

# Project Serpo

## The Zeta Reticuli Exchange Program

**The gradual release of confidential documents pertaining to a top secret exchange program of twelve US military personnel to Serpo, a planet of Zeta Reticuli, between the years 1965-78**

<a href="#">Home</a>	<a href="#">Information released by Anonymous</a>	<a href="#">Comments</a>	<a href="#">Questions and Answers</a>	<a href="#">Consistencies</a>	<a href="#">Contact</a>
----------------------	---	--------------------------	---------------------------------------	-------------------------------	-------------------------

### 1) Interview with EBE-2: March 5th, 1983 at Los Alamos National Labs.

The following reported interview was referenced in discussion by many on the list, and can be found both in [Exempt from Disclosure](#) by Robert Collins, and on Collins' website [www.ufoconspiracy.com](http://www.ufoconspiracy.com). While the details do not match precisely, the orders of magnitude of the numbers provided (length of day and year) do correspond.

The following is an account of the meeting I [Rick Doty] was involved in with EBE-2. On March 5, 1983, I was at Los Alamos National Laboratories conducting business on a counterintelligence project. During my visit, a source I'll call LANL-1, asked me to sit in on a very special interview. Not knowing what he was talking about, I questioned him. However, he wouldn't say exactly what the project involved or who was being interviewed.

I accompanied LANL-1 to an underground facility west of the Los Alamos complex. The area was called, Site 30. Access to this facility was gained by entering Area 49. Access to the underground facility was through building number 49-2091. An elevator took us down about 60 feet (only estimating). Once we arrived, access was gained through a large vault opening outside the elevator. We walked down a hallway to another vault door.

We entered and turned right. We walked about 200 feet turned left and entered vault door to a large room. This room contained two tables, several chairs and recording equipment. I sat near the door. About ten minutes later, three people, who I did not know, entered the room. One, an Air Force Colonel, asked me to sign a security document, which gave me an upgraded clearance, TS/SCI/Group-MJ-B-3 clearance. I've never heard of this but I signed. The Colonel told me I was to listen and not make any sounds during the interview.

I asked the Colonel who was being interviewed and he told me a guest from another planet! The Colonel left. The other two people set up a table with a microphone and recording equipment, including a camera. About

five minutes later, in walks a 4' 9" non human looking creature. It was dressed in a tight fitting cream colored suit. It had no hair and was identified to me as EBE-2.

EBE-2 sat in a chair across the table from two civilians and the AF Colonel. I did not know the identity of the three. LANL-1 came into the room and sat next to me. I listened while the three asked EBE-2 a series of questions pertaining to its home planet. First question was about the temperature, climate and weather. EBE-2 responded in perfect English but sounded like a machine generated voice. Very hard to explain but it was either coming from a device that EBE-2 had in front of him or from something in its body.

EBE-2 explained the weather of its planet which was dry, varying temperature between 65-90 degrees. There was 35 hours of constant sunshine and three hours of darkness. Rainfall occurred only during one of its months each year. The day lasted 38 of our hours. They did not have months but did have years which consisted of approximately 600 of our days. They used a society cycle which I understood to be similar to our months. During this society cycle each Eben worked a certain time and conducted business. There was also a rest cycle which consisted of a regulated period of sleep. I don't recall the exact number of hours or sleep/rest. EBE-2 discussed weather patterns and how they were formed. I don't recall the exact words. However, EBE-2 seemed very intelligent and fully explained each weather pattern in precise detail. He used Earth's equivalents for Meteorology terms.

The interesting part of this interview was that I didn't hear any questions being asked by the three humans sitting across from EBE-2. Either the questions were already given to EBE-2 or the three humans were "thinking the questions" and EBE-2 would respond in English.

*[Clarification requested by Rick Doty: this was observed on a TV monitor and Doty was not actually in the same room as EBE-2.]*

*[Addition from Robert Collins: EBE-1 stated that his planet was named "Sieu" – but that was in Eben, not English. EBE-1 (initially just known as EBE) was the sole survivor of the Roswell crash, and lived until 1952 (see [this posting by Anonymous](#)). He never mentioned "Serpo" as such. EBE-2 said that his planet's days were approximately 38 Earth hours; that he liked the cool climate of Earth, around LANL (Los Alamos National Laboratories) and northern New Mexico; and that he was a scientist and was providing assistance to Earth scientists in the area of space travel. EBE-2 arrived in 1964 and stayed till 1984.]*

## 2) Anomalous orbital data.

The orbital data supplied by Anonymous (particularly the 865 day period of orbit) do not appear to accord with [Kepler's laws](#). This generated a large volume of discussion on the list, a number of whose members are prominent scientists.

