered, on low (an hour if you have the time).
5. If the lentils get too thick add some more water. If too thin after cooking, take cover off and cook until the liquid is reduced a little. Liquidy isn’t a problem if you’re adding to a curry, add this liquid can replace the plain water in the big pan, or combine it with the potato juice. Do not drain the lentils!
6. Add the lentil mix with all the other ingredients in the big pot and cook as usual for an hour, covered, on low.

A Korma doesn't have to be coconut based, only rich and creamy. So a dish made with cream, or yogurt can be a korma as much as any other. I've grouped all kormas and dishes that use a lot of coconut together.

3. Brush the vegetables with the remaining oil and grill under a medium heat until golden.

4. To make the satay sauce, heat the oil in a small saucepan and fry the shallot, garlic, chillies and spices for about 5 minutes until tender. 2. Meanwhile, put the coconut, green chillies and cumin seeds in to a blender. Add 250ml/9fl oz water and blend to a fine paste.
3. When the mangoes are cooked, mash them to a pulp. Add the coconut paste. Mix. Cover and simmer over a medium heat, stirring occasionally, until the mixture becomes thick. This should take about 10-15 minutes. Add the yoghurt and heat, stirring, until just warmed
through. Do not let the mixture come to the boil. Remove from the heat and put to one side. Check for seasoning.

4. Heat the oil in a small pan over a medium-high heat. When hot, add the mustard seeds. When the mustard seeds begin to pop (a matter of a few seconds) add the chillies, fenugreek seeds and the curry leaves. Stir and fry for a few seconds until the chillies darken. Quickly add the contents of the small pan to the mangoes. Stir to mix.

This is the South Indian variation of "vegetables in rich gravy". My mom adds soaked soya bean curd balls (called Mealmaker in India) to enhance the flavor and nutrition of the dish.

Ingredients
- 3/4 cup each of chopped cabbage, beans, carrots,
- potatoes and cauliflower
- 1 small onion, sliced
- 2-3 tbsp ghee (clarified butter)
- Salt to taste
- Coriander leaves for garnish

For the gravy, blend the following into a very smooth paste:
- 1/2 a coconut, shredded
- 1 small onion
- 5-6 flakes garlic
- 1” piece ginger
- 2 tbsp curd (plain yoghurt)
- 1/2 tsp poppy seeds
- 1 tsp cumin seeds
- 1 tsp coriander seeds
- green chillies
- 2 dry red chillies
- 2-3 peppercorns
- 1/2 tsp saunf (fennel)
- 1 small stick cinammon
- 1 cardamom
- 2-3 cloves
- 1 tbsp cashewnuts
- 1 small tomato
- 2 tsp thick tamarind juice or 2 tsp lemon juice

Method
1. Steam the vegetables till they are about half done.
2. Remove and set aside.
3. Heat the ghee and fry the sliced onion till it starts changing color.
4. Now add the blended masala and bhunna(fry) till the oil starts leaving the sides of the masala.
5. This will take a minimum of 15 minutes.
6. Even if the masala sticks to the bottom of the pan, don't worry.
7. The more the masala fries, the better the dish will taste.
8. If the masala starts sticking to the pan, lower the heat and sprinkle a little water and continue frying, stirring continously.
9. When the masala is fried well and turns aromatic, add the half cooked vegetables and salt to taste.
10. Add some water to get a gravy.
11. Mix well.
12. Put it back on the stove and bring it to a boil on low heat.
13. The vegetables should be done by now.
14. Remove from heat.
15. Garnish with coriander leaves.
16. Serve hot with chapatis or plain rice.

**Pillau Rice**

by Kris Dhillon

This colourful rice dish with its wonderful aroma is probably the most popular way of serving rice in Indian restaurants. It is a modification of the lavish pillaus made with lashings of ghee, opulently flavoured with saffron and generously garnished with almonds, sultanas, and silver ‘vark’ that are served in parts of northern India on festive occasions.

The dish familiar nowadays uses less ghee and relies on food colourings rather than the expensive saffron for its array of colours.

Serves 4.

Preparation and cooking time: 30 minutes approx.

**Ingredients:**
- ¼ teaspoon yellow food colouring
- ¼ teaspoon red food colouring
- 2 cups basmati rice
- 1 tablespoon vegetable ghee
- 2 teaspoon finely chopped onion
- 6 green cardamoms
- 1 by 2 inch (5cm) stick cinnamon
- 4 cloves
- 2 bay leaves
- 3 cups cold water
- ½ teaspoon salt

**Method:**
1. Mix each food colouring with about a tablespoon of water, keeping the two colours separate, and set aside.
2. Pick over the rice carefully for any stones and wash thoroughly in several changes of water. Leave to drain in a colander or large sieve.
3. Meanwhile heat the ghee in a heavy pot, and fry the onion until just translucent. Add the cardamoms, cinnamon, cloves, and bay leaves and cook for one minute.
4. Add the rice to the pot and mix well to coat all the grains with the ghee.
5. Pour in the water, add the salt, stir and bring to the boil. Once boiling turn the heat to very low and cover the pot with a tight fitting lid.
6. Switch on the oven to preheat to gas mark 3 (350F or 170C).
7. After five minutes stir rice gently with a fork or a wooden spoon. Cover again for a further three minutes.
8. After this time stir the rice again, but very carefully to avoid breaking the grains which will by now have become softer. The best way to do this is to slide the spoon down the side of the pot and gently lift the rice at the bottom to the top. Cover again, and repeat this procedure after a further two minutes. This method ensures that all the rice cooks evenly and you don’t get a soggy mass at the bottom for the pot whilst the top layer remains under-cooked.
9. Now take one of the food colourings and make two lines of colour across the rice. Repeat with the other food colouring and make two lines down.
10. Replace the lid and place the pot in the oven for 15-20 minutes to finish cooking the rice and set the colours.
11. Remove the rice from the oven and transfer to a suitable container layer by layer to avoid breaking the rice. Fluff up gently with a fork to distribute the coloured grains equally.
12. Serve immediately or cool and refrigerate for up to three days.
13. When re-heating, the ideal way is to use the microwave oven. If using a conventional oven, remember to cover the rice to prevent it drying up.
Peas Pillau

by Kris Dhillon

The restaurant method of making peas pillau is to warm up ready made pillau rice (recipe page 102) with some frozen peas that have been thawed out in a little hot oil. You may wish to do just this if you have some left over pillau rice. If not, follow the recipe below, which I feel is the better way to make this rice dish.

