

A FREE AMERICA?

**COMMUNIST TERRORISTS MARCH
OPENLY IN AMERICAN CITIES**

Since the effective silencing of pro-White and patriotic groups by the U.S. government with the passing of the Hate Crimes Act, the Patriot Act and other domestic control laws which were created to instill fear into patriotic and pro-White organizations, the left-wing and Zionist Lobby has had no opposition. Communist terrorists march our streets unopposed, even sanctioned, by liberal and Zionist politicians who have no care for the well-being of our nation. The citizens of this nation have been sold-out to Zionist Lobbyists and special interest groups. As your rights quickly erode and the American Constitution has been reduced to the state of ancient literature of no modern relevance, do you wonder why it is only those groups which seek to completely destroy America which are allowed civil liberties and rights?

If the United States is to continue as a free and coherent nation the policy of government oppression against the White working class must be halted. The policy of police oppression may begin with us but it will end with you. The question for the White public is how long they will wait to resist the draconian laws which are destroying our Constitutional Rights. Thomas Jefferson once wrote "...he who sacrifices liberty for security deserve neither...". The agenda of the current regime is clear, both the left and right are seeking to crush the White working class and their ability to organize, publish and assemble.

You can join or support the growing political resistance to tyranny and Zionist oppression by supporting your local VOLKSFRONT chapter. Get involved before it's too late...