However, it's reasonable to consider that if a story like this was invented the first thing a storyteller would get right would be the physics, as the "correct" numbers are easy to calculate. So the fact that some of the numbers differ widely from those predicted by known laws – a sitting duck for criticism – may be a *validating* factor, not otherwise. Why set oneself up to be dismissed immediately?

---

### 3) Distortion of biological rhythms in the absence of the measurement of earth time.

Research has been done in caves on [chronobiology](#), with no natural rhythms to guide the subjective judgement of time.

In 1962, [Michel Siffre](#), a French caver and geologist, spent two months in a cave in the European Alps in the first of several "out of time" experiments. After 61 days underground with no time reference, he resurfaced on 17 September believing the date was 20 August.

In 1972 – now in collaboration with NASA – Siffre supervised other similar experiments before going down again into the Midnight Cave in Del Rio, Texas where he for 205 days, a far longer period. Siffre had all comforts and conveniences, including communication with the outside world, but had no means of measuring time. He had agreed to emerge when he judged 175 days had passed. Siffre said: "My brain would make automatic adjustments because it had memorised the previous experiment, and yet I was still out."

It's interesting to speculate that while NASA may never have revealed (or maybe never knew themselves) the real reason for sponsoring the experiment, this would have been smack in the middle of the Eben exchange program (originally planned to be 1965-75, though Anonymous reports that it stretched to 1978) and presumably in their communication with Earth it would have become clear by then that the twelve had become time-disoriented: so research on Earth was necessary. Siffre, having done the first and only other experiment in 1962, would have been the obvious guinea pig.

A little calculation is interesting. In the first experiment, Siffre "stretched" his subjective time by a massive 85%. In the second experiment, fully prepared and alert to the problem, he did better – but still stretched his stay by 17%. The Eben exchangees appear to have stretched their own stay by approx 30%. Not proof as such, but a compelling indication, from an unexpected direction, that Anonymous's report has validity.

*Reference: Michel Siffre, "Six months alone in a cave", National Geographic, v.147, no.3, March 1975, pp.426-435.*

---

### 4) The ability of some ETs to manipulate and transcend time is referenced in Dan Sherman's book, [Above Black](#).

Dan Sherman wrote a book, [Above Black](#), in which he reveals how he was groomed and trained as a telepathic communicator with a race of ETs from and about whom he received data but never actually met – in preparation for an anticipated catastrophic event. He learned information that appears to corroborate the difficult reports by Anonymous that time is in some way experienced differently by the Ebens and/or in the Ebens' environment, with a corresponding distortion of physical laws as we would understand them.

Sherman states that he learned that "time" – as we humans know it – does not have the same meaning for them. They still age as we do but are not bound by the physics of time as we currently are. Their means of travel across vast distances is heavily dependent on the manipulation of time but not as we perceive it.

Sherman enquired whether they can travel through time, i.e. whether they can go backwards and forwards in time. He was told that it was not possible to witness a reality that occurred in some other time but the present: in order to go back in time, one must assume that there exists a reference point from which to measure backward or forward. This is an impossibility. Essentially, they weren't able to travel *through* time – rather, *around* time and *from* time. Sherman states that he never really understood what this meant. Their mode of propulsion was somehow that they used both time and electromagnetic energy. Sherman was also told that our sun was very unique; and that someday we would understand how it really worked and how we could utilize the same methods that they themselves use but on a smaller scale.

*References:* [www.stealthskater.com/Documents/Sherman\\_1.doc](http://www.stealthskater.com/Documents/Sherman_1.doc), [www.aboveblack.com](http://www.aboveblack.com)

## 5) The reported inclusion of a "DIM" in the exchangees' inventory.

Anonymous reports in his [fifth posting](#):

They also took electric razors, coffee pots, electric heaters, a DIM (no explanation as to what this was), an electric IBM typewriter, a scientific calculator, slide rules (both conventional and scientific), Base Data Collection Recorder (BDCR), three different sized telescopes, tangents, both conventional and electrical.