Serves four.
Preparation and cooking time: 30 minutes approx.

Ingredients:
- 2 cups basmati rice
- 1 tablespoon vegetable ghee
- 1 small onion finely chopped
- ½ lb (225g) frozen peas
- 4 green cardamoms
- 2 bay leaves
- 1 by 2 inch (5cm) stick cinnamon
- 1 teaspoon whole cummin seeds
- 3 cups cold water
- 1 teaspoon salt

Method:
1. Pick over the rice and wash in several changes of water. Leave to drain in a colander or sieve.
2. Heat the ghee in a heavy pot and fry the onion until transparent.
3. Add all the remaining ingredients except rice, water, and salt, and cook on a gentle heat for 6-7 minutes, stirring now and again.
4. Add the drained rice and mix well. Stir in the water and salt and bring to the boil.
5. Cover the pot with a tight fitting lid and turn down the heat to very low.
6. Preheat oven to gas mark 3 (350F or 170C).
7. After five minutes stir in the rice. Replace lid for a further three minutes. Stir very carefully after this time by sliding the spoon down the side of the pot and gently pushing the rice at the bottom, towards the top.
8. Place the covered pot in the hot oven for about 15 minutes to dry off the rice.
9. Transfer to another container layer by layer and fluff up with a fork.
10. If not using immediately, cool, and keep covered in the refrigerator for up to two days.

11. NB. Peas pillau made in this way is delicious eaten cold with spiced yoghurt.

**Balti Vegetarian**

**Ingredients:**
- 250 g Fresh coriander
- 2 tbsp Oil
- 125 g Grated or finely chopped onion
- 1 tsp Fresh garlic, ground
- 250 g Peeled potato, cut into 2.5cm cubes
- 1 tsp Salt
- ½ tsp Red chili powder (omit for milder taste)
- ½ tsp Turmeric
- 1 tsp Ground fresh green chilies (optional)
- 1 tbsp Ghee or
- 2 tbsp Oil
- 1 tsp Grated fresh root ginger

**Method:**
1. To prepare the coriander, take the leaves off the stalks, add to a large bowl with plenty of water and soak for 20 seconds, so the silt can settle to the bottom. Gently remove the leaves and chop finely or blend in a food processor.
2. Put the oil in a karahi or deep frying pan, add the onions and fry until transparent. Add the garlic and fry for 1 minute, then add the potatoes, salt, red chili powder and turmeric. Cook on lowest heat setting for 5 minutes, or until potatoes are par-cooked.
3. Add the coriander and fresh chilies (if used) and mix once. Simmer on low heat, for 10 minutes or until potatoes are fully cooked. Stir from time to time to prevent mixture from sticking to the bottom. If the potatoes are cooked but liquid remains, cook uncovered until it evaporates.
4. In a small frying pan add the ghee and grated ginger and cook on low heat for 1 minute or until brown. Pour on top of the vegetables in the karahi -- this is called "tarka". Take to the table to serve, without mixing. Serve with warm nan bread or chapattis brushed with some oil.
or butter, and a bowl of natural yogurt and thin slices of mooli (white radish).

**Sne’s Dal**

This is a famous recipe (for us) that we learnt in India from the lovely Sne, so this, at least, is authentic. Dal is eaten daily in India.

**Preparation:** 10 mins  
**Cooking:** 1 - 4 hours.

**Ingredients:**
- 1 glass lentils or bean mix
- 6 glasses of water
- Generous amount of salt (to personal taste)
- 1/2 tsp turmeric
- Splash of oil
- Big pinch coriander seeds (or small handful)
- Big pinch cumin seeds (or about a teaspoon)
- Dry chilli
- Ghee or other oil (be generous)

**Method**
1. Boil the lentils in the water with the turmeric and splash of oil, on a high heat for ten minutes, then cook, covered on low heat for at least 1 hour, preferably three or four.
2. When liquid is reduced you can taste the dal. It should taste good, if it is bland then you may need more salt, or more cooking.
3. If the liquid boils down and it gets too thick too early, lower the heat and add some more water.
4. The mix, in the end should be gloopy.
5. In a small frying pan, heat the ghee or oil until very hot, take off the heat and add the coriander seeds, return to heat until very hot again (not long), add the cumin seeds and the dried, chopped chilli. Without dithering immediately pour this mix into the pan of dal and put the lid on straight away.
6. You may get a lot of noise from the pan, this is fine.
7. Add a little water to the frying pan and heat until boiling, add this to the dal too.
8. Take the dal off the heat and allow to stand for ten minutes, mix and serve.

