

Separate races have evolved as a transition to the development of different species. Some races have characteristics that are desirable to the formation of superior species. Other races possess less desirable qualities; they are evolutionary dead ends.

Why would anyone push remixing the subspecies and basically reversing evolution?

Here's why: The sub-species that controls Hollywood has a parasitic relationship with the other sub-species. To this group,

EVOLUTION IS A THREAT!

The Yiddish extremists fancy themselves a 'chosen people' with all the answers for the 'lesser people' of the planet. They have decided that the White world will have a new multiracial population in which Whites are just another minority, and where White European culture no longer dominates... anywhere. With malice aforethought, they establish what is fashionable among our youth: Black music, Black fashion, race-mixing, homosexuality, radical feminism, drugs, violence, etc.. Anything to tear down White society. It's the Jews' final solution to their age-old "White problem."