This tiny but possibly significant part of Anonymous's report rings true. If the story is false, it would be very clever misinformation to mention something so minor and unexplained when so much else reported is graphically and clearly stated (whatever opinions readers may have about it).

**Update, 2 December** (clarification from Paul McGovern): The "DIM" was the Duty Information Manual. It was their "bible," for all of the information they would need. The operations plans, how to execute the plans, emergency action procedures, etc.

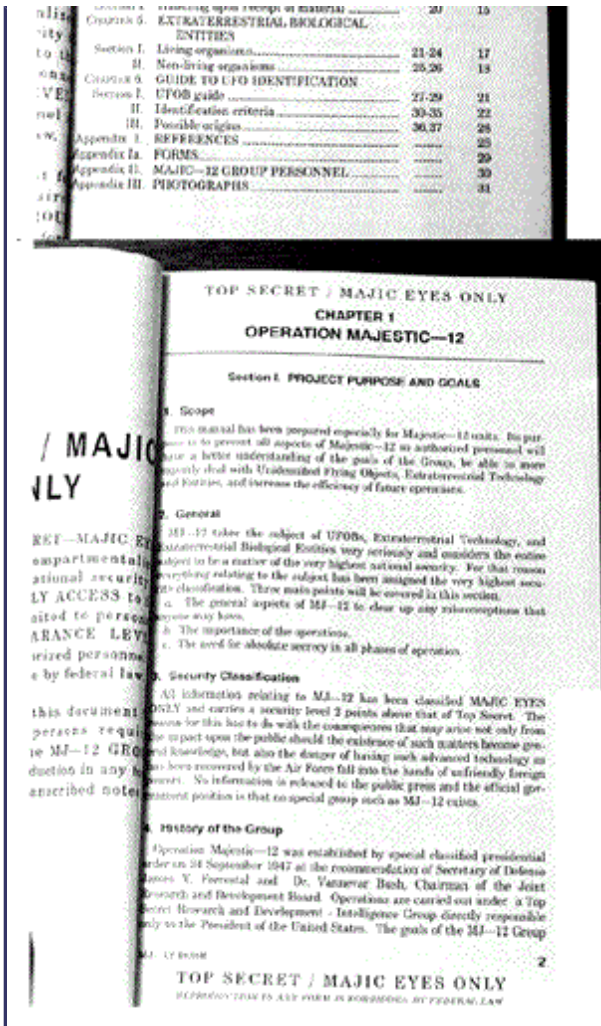

## 6) The following was presented to Victor Martinez from another source (not "Anonymous"):

MJ-12 Staff Document

A FRAMEWORK:

30 July 1999

FACTS CONCERNING EXOBIOLOGICAL LIFE TO BE CONVEYED THROUGH "THE PUBLIC ACCLIMATION PROGRAM"

- 1) Intelligent life does exist on other planets and throughout the Universe.
- 2) Craft not of human design or manufacture are operating in and around the land, sea and air of Earth.
- 3) Intelligent beings other than Homo Sapiens Sapiens are conducting various missions on this planet. These beings have been coming here for tens of thousands of years.
- 4) Alien beings may have human-like bodies or non-human bodies (such as hybrid, insectoid, or reptilian). Intelligent beings can be physical, non-physical or inter-dimensional in nature.
- 5) The variety of life in the universe is diverse, like the life on our own planet is diverse.
- 6) Some alien beings have the ability through advanced technology or other means to move forward and backward at will through time and space.
- 7) The spiritual evolution of an alien life form may be ahead of, equal to or behind its level of technological development.
- 8) The social orientation, motives and agendas of these beings is very diverse. Some alien intelligences are more friendly to human beings than others.
- 9) In many cases, the "abduction phenomenon" is a real event. This activity is complex, coordinated and purposeful. It often occurs throughout many generations of a family.
- 10) Cross-breeding of humans with more than one alien species has occurred. Hybrid children and hybrid adults do exist. They have characteristics of both the human and alien races.
- 11) Although most alien contacts and sightings occurring on modern-day earth have been shrouded in secrecy and mystery, the veil is slowly being lifted by the activities of civilians and specially assigned government personnel. The Public Acclimation to the reality of alien life is proceeding in a way designed not to shock or disrupt society any more than necessary.
- 12) A great amount of "UFO" and alien information is now in the public domain. Countless books, videos and internet websites are devoted to these subjects. Thousands of pages of U.S. government documents on unusual sightings and encounters have been made available.