[Note that if using a bean mix, rather than dal, you'll either have to pre-soak and pre-cook the beans, or simmer them for up to 8 hours, rather than 1 to 4]

**Tarka Dal**

by Kris Dhillon

This nutritious dal is made with red split lentils which turn a pale yellow when cooked.
Serves 4-6.
Preparation and cooking time: 1 hour

**Ingredients:**
- ½ cup red split lentils
- 3 cups water
- 1 level teaspoon salt
- 1 small onion chopped
- 3 cloves garlic finely chopped
- 4 tablespoon melted vegetable ghee
- Pinch turmeric
- ½ teaspoon garam masala
- 1 small tomato
- 2 teaspoon finely chopped green coriander

**Method:**

1. Pick over the lentils for any stones and wash them in several changes of water. Put into a saucepan with the three cups of water, add the salt, and bring to the boil.
2. Turn down the heat and simmer uncovered, skimming off the froth that collects at the top for the first 20 minutes or so during cooking. After this stage, the pan should be partly covered.
3. Cook, stirring occasionally, for a total of one hour, at the end of which time you should have a pale yellow, soup-like consistency.
4. While the dal is cooking, fry the onion and garlic in the ghee until the onions are pale brown.
5. Add the turmeric and garam masala to the onions and cook for two or three seconds.
6. Stir the onion mixture into the cooked lentils. Serve hot, sprinkled with chopped tomato and green coriander.
All these recipes call for paneer, and you'll probably have to make some before starting any of them.

**Home-made Paneer**

by Sunita

**Ingredients**
- 5 cups of whole milk
- 2 tsps vinegar

**Method**
1. Boil the milk in a open pan.
2. When it's boiling, add the vinegar and wait for the milk to curdle completely.
3. Take it off the fire and let it sit for 10 minutes.
4. Pour it onto a cotton/muslin cloth and tie it with a tight knot.
5. When all the water is drained from the paneer, shape it into a large rectangular block, transfer it into another piece of paper/cloth, wrap it properly and refrigerate it overnight.
6. Cut into cubes and deep fry in hot oil.
7. Drain and store in the freezer.
Paneer 2

Ingredients:
- 1 1/2 pints Milk
- 1/2 tsp White vinegar AND
- 1/2 tsp Lemon juice OR
- 1 cup Yogurt

Method:
1. Heat milk and stir constantly to prevent a layer of cream from forming on the top.
2. Remove from heat when it boils and slowly add white vinegar and lemon juice or yogurt. This sours the milk. Strain through a muslin cloth or a double layer of cheese cloth and squeeze out the whey (liquid).
3. Hang to drip dry for 2-3 hours (or overnight). Then lay out the cheese in a rectangle in a tray and place a weight (the more the better, but at least 10 lbs) on it for 3/4 hour.
4. Cut it into whatever shape you like.

Mattar Panir 3

by Kris Dhillon

This is a dish that is popular with vegetarians as it contains plenty of protein in the form of curd cheese cubes.
Serves 2-3.
Preparation and cooking time: 40—45 minutes

Ingredients:
- 2 pints (1.15 litres) whole milk
- 4 tablespoon lemon juice
- Oil for deep frying
- 6 oz (175g) frozen peas
- 4 tablespoon vegetable oil
- 1/2 pint (275ml or two cups) curry sauce (page 20)
- 1 level teaspoon salt
- ½ teaspoon turmeric
- ½ teaspoon ground coriander
- ½ teaspoon chilli powder
- ½ teaspoon garam masala
- 1 tablespoon single cream (optional)
- 2 teaspoon finely chopped green coriander

Method:
1. Bring the milk to the boil in a saucepan. Immediately add the lemon juice and stir until the milk appears to curdle. The solids should be visibly separated from the whey.
2. Strain though muslin or a clean tea towel. Place the curds, still in muslin, in a tray. Put something flat on it, such as a chopping board, and weigh it down with something heavy. A large saucepan full of water is ideal. Leave for about 15 minutes. This squeezes all the liquid out of the curds.
3. When this is done, cut the fat slab of curds into approximately ½ inch (1cm) cubes, and deep fry in hot oil until golden on the outside. Drain.
4. Rinse the frozen peas in hot water and drain. Heat the oil in a deep frying pan and fry the peas in it for about three minutes.
5. Add the curry sauce and bring to a simmer. Stir in the salt, cummin, ground coriander, and chilli powder and simmer for ten minutes.
6. Now add the cheese cubes and the garam masala. Simmer for a further ten minutes.
7. Stir in the cream if used, and the green coriander.

**Bhel**

This recipe is directed at those who know what Bhel puri tastes like, quantities mentioned are approximate, proportions are left to the reader's taste. Purists will have to go to an Indian grocery shop. Deviationists may use substitutes. The most important thing is to keep the puffed rice-sev mixture crisp by not adding the other ingredients to it until it is served. This should be done on the plate.

Ingredients:
- Puffed Rice (1 carton of Rice Krispies may be used)
- 1 packet Bhel mix or Sev
- 2 cups Mashed boiled potatoes (mashed coarsely and then salted)
- 1/2 cup Chopped fresh coriander leaves (a.k.a Chinese parsley)
- 3 Tbsp Freshly roasted and ground cumin
- to taste Green chilies
- 1-2 Tbsp Freshly ground black pepper
- to taste Tamarind
- to taste Jaggery (or Brown Sugar)
- 1 cup Chopped onions.

Method:
1. First boil the potatoes, mash them, salt them, and add pepper to taste. Add some coriander leaves too.
2. Roast the cumin and grind it.
3. Dissolve about 4 Tbsp of tamarind concentrate in 1 cup of hot water, and let it simmer and thicken gradually. Dissolve the jaggery (or sugar) until the sauce becomes tart and slightly sweet. (You may add some salt and ground red paprika, if you want to.) The sauce should be of a consistency slightly thinner than maple syrup.
4. Pour into a serving container (like a creamer). Mix the puffed rice and sev/bhel mix in a large bowl.
5. On a plate, serve the rice-bhel mixture, add the potatoes, then the onions, chilies, and then dust the cumin powder over it.
6. Next pour on the sauce and top with the coriander garnish. (Add salt/pepper to taste).
7. Mix the ingredients on the plate and eat.

Idli

Ingredients
- 1 cup black gram (urad) dal
- 1 teaspoon methi seeds
- 1/2 teaspoon salt
- 2 cups cream of rice
- spray oil or ghee for greasing cups

Method
1. Lightly wash urad, and cover with chlorine-free water. Grind methi and mix with urad, along with salt, and allow to soak uncovered for 3 hours. Soften the cream of rice by soaking for the final 15 minutes. Without washing, grind urad in food processor to a fine paste. Add cream of rice to paste, and grind again until mixed well. Place in ceramic bowl, cover with plastic wrap, and place in a warm place until double in bulk. The amount of time this will take depends on the temperature. The batter will double in 8 hours if the temperature is over 85 degrees, and at lower temperatures it can take as long as 30 hours. If the batter doesn't rise, don't despair, just find a warmer place. A small microwave oven, with the door open just enough to turn on the light, works well, as does a cold oven with the light on.
2. Many silly people substitute rava (sooji, cream of wheat) for rice, especially in colder climates like the Frisco Bay Area, because their batter doesn't rise. This is an unnecessary compromise, and people so inclined may just as well go to Pasand and eat their idli bricks. The fermentation process depends on the presence of wild yeast, which appears to stick well to the urad and to the methi. Soaking the dal uncovered allows you to "catch" additional yeast from the air. Don't use baking soda, baking powder, yeast, or yogurt to "help" fermentation. I've conducted controlled experiments on these agents, and methi outperforms them. Yeast starts fast, but it poops out and leaves your idli tasting like elephant cacoos. Baking soda, baking powder, and yogurt retard fermentation.
3. After your batter has gone nuts, you are ready to make idlis. Stir (don't beat) the batter slightly, just enough to evenly distribute the bubbles and not enough to make it subside. Grease idli cups (you can use egg poachers if you want) with spray-on oil or butter, and fill them (almost full) with the idli batter and steam in an idli vessel (basically, a big steamer) for about 15 - 20 minutes.
4. The same idli batter can be used to make Sannan. Pour the batter in the container of a pressure cooker (previously greased with oil) about 3/4 full and steam for 15 - 20 minutes as above. Take out and cut into pieces with a spatula.

Masala Dosa

Ingredients
- 3 cups rice (not basmati!), soaked overnight, room temp. water.
- 1 cup urad dal (a specific type of lentils avail. at Indian grocery stores-- no substitution; other dals will not work like this)

Method

Soaked separately overnight. Traditionally, stone grinders (huge mortars) and rolling pestles are used to grind the rice and the urad dal and motorized versions of those are now available at Indian elecetronic stores in D.C. A mixie or a blender cuts the grains into fine pieces, but does not "mash" them like the stone grinders do. So there is a good deal of difference taste when you use a blender. But still, it is not bad at all if you make sure that you grind the rice really fine. Cover the rice with water just 1/2 "above the rice line in the blender. Grind till Ssssssmooth. Grind the dal separately, with water that barely covers it. Grind a long time (be patient!), stirring once in a while and grinding again. When the dal is ground very well, and small air bubbles appear once you stop running the blender, it is enough. Add more water if necessary. But this should be very thick. Mix the rice and the urad dal pastes, with 1/2 tsp salt.

Add one tablespoon beaten yogurt, and mix well. Keep covered to let oit ferment fro at least 5 to 8 hrs or more. (Keep it close to a heater or in any warm place). Once it has risen, stir briefly, and keep it oin the fridge. You have the batter now. Grease a griddle with plain sesame oil or peanut oil if you care about max. flavor; if not use veg. oil. The heat should be medium or slightly higher. When hot (a few drops of water will sizzle gently and disappear), using a metal ladle, pour one ladleful over the griddle; with quick and even and gentle strokes, spread the batter out with the ladle as if you are drawing concentric circles on the batter. Do it either clockwise OR anticlockwise else you get lumps. It takes a few tries believe me, and some of us who are trained well in this mess up occasionally.
drizzle oil around edges, and on top. Once the bottom is cooked, turn it over, and cook the top. Be careful when using your spatula (metal preferred) to take it out to flip it. This can be served with chilli-dal-spice powder and oil or ghee, coconut chutney, cilantro or mint chutney, onion chutney, or red garlic chutney, and/or saambar. (If you want their recipes, email me) This is standard breakfast or supper fare for us, growing up in the south.

Else, as in your restaurant, make a filling as follows:

1. Take 2 large boiled potatoes, peel and mash coarsely.
2. Thinly slice one large red onion, 2 cloves of garlic (optional) and 3 or 4 green chillies.
3. Grate a 1” piece of ginger.
4. Cut up a tomato if you want.
5. Take a sprig of curry leaves and chop them coarsely.
6. Heat some veg. oil, add some fennel seeds, and cumin seeds (1/2 tsp. each)
7. Add 1/2 tsp of black mustard seeds.
8. When they crackle, add the green chillies, ginger, garlic (if used), and onions and fry them with a little salt for a while till onions are transparent. Add curry leaves.
9. Next add 1/2 pkt of frozen peas, tomatoes (if you choose), and fry for 5 minutes.
10. Add the potatoes, and more salt if desired. stir well till blended
11. Add some chopped cilantro if you want.

When making the dosai, spread the batter out as mentioned earlier, drizzle oil, and keep the skillet or griddle covered (any cover will do as long as the dosai area is covered; just be sure the cover does not touch the dosai). In less than a minute, the dosai will be cooked with oil on the bottom, and its top will be cooked by the steam that is generated when you cover it. The color is now not the white of the batter but kinda dull; you‘ll know) Turn the heat down, place the cooled filling across the center along the diagonal, and fold both sides overlappingly over it to form a cylindrical shape. Increase the heat slightly, drizzle more oil, and cook both sides till golden. Else, place the filling in the center, and fold from three sides, forming a triangle, overlapping and covering the filling.