At this point, credentialed researchers and academicians have investigated the UFO/alien phenomenon and published their findings. This is a further step to help validate the phenomenon in the minds of the public.

With these 12 points as a reliable framework, it is intended that key members of the public and government will be better able to accept, evaluate and place into perspective the large body of evidence which is soon to be before them.

YOU HAVE BEEN CLEARED TO SEE THIS.

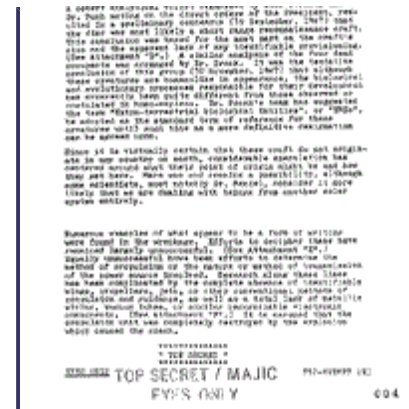

The document on the left [click [here](#) to enlarge] is part of the original 1954 UFO Crash Retrieval

manual of the U.S. Government, known as "Special Operations Manual SOM1-01". The document was classified at two levels Above Top Secret.

As of a few years ago, my information is that UFO crash retrievals are handled by special "Blue Teams," operating out of the U.S. Office of Naval Intelligence (ONI). The advanced technology of these craft is being back-engineered at facilities such as Area S/4, near Papoose Lake, Nevada. While "mainstream" scientists wonder if there's alien life, the government has been working on the alien technology for decades.

Click [here](#) for more information on the entire document. Click here to download the entire document: [Part 1](#) [Part 2](#)

On the right [click [here](#) to enlarge] is part of a Top Secret Briefing to President-Elect Eisenhower, dated 18 Nov 1952, concerning the existence of UFOs. After extensive investigation at the U.S. National Archives, it has been concluded that this document is very likely authentic. (Leaking a document to the public is one way of "unofficially" declassifying it.)

## 7) The scene of the exchangees departing Earth on the Eben craft appears to be cinematically portrayed in the final scene of the movie Close Encounters of the Third Kind – with the same number of male and female personnel reported by Anonymous.

The final segment of the movie does indeed feature twelve people – *ten men and two women*. Twelve people is also the number given in Spielberg's book of the movie. Interestingly, one blonde woman stands out, first shown in a long close-up when the priest gives his blessing. Then, when the team members file past, all have dark glasses with the exception of the blonde... and Roy Neary, who would be the thirteenth member. The subsequent shot is where they line up, and now the woman is seen to have put on her dark glasses to join the others. This appears to be a flawed piece of direction, most untypical of Spielberg; the reader is left to speculate on any possible significance.

Also worthy of note is that all team members wear a triangular patch on their left arm and the American Flag on the right arm of their orange jumpsuits. There is a uniformed officer with the priest when the blessing is given.

## 8) An e-mail from a researcher (name supplied, but withheld here).

Regarding the SOM-1 document and the private MJ-12 Staff document known as "A Framework" [see (6) above] – I was almost blown off my chair. WOW! What a brilliant post!

It requires about 20 years of experience to know the importance of what you have posted. VERY WELL done! And I liked your interview on "Coast to Coast AM." Hint: I think you've "pushed some buttons" in Washington, DC, at high levels. (You may never hear about it, though. Nice job :-)

I really like your website, and the "consistencies" webpage in particular.

My assessment of SOM-1 is that it is real. I've known someone who was involved with U.S. Navy Seal UFO crash retrieval "Blue Teams." I have reason to believe that SOM-1 is authentic, or a manual like it is authentic. You're close to the truth.