4. Add the garlic, chillies, ginger, carrots and curry powder, and cook, stirring all the time for another 2 minutes. Take the nuts out of the oven and roughly chop them.
5. Add the soaked bread and milk to the mixture making sure you chop up the bread with your spoon or spatula so that it gets evenly distributed. Stir in the nuts and the apricots, then add the lemon juice. Season the mixture.

6. Put the mixture into a baking dish, smooth it out and stand the leaves in it so that they can be removed later. If you’re using lemon zest then just scatter it over the mixture. Bake for 5-10 minutes while you make the topping.

7. For the topping: beat the milk, yoghurt or cream with the eggs and season with salt and pepper. Pour over the bobotie and bake for another 30 minutes.

Tip: Roast and grind your own spice mix with the following ingredients:
- half a cinnamon stick
- 2 tsp cumin seeds
- 1 tsp coriander seeds
- 2 cardamom pods
- ½ tsp fenugreek seeds
- 1 tsp mild paprika
- 2 cloves
- 1 tsp allspice or 6 berries.
- 2 tsp chilli powder is an option but can be left out if using fresh ones in the bobotie.

Put all the spices in a dry frying pan over a low heat until the cumin seeds start to spit then grind them together in a coffee grinder (easy option) or a pestle and mortar (hard work). Grind them as finely as you can. The kitchen will smell fantastic.

**Bhatoora**

by Kris Dhillon

These deliciously soft breads are not normally served in restaurants, but I have decided to include them because they are ideal cooked in advance and reheated and also because they are probably the easiest of all the Indian breads to make. You may make these with white flour or ata.

Makes 8-10.
Preparation and cooking time: 30 minutes.

Ingredients:
- 8 oz (225g) flour
- ½ teaspoon baking powder
- ½ teaspoon salt
- 8 fl. oz (220ml) plain yoghurt approx.
- Oil for deep frying

Method:
1. Sift the flour, baking powder, and salt into a bowl. Slowly add the yoghurt and gather the flour together with your fingertips until you have a soft dough.
2. Knead lightly and set aside to rest for at least 15 minutes.
3. Put the oil on to heat on a medium heat. Meanwhile divide the dough into eight portions without rolling into balls.
4. Dust your hands with flour and take one of these portions of dough and form into a ball.
5. Flatten the ball, dust well, and roll out into a 7-8 inch (17-20cm) round.
6. Now turn up the heat under the oil for a minute or two to get it really hot.
7. Slide the bhatoora carefully into the hot oil. It will sink at first but, if the oil is hot enough, it will rise to the surface in seconds.
8. Using the slotted spoon, push it back into the oil briefly and then turn it over for a few seconds.
9. Remove the bhatoora from the oil with a slotted spoon and put it on a plate lined with kitchen paper.
10. Repeat with the remaining dough. Drain the bhatooras well on kitchen paper and either serve immediately or wrap in foil for reheating later.
11. Tip. If you are making just a few bhatooras, you may like to roll them all out before frying them.

**Chapati (Phulka)**

(for 4, serving 1 or 2)

Ingredients:
- 1 cup Whole wheat flour (or 1/3 white + 2/3 whole wheat)
- 1/2 cup Water

Method:
1. Put flour in a large bowl with half the water. Blend the two together until it holds.
2. Beat and knead well until it forms a compact ball. Knead dough until it is smooth and elastic.
3. Set aside for 30 minutes.
4. Knead and divide dough into 4 to 6 parts. Roll each ball into a tortilla like flat, about "1/8" thick. Heat an ungreased skillet.
5. Put phulka on it, and let it cook for about 1 minute (The top should just start to look dry and small bubbles should just start to form).
6. Turn and cook the second side for 2/3 minutes until small bubbles form.
7. Turn again and cook the first side pressed lightly with a towel. It should puff. Serve warm (maybe slightly buttered).
8. Note: Since the rolled out chappati's will dry out if they are left to stand while cooking the others, it is advantageous to roll them out individually before cooking them.
Chappatis 2
by Kris Dhillon

These flat round breads are made with ata (sometimes called chappati flour). Three parts wholemeal flour with one part plain white flour may be used instead. Mix with water to a soft, slightly sticky dough and leave to rest at least 15 minutes before using. Chappatis are cooked on a tava, that is a circular cast-iron plate with a long handle. A heavy cast-iron frying pan would make a suitable substitute. Practice makes perfect when it comes to chappati making, so do not be put off if your first efforts are not as good as you would like. They will taste fine even if they do not look immaculate.

Makes 8-10
Preparation and cooking time: 30 minutes approx.

Ingredients:
- 8 oz chappati flour with extra for dusting
- 4 fl. oz (110ml) water (very approximately)

Method:
1. Put the flour into a bowl. Add the water a little at a time and bring the flour together with the fingertips.
2. As the dough becomes stickier, draw it together with your hands, adding more water until all the flour is incorporated and you have a soft pliable dough.
3. Knead the dough with wet hands for a minute or two. Fold into a neat shape, dampen the surface, cover and leave to rest for 15 minutes.
4. Put the tava on the hob to pre-heat on a medium heat.
5. Roughly divide the dough into 8-10 parts without forming into balls.
6. Now dust your hands lightly with the extra flour and take a portion of the dough. Roll it between your hands into a ball. If it feels sticky use a little extra flour on your hands.
7. Put the ball of dough into the flour and press flat, dusting on both sides.
8. Roll out into a round about six inches (15cm) in diameter, dusting when required.
9. Pick up the chappati, pat between your hands for a few seconds to shake off excess flour, and slap it onto the hot tava.
10. Let it cook for about 30 seconds and turn it over. (If the chappati sticks to the tava, it is not hot enough. If the markings on the chappati are too dark, it is too hot. Adjust as necessary.)
11. Cook for about 30 seconds on the second side, lifting the chappati off the tava and replacing it immediately if half way through.
12. Turn over again, now lift the chappati off the tava and place it directly over a medium flame, moving it about all the time. It will puff up in seconds.
13. Place the chappati in a clean napkin, folding over the top to keep warm.
14. Repeat with the remaining dough. Stack the chappatis in the napkin as you make them.
15. Ideally, chappatis should be eaten immediately, but if you wish to keep them for later, wrap them in aluminium foil and keep them in a refrigerator. Place, still in foil, in a hot oven for about 20 minutes to reheat. Alternatively reheat in a microwave oven.
16. Freezing. Chappatis freeze well. Stack and wrap in foil and freeze for up to a month. They may be thawed and reheated without removing the foil.

Paratha

Ingredients:

- 1 cup Whole wheat flour
- Ghee
- Water

Method:

1. Make chappati dough. Divide into 6 parts and make balls. Flatten and roll each.
2. Spread ghee over them and fold. Roll again.
3. Heat the paratha on a griddle like you would a chappati, but spread some ghee over the top side. Turn and spread ghee on the other side. Fry until the bottom is crisp and golden, then turn and fry the remaining side.
4. Repeat with all six.
5. Serve at once, since they lose crispness if stored.

Stuffed Parathas

Make dough for regular chappati’s.

Fillings:

- Potato - Boil potatoes, mash, add salt and chili to taste. Add Garam Masala and mango powder.
- Radish - Grate one large Diakon Radish, add salt and leave for 1/2 hour. Squeeze out all the water, add grated ginger, chili, and pomegranate seeds.
- Cauliflower - Grate cauliflower, add salt, pepper, garlic, and Garam Masala. Method: Roll out 2 small chappati’s. Place filling on one, cover with the second, seal edges and cook as for parathas.
**Parathas 2**

by Kris Dhillon

These are made with the same flour as chappatis, but they are layered with ghee before being cooked on the tava with more ghee brushed onto them. Vegetable oil is sometimes used instead of ghee and this is perfectly acceptable although I feel the ghee produces the best flavour. Alternatively you may use butter. This, because of the water content in butter, results in a softer, less crisp paratha which I love. It really is a matter of personal preference and convenience which you use, and you may like to try all three before making up your mind.

Makes 6-8.
Preparation and cooking time: 30 minutes approx.

Ingredients:
- 8 oz (225g) chappati flour plus extra for dusting (see page 37)
- 4 fl. oz (110ml) water (approximately)
- 6 tablespoon melted ghee

Method:
- make the dough as for chappatis and leave to rest for 15-30 minutes.
- Put the tava or cast-iron frying pan onto a medium heat. Meanwhile divide the dough into 6-8 equal portions.
- Take one portion with floured hands and roll into a ball.
- Place the ball of dough into the flour and press flat, dusting on both sides.
- Roll out into a six inch (15cm) round, and brush the surface with melted ghee.
- Now fold by taking opposite sides and folding until they meet in the middle. You should have a long rectangular shape.
- Brush the top surface again with melted ghee and fold, this time bringing in the ends of the rectangle to meet in the middle.
- Brush the dry surface for the final time with melted ghee and fold into half. You should have a square.
- Place this in the flour, press flat, and roll out into a eight inch (20cm) square.
- Pat between your hands and slap onto the hot tava. Cook for about 30 seconds whilst brushing the top surface with ghee. Turn over.
- Again brush the surface uppermost with the ghee and turn over, having given the second side 30 seconds.
- Continue to cook the first side for a further 30 seconds whilst brushing more melted ghee on the top surface.
- Turn over for the final time and cook for a further few seconds.
- Both sides should have reddish brown spots. The frequent turning over ensures even cooking.
- Put the paratha on a plate lined with a large piece of aluminium foil. Fold over the foil to keep the paratha warm while you make all the parathas in this way.
- Like chappatis, parathas are best eaten immediately but are quite good reheated.
Quick Recipe Nan
by Kris Dhillon

Although I refer to this as a quick recipe it is by no means a short cut, but a recipe without yeast which, of course, eliminates the time required for proving. Even so, this recipe produces wonderfully light, fluffy nan breads which are best eaten immediately. The yeast recipe given later also produces a delicious nan. It requires a little more time but the breads are more suitable for reheating.

For six nans.
Preparation and cooking time: 30 minutes approx.

Ingredients:
• 1 lb (450g) SR flour plus extra for dusting
• ½ teaspoon salt
• ½ teaspoon Baking powder
• 2 tablespoon vegetable oil
• 4 tablespoon plain yoghurt beaten
• 2 Eggs (beaten)
• ¼ pt (150ml) water approx.
• A little melted vegetable ghee

Method:
1. Sift the flour, salt, and baking powder into a bowl. Add the oil, yoghurt, and eggs and mix in with a fork.
2. Now add the water little by little, and using your hands, bring the flour together to make a soft dough.
3. Need the dough with damp hands for a minute or two until it is smooth; cover it and leave to rest for at least 15 minutes.
4. Meanwhile, pre-heat the oven to the highest temperature. Put a heavy baking tray to heat in the oven, and pre-heat your grill.
5. Divide the dough into six equal portions. Dust your hands and taking one portion, roll it into a ball in the palms of your hands.
6. Roll the ball out into a tear shape, or a round if you prefer.
7. Carefully take the hot baking tray out of the oven, slap the nan onto it and immediately return to the oven for about three minutes.
8. Remove the baking tray and the nans from the oven and place then under a hot grill for 30 seconds to brown lightly and crisp the top.
9. Brush the top with the melted ghee and wrap in a clean napkin or tea towel and keep warm.
10. Repeat the process with all of the remaining dough. Make nans two at a time if the size of your baking tray and grill will permit.
11. Serve immediately.
Yeast Recipe Nans
by Kris Dhillon

Preparation and cooking time: 30 minutes, plus an hour to prove the dough.