I received a copy of "A Framework" years ago in the U.S. mail, with no return address. It was on plain, printed paper. I'm sure that was intentional, to prevent tracing. I'm a researcher, so I guess I'm on a "list." Of great interest to me was that the "Public Acclimation Campaign" unfolded exactly as "A Framework" indicated. The public releases in movies, etc., have followed that document very well. I've had other researchers comment on this to me. Some of them were skeptical at first, then amazed. They had no explanation why the document in their hands matched what happened in public.

Just so you know, I can ASSURE you that nobody just "made up" the "Framework" document recently, to fool you. Some people have known about this for many years. AND to your credit, you quoted it accurately. The copy you posted IS the "Real Deal."

The "Framework" document has met the test of time... it matches the rare reports of U.S. security officers in underground alien bases, to the testimony of abductees. I don't know of ANY informed researcher who has EVER questioned the contents of that document, over the years. Many researchers have their own way of "knowing and checking" things. Not one researcher I know refuted anything.

A couple of very good researchers have questioned the source, but they NEVER questioned the contents. And THAT is truly extraordinary.

Please keep SOM-1 and "A Framework" on your website – and keep up your good work!

I have attached a copy of "A Framework," which I had from years ago. You can check my copy, word for word. This is the REAL version, only known to a very few people at the time.

---

## **9) The Eben craft power source, reported to utilize negative matter.**

In his [eleventh posting](#), Anonymous writes:

Team Commander: "In the center of these containers is a copper colored coil or something looking like a coil. There is a bright light being shined from a point above into the center of the coil. We hear a very dull hum, but no major loud sounds. 661 thinks it is a negative matter versus positive matter system."

The following was summarized in simple terms by a student on [www.ac.wvu.edu/~vawter/StudentSites2002/interstellar\\_travel/negativemass.html](http://www.ac.wvu.edu/~vawter/StudentSites2002/interstellar_travel/negativemass.html)

### **Negative Mass Propulsion**

The idea of negative mass propulsion was created to eliminate the need for fuel, since fuel limits the feasibility of interstellar travel so much. Theoretically, it would allow faster than light travel without violating Einstein's theory of relativity. (note 1)

The way this works is it uses gravity to bend space around the spaceship. A large amount of "negative mass" would be in front of the ship and a large amount of positive mass would be behind it, and the masses would curve space in such a way that it'd accelerate the ship. Apparently, such a process would not violate the conservation of energy, as the space it is travelling through would be warped. (note 2)

If this theory were to work, it could be the best form of transportation available. It has been suggested that it would allow a ship to bypass the limitations of relativity, and a ship could actually travel to and from its destination at speeds far faster than the speed of light without running into the problem of taking several years to do so. (note 2)

Unfortunately, we don't even know if negative matter exists, and even if we did discover it, we'd have to develop a way to turn the effect of the matter on and off, so the speed of the ship could be controlled. (note 1)

- 

#### **10) Documents newly disclosed, reporting confusion, sickness and disorientation when entering a disk at the Kingman crash site.**

These two pages of a classified document were sent to us on 24 December by a researcher (name supplied but withheld here). They appear to be transcripts of a prepared briefing or lecture – or perhaps a simple memo – dated 24 March 1995, of the experiences of a number of military personnel when entering a downed craft (Kingman, Arizona, 1953). The symptoms reported correspond closely with those reported in the [Team Commander's log](#) in the eleventh posting.