- ½ teaspoon salt
- 1 teaspoon baking powder
- 2 tablespoon vegetable oil
- ¼ pt plain yoghurt, beaten
- 1 large egg, beaten
- A little melted vegetable ghee

Method:
1. Pour the milk into a bowl and stir in the sugar and the yeast. Set aside for 15 minutes until the mixture is frothy.
2. Sift the flour, salt, and baking powder into another bowl. Add to it the yeast mixture and all the remaining ingredients (except the ghee), and mix into a dough.
3. Place the dough onto a clean surface and kneed it for ten minutes or so, until it is smooth.
4. Put the dough in a greased bowl, cover with greased cling film, and set aside in a warm place for about an hour. The dough will double in size.

All-Round Curry Powder

Ingredients

- 2 tbsp Black Pepper
- 1 tsp Ground Bay Leaves
- 1 tsp Cayenne Pepper
- 2 tsp Hot Chilli Powder
- 1 tsp Dried Crushed Chillies
- 4 tsp Coriander
- 2 tbsp Cumin
- 2 tsp Fenugreek
- 4 tsp Garlic Powder
- 4 tsp Mixed Herbs
- 1 tsp Jamaican Pepper / Ground Allspice
- 2 tsp Paprika
- 2 tbsp Salt
- 4 tsp Turmeric

Method

1. Firstly you'll need to find a container which can hold around 300ml (about a 2/3rd of the size of a large Baked Beans can), which can be fitted with an air-tight top - An old jam jar or bolognese sauce jar will do, however an opaque container is preferable to protect the curry powder from sunlight if you are leaving it on a shelf.
2. Add all the ingredients specified into the container. Fasten the lid, and shake vigorously to mix the ingredients together.
3. That's it. Store the curry powder somewhere, ready for when you need it.
4. Useful Tips
5. If you want to make a hotter curry powder; use the curry powder mixture as described above, but add more chilli powder when cooking.

Basic Curry Sauce

Ingredients

- 3 tablespoons vegetable oil or ghee (clarified butter)
- 1 medium onion - finely chopped
- 4 cloves garlic - peeled and sliced
- 1.5 inch piece root ginger - peeled and thinly sliced (it should look about the same volume as the garlic)
- (optional) 2 mild fleshy green chillies - de-seeded and veined then chopped
- half teaspoon turmeric powder
- half teaspoon ground cumin seed
- half teaspoon ground coriander seed
- 5 tablespoons plain passata (smooth, thick, sieved tomatoes, US = purée) or 1 tablespoon concentrated tomato purée (US = paste) mixed with 4 tablespoons water

Method

1. Heat the oil in a heavy pan then add the chopped onion and stir for a few minutes with the heat on high.
2. Add the ginger, garlic and green chilli (if using). Stir for 30 seconds then put the heat down to very low.
3. Cook for 15 minutes stirring from time to time making sure nothing browns or burns.
4. Add the turmeric, cumin and coriander and cook, still very gently, for a further 5 minutes. Don't burn the spices or the sauce will taste horrid - sprinkle on a few drops of water if you're worried.
5. Take off the heat and cool a little. Put 4 fl oz cold water in a blender, add the contents of the pan and whizz until very smooth. Add the passata and stir.
6. Put the puréed mixture back into the pan and cook for 20 - 30 minutes (the longer the better) over very low heat stirring occasionally. You can add a little hot water if it starts to catch on the pan but the idea is to gently "fry" the sauce which will darken in colour to an orangy brown.
The final texture should be something like good tomato ketchup. Warning - it WILL gloop occasionally and splatter over your cooker, it's the price you have to pay!

**Curry Sauce 2**

by Kris Dhillon

For approximately eight main course dishes.
Preparation and cooking time: 1 hr 30 minutes approx.

Ingredients:
- 2 lb (900g) cooking onions
- 2 oz (50g) green ginger
- 2 oz (50g) garlic
- 2 1/4 pint (1 litre 570ml) water
- 1 teaspoon salt
- 1 tin (8oz/225g) tomatoes
- 8 tablespoon vegetable oil
- 1 teaspoon tomato puree
- 1 teaspoon turmeric
- 1 teaspoon paprika

Method:

Stage One
1. Peel and rinse the onions, ginger, and garlic. Slice the onions and roughly chop the ginger and garlic.
2. Put the ginger and garlic into a blender with about 1/2 pint of the water and blend until smooth.
3. Take a large saucepan and put into it the onions, the blended garlic and ginger, and the remainder of the water.
4. Add the salt and bring to the boil. Turn down the heat to very low and simmer, with the lid on, for 40-45 minutes.
5. Leave to cool.