1953

KINGMAN

CERBAT MOUNTAINS

NORTH OF THE  
KINGMAN ARMY AIR BASE

FOO'S TANK

3/24/95  
EBE ENC2 .DOC

~~SPECIAL~~

WE NEED TO GO BACK TO EBE ENC1." SETTING UP OF THE ██████████  
 GOVERNMENT". THE BACK GROUND AS TOLD TO MY GROUP HAD A VERY  
 INTERESTING TWIST REGARDING CRAFT RETRIEVAL, AND THE VISITOR  
 CONFRONTATION. LITTLE DID THE GOVERNMENT KNOW THAT RETRIEVAL  
 OPERATIONS WERE MONITORED BY THE VISITORS. THEY THE VISITORS  
 WERE WELL AWARE OF THE MISHAP OF ONE OF THEIR VESSELS HOWEVER  
 THE MILITARY GOT TO THE CRASH SITE FIRST."NOTE" VESSEL IS THE  
 TERM USED BY THE VISITORS RATHER THAN DISC OR CRAFT, AND THIS  
 WAS NOT KNOWN UNTIL THE INITIAL MEETING IN THE FALL OF 1953.  
 ONE OTHER POINT WAS THAT "ALIEN/EBE" PHRASEOLOGY WAS NOT USED  
 IN ANY LATER DISCUSSIONS. THEY ALSO HAD NAMES MOSTLY UNUSUAL,  
 BUT WHEN TRANSLATED TO ENGLISH THE NAMES WERE EASILY  
 PRONOUNCED. NO DETAILS WERE PROVIDED ON HOW CONTACT WAS MADE  
 TO SET UP THE INITIAL MEETING. THE REASON FOR CONTACT AFTER  
 ALMOST 6 YEARS WAS RECALLED AS FOLLOWS: THE VESSEL THAT FELL  
 IN ARIZONA CONTAINED 4 ENTITIES, 2 WERE DISABLED AND 2 WERE  
 REASONABLY WELL, BUT SOME WHAT CONFUSED. THE VISITORS  
 MONITORING THE RETRIEVAL ACTIVITIES NOTED WITH MUCH PLEASURE  
 THE HUMANE TREATMENT PROVIDED TO THOSE INVOLVED. ALL ENTITIES  
 WERE LATTER TAKEN TO FACILITY X FOR MEDICAL TREATMENT AND  
 TESTS; WHAT EVER THEY WERE FOR ? ADDITIONALLY BEFORE LEAVING  
 THE SCENE THE 2 WHICH WERE STANDING UP RIGHT WERE ALLOWED TO  
 RE-ENTER THE VESSEL, THE HATCH WAS LEFT OPEN TO MONITOR THEIR  
 ACTIVITY AND DISAPPEARED INSIDE THE CRAFT. SOME TIME HAD  
 PASSED BEFORE EXITING. IT WAS LATTER ASSUMED THAT THEY WERE  
 COMMUNICATING WITH THE MONITORING CRAFT. [EXPLAINED LATER ON].

NOT  
EXPLAINED

A BIZARRE SITUATION WAS ENCOUNTERED AT THE RETRIEVAL  
 SITE, WITH THE ENTITIES REMOVED FROM THE AREA WORK PROCEEDED  
 CLEAN UP AND LOADING OF THE VESSEL ON A TANK TRAILER USED TO  
 HAUL SHERMAN TANKS. WHILE THESE PREPARATIONS WERE BEING MADE  
 A ENTRY CREW WAS FORMED, THEY WERE DRESSED IN CLEAN ROOM  
 CLOTHING WITH MEDICAL SURGICAL MASKS. THE SIZE OF THE CREW  
 WAS NOT MENTIONED. COMMUNICATIONS BETWEEN THE CREW AND THE  
 TEAM OUT SIDE WAS SET UP PRIOR TO ENTRY. WHAT HAPPENED WITH  
 THE ENTRY CREW WHILE INSIDE OF THE VESSEL WAS NOTED AS  
 FOLLOWS; [1] COMMUNICATIONS FAILED; THE CREW AFTER ONE HOUR  
 INSIDE EMERGED FROM THE CRAFT CONFUSED, WITH UP SET STOMACHS,  
 REMOVED THEIR MASKS AND THREW UP. WHAT WAS ASTONISHING THEY  
 COULD NOT REMEMBER ANY OF THE INSIDE DETAILS OF THE CRAFT;  
 THE CRAFT WAS SEALED CAMOUFLAGED LOADED AND SHIPPED TO  
 AN UNDISCLOSED NEVADA TEST FACILITY. THE ENTRY CREW WAS SENT  
 TO FACILITY X TO UNDERGO MEDICAL EXAMNINATIONS. RESULTS OF  
 TESTS WERE NOT EXPLAINED TO US.

←

THE ENTITIES PSEUDONYM REFERRED TO NOW AS THE ██████████ WERE  
 SECURED IN A MEDICAL FACILITY THAT WAS MANNED BY DOCTORS,  
 BIOASTRONAUTIC PHYSICIST, CHEMISTS, AND LINGUIST. AT THIS TIME  
 COMMUNICATIONS WAS LIMITED TO BASIC SIGN LANGUAGE.

I WOULD LIKE TO INTERRUPT AND RETURN TO RETRIEVAL SITE TO NOTE ONE INTERESTING POINT. THE VESSEL WAS EXACTLY 10 METERS AND LOADING OF THE VESSEL ON THE TANK RETRIEVER WAS SIMPLE HOWEVER;THE OVERHANG CAUSED SOME CONCERN DUE TO ROAD WIDTH. SINCE THE PNEUMA-GRIPS WERE STILL IN PLACE IT WAS DECIDED TO RAISE ONE END OF THE VESSEL TO REDUCE THE WIDTH. TO THE ASTONISHMENT OF RETRIEVAL CREW THE CRANE LOCATED ON THE TANK RETRIEVER WAS UNABLE TO RAISE VESSEL. HORIZONTALLY RAISING OR LOWERING WAS SIMPLE WITH NO EFFORT BY THE CRANE. FINALLY IT WAS DECIDED TO USE THE HOUSE METHOD OF MOVEMENT UTILIZING ROAD BLOCKS SECURED BY MILITARY VEHICLES.

TWO CONDITIONS ANNOYED OUR BEST INTELLIGENCE SUPPORT.  
[1] THE PROBLEM WITH RE-ENTRY AND [2] A STRANGE LOW FREQUENCY HUMMING SOUND EMITTING FROM THE LOWER PART OF THE HULL.

IT WAS APPARENT THAT A PLAN WAS REQUIRED [A] TO ESTABLISH A DIALOGUE WITH THE " ENTITIES." [B] ESTABLISH A TEAM TO LIST AND ANALYZE ALL POSSIBILITIES AND ACTION REQUIRED TO FIND A SOLUTION FOR VEHICLE ENTRY.

A PARTICULAR INCIDENT THAT CAME TO LIGHT AS AN ANECDOTE AND AN INTERESTING OCCURRENCE WHICH HAD TO DO WITH ONE OF THE INITIAL ENTRY CREW INDIVIDUALS WHO HAPPENED TO BE A FIGHTER PILOT. WHEN ASKED IF HE WOULD LIKE TO BE PART OF THE CREW IN THE SECOND ATTEMPT FOR REENTRY; WITHOUT MUCH HESITATION HE SAID " I WOULD RATHER TAKE A ROCKET SHIP TO HELL THEN TO GO BACK INTO THAT CRAFT". SO IT WAS A MAJOR ITEM THAT HAD TO BE CONSIDERED IN THE PLAN. IT BECAME PARAMOUNT THAT THE FIRST ITEM WAS:ESTABLISH A COMMUNICATIONS LINK WITH THE ██████████ EBES  
██████████ HAD THEIR OWN AGENDA. THEY WERE BUSILY DOING THERE OWN ANALYSIS OF ITEMS PROVIDED IN THE QUARANTINED AREA SET UP,THIS INCLUDED: FOOD, FACILITIES, AND US. IT BEGIN TO APPEAR THAT WE WERE THE CAPTEES AND THEY WERE THE CAPTORS.

THE FIRST SIGN OF COMMUNICATION WAS BETWEEN THE BIOASTRONAUTIC ENGINEER AND THE TALLEST ENTITY OF THE FOUR. HE WAS ALSO NOTED TO BE COINED "//////////".THIS SITUATION PLEASED THE POWERS TO BE. WHAT ENSUED:CREATED A DILEMMA,THE EBES WANTED TO RETURN TO THEIR VESSEL.AFTER MUCH DELIBERATION IT WAS AGREED TO TAKE THEM AND THE TEAM TO THE NEVADA TEST SITE WERE THE VESSEL WAS NOW LOCATED. THEY THE ENTITIES WERE PLEASED UPON INSPECTION OF THE VESSELS CONDITION. THE HATCH WAS REOPENED FOR THEIR ENTRY. THE FOUR FILED IN. AFTER A FEW MINUTES THE HUM WAS SILENCED"//////////"/" CAME OUT AND WENT DIRECTLY TO THE BIOASTRONAUTIC ENGINEER REQUESTING HIS PRESENCE IN THE CRAFT.THE TEAM LEADER GAVE THE OKAY AND THE TWO ENTERED. AFTER SOMETIME PASSED BOTH MADE THEIR EXIT.THE ENGINEER LOOKED WELL AND SMILING. THE FINAL OUT COME OF THIS PROCESS WAS GOOD NEWS FOR THE POWERS TO BE. A REQUEST MADE BY THE LEADER WAS THAT THEY BE HOUSED AT THE TEST SITE AND MADE ADDITIONAL REQUESTS FOR MATERIAL,FOR EQUIPMENT AND LITERATURE. THIS WAS THE START FOR DEVELOPMENT OF THE FLYING DISC *Program Activities*