Stage Two
1. Once cooled, pour half the boiled onion mixture into a blender and blend until perfectly smooth. Absolute smoothness is essential. To be certain, blend for at least two minutes. Pour the blended onion mixture into a clean pan or bowl and repeat with the other half of the boiled onion mixture.
2. Wash and dry the saucepan. Reserve about four tablespoons of the sauce at this stage to use in cooking the vegetables.
3. Freezing. Freezing is best done at this stage.
Stage Three
1. Open the can of tomatoes, put into the rinsed blender jug, and blend. Again, it is important that they are blended perfectly smooth, so blend for two minutes.
2. Into the clean saucepan, pour the oil, tomato puree, turmeric, and paprika.
3. Add the blended tomatoes and bring to the boil. Turn down the heat and cook, stirring occasionally, for ten minutes.
4. Now add the onion mixture to the saucepan and bring to the boil again. Turn down the heat enough to keep the sauce at a simmer.
5. You will notice at this stage that a froth rises to the surface of the sauce. This needs to be skimmed off.
6. Keep simmering for 20-25 minutes. Stirring now and again to prevent the sauce sticking to the bottom of the saucepan.
7. Use immediately or cool and refrigerate for up to four days.

**Garam Masala Powder**

- 1 tsp coriander seeds
- peppercorns
- 1 bayleaf
- Ghee (clarified butter)

**Method**
1. Roast each of the above till they turn aromatic.
2. Powder to a fine powder using a coffee grinder and use as required.
3. This will keep well for months in an airtight container.
4. You can make a larger quantity of this by using the above ingredients in the same ratio.
**Garam Masala 2**
(approximately 1 1/2 cups)

**Ingredients:**
- 3 - 5” pieces Cinnamon stick
- 1 cup Green cardamom pods
- 1/2 cup Cumin seed
- 1/2 cup Black pepper corns
- 1/2 cup Cloves
- 1/2 cup Coriander seeds

**Method:**
1. Dry the ingredients in an oven. Do not let them turn brown. Remove the seeds from the cardamom pods. Pound cinnamon sticks into smaller pieces. Combine ingredients until they are well mixed and blend at high speed for 2-3 minutes until completely pulverized.

**Garam Masala 3**
by Kris Dhillon

This makes about three tablespoons.

- ½ small nutmeg
- 4 black cardamoms

**Method:**

2. Put the garam masala into a small airtight container, preferably made of glass or plastic, and label.
**Green Curry Paste**

**Ingredients**
- 4-6 medium green chillies, de-seeded and roughly chopped
- 2 shallots, roughly chopped
- 5cm/2in piece of fresh ginger, peeled and grated
- 2 garlic cloves, crushed
- small bunch of fresh coriander, stalks and roots attached if possible

Gulab Jamons
by Kris Dhillon

These are very light, soft, sponge-like sweets soaked in a light, flavoured syrup. They are easy to make and a delicious conclusion to a spicy meal. Serve warm or cold. Allow three to four per person and sprinkle with a little brandy for a really special sweet. Makes 16.
Preparation and cooking time: 30 minutes approx.

Ingredients:

For syrup:
- 8 oz (225g) granulated sugar
- 6 green cardamoms
- 4 cups water

For Jamons:
- 6 tablespoons full fat milk powder
- 2 tablespoons self-raising flour
- 1 tablespoon melted butter
- A little cold milk to bind
- Oil for deep frying

Method:
1. Put the sugar, cardamoms, and water into a pot and bring to the boil. Turn down the heat and simmer the syrup for about 15 minutes.
2. Meanwhile sift the milk powder and flour into a bowl. Add the melted butter and rub into mixture with fingertips until it resembles fine breadcrumbs.
3. Add the milk a little at a time, drawing in the mixture to form a soft dough.
4. Put the oil on to heat and divide the dough into 16 parts. Roll each one out in the palms of your hands into a little ball.
5. The syrup should be ready by now. Take it off the heat so that it may cool slightly before having the jamons out into it.
6. Test the oil by putting in one ball of dough. The oil must only just be hot enough to make the dough rise to the surface after a few seconds and to fry it very gently. Adjust as necessary.
7. When the oil is at the right heat, put in as many balls of dough as your pan or karahi will easily take.
8. Move the pan about carefully to keep the jamons moving until they rise to the surface of the oil.
9. When they are at the surface keep moving them about with a slotted spoon to ensure that they cook evenly.
10. The jamons will almost double in size as they are cooking and will turn a deep, golden brown colour. This should take about 4-5 minutes.
11. Drain on kitchen paper, allowing to cool for five minutes and drop them into the syrup.
12. The jamons will be very soft and easily broken until they have cooled, when the texture will become firmer.

Serve with a few tablespoons of the syrup for each person.

**Kulfi**

by Kris Dhillon

Kulfi is sometimes known as Indian ice cream. I have tried many varieties of kulfi throughout the country; this recipe produces by far the best I have ever eaten. It serves eight.
Preparation and cooking time: 1hr 30 minutes approx.

Ingredients:
- 4 pints (2¼ litres) whole milk
- 12 green cardamoms
- 10 tablespoons granulated sugar
- 3 tablespoons flaked almonds
- ½ pint (275ml) single cream
- 2 tablespoons finely chopped unsalted pistachios

Method:
1. Bring the milk to the boil in a heavy pot. Turn down the heat so as to allow the milk to simmer vigorously without boiling over.
2. The milk must reduce considerably, to about one third of its original amount. Stir frequently as the milk simmers, incorporating the skin which forms on the top, and scrape and stir the milk that dries and sticks to the sides of the pot.
3. While the milk is simmering, take the seeds out of the cardamom pods and grind finely. Stir them into the milk.
4. When the milk has reduced sufficiently, stir in the sugar and the almonds. Simmer for 2-3 minutes until the sugar dissolves completely.
5. Take the milk off the heat and allow it to cool slightly. Stir in the cream and half the pistachios.
6. Put it into a square or rectangular vessel that will allow the mixture to sit 2-3 inches (5-7.5cm) deep. Cool completely. Cover and place in the fridge for about 30 minutes. Sprinkle over the remaining pistachios and return to the freezer until set. Remove the kulfi from the freezer 15 minutes before serving and cut into ½ inch (1cm) cubes.