As additional consistency: in 1995, Bill Uhouse, an insider at S-4 in Area 51, who worked with a live alien (J-Rod) trying to bridge the gap between ET technology and ours on a craft delivered by the ETs to S-4, told the researcher who supplied the document above about a craft recovered in 1953 from the vicinity of Kingman, Arizona. Uhouse reported the following, as summarized by this researcher:

The craft kept making a noise that the engineers were unable to stop. Somebody suggested they bring the alien occupants back from Los Alamos, where they had been taken to a prepared habitat, and have them stop the noise. This was done, and when the aliens indicated they would have to go inside the ship to stop the noise, that was permitted. It is believed that they made contact with another of their ships while inside. Then they came to the door again and were reloaded into the van and taken back to Los Alamos.

---

### 11) An interesting experience reported by a filmmaker on the [Above Top Secret Forum](#).

I am a filmmaker, and a couple of years ago, I had this meeting about a science-fiction film concept... Make a long story short, a guy in the room, when Close Encounters is referenced, mentions that CE3 is based on fact. There was no reaction from anyone., since the initial presumption was that he meant that there was a Roy (Richard Dreyfuss) person – an ordinary phone line worker who was chosen, or called, to join the aliens... the guy, sensing a lack of comprehension regarding what he just said, repeated it and *slowly laid out the basics of the Serpo story...*

It was a very cool thought, at the time, to consider the viability of such a program. I amuse myself with daydreams of daily life on another planet for a few weeks, forget about it for a few years, and then, since Anonymous came along, I am back, happily withstanding the din of my internal debate about whether this profound piece of history was censored, or created.

---

### 12) What the Ebens may look like, taken from Wendelle Stevens' book **UFO Contact from Reticulum**.

These images below are NOT photographs of an Eben, but are taken from a lifelike sculpture of a "Reticulan" created by the artist Alan Levigne, who did work for many of the major movie studios in California. Levigne created the sculpted head in close consultation with Bill Herrmann, an contactee and abductee whose graphic and detailed experience is the subject of Lt Col Wendelle Stevens' excellent book **UFO Contact from Reticulum**. Readers are left to judge for themselves whether the Reticulans and the Ebens (both from Zeta Reticuli, and apparently not the Grays) are one and the same.

---

**13) A message received on this website contact form on 7 December 2005:**

I [BR] received this message below on the website contact form on 7 December, the day after the Coast to Coast AM with George Noory radio show. I immediately relayed it to Victor Martinez, asking him to check with Anonymous whether the information was correct or a hoax.

The reply came back that it was indeed correct but was a very long story which would NOT be made public, and we should under no circumstances release the information. So we didn't, and sat on it... not knowing quite what to think. Now – in further indication of a policy reversal – we are being asked to do just that. Here's the 7 December message in its entirety. It entirely confirms the [posting by Anonymous on 28 January](#):

\*\*\*\*\*

From: "T.G.H." <contact@serpo.org>  
Date: 7 Dec 2005 09:11:23 -0000  
To: "Serpo.org" <contact@serpo.org>  
Subject: Contact

There is much, much more to this story. One person, a male, died during the trip to Zeta. He suffered a pulmonary embolism. In addition, an autopsy was performed at which time the deceased individual's DNA was extracted and stored. At a later time, the DNA was used in a cloning type process which actually involved creating a hybrid being, part human, part alien. Through an advanced aging process and something called rapid-cycling cloning, several hundred hybrid beings were created. Some remain on Zeta, but others were

returned to Earth. This can be verified in documents contained in the ZR Repro Factor file.
