SUPPLEMENTARY INFORMATION: On November 6, 1991 (40 CFR 81.305, 56 FR 56694) the Sacramento Metro area was classified as a "Serious" ozone nonattainment area under the Clean Air Act (CAA). A "Serious" ozone classification requires that the area attain the ozone standard as expeditiously as practicable, but not later than 1999.

On November 15, 1994, California submitted the Statewide SIP for ozone attainment. For the Sacramento Metro ozone nonattainment area, the SIP relied on an ozone attainment date of 2005. On December 29, 1994, the State submitted a revision to the SIP which reaffirmed the 2005 attainment date request for a reclassification of the Sacramento Metro area from a "Serious" to a "Severe" ozone nonattainment area pursuant to section 181(b)(3) of the CAA.

Section 181(b)(3) of the CAA provides for "voluntary reclassification" and states that "* * * [t]he Administrator shall grant the request of any State to reclassify a nonattainment area in that State * * * to a higher classification" and that "* * * [t]he Administrator

shall publish a notice in the **Federal Register** of any such request and of action by the Administrator granting the request." EPA is granting California's request for voluntary reclassification under section 181(b)(3) of the Sacramento Metro area to "Severe" in today's document.

New Mexico: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency.

ACTION: Immediate final rule.

SUMMARY: The State of New Mexico has applied for authorization of revision to its hazardous waste program under the

Resource Conservation and Recovery Act (RCRA). The Environmental Protection Agency (EPA) reviewed New Mexico's application and determined that its hazardous waste program revision satisfies all of the requirements necessary to qualify for authorization. Unless adverse written comments are received during the review and comment period provided for public participation in this process, EPA intends to approve New Mexico's hazardous waste program revision subject to the authority retained by EPA in accordance with Hazardous and Solid Waste Amendments of 1984. New Mexico's application for the program revision is available for public review and comment.

DATES: This authorization for New Mexico shall be effective July 10, 1995 unless EPA publishes a prior **Federal Register** (FR) action withdrawing this immediate final rule. All comments on New Mexico's program revision application must be received by the close of business June 10, 1995.

ADDRESSES: Copies of the New Mexico program revision application and the materials which EPA used in evaluating the revision are available from 8:30 a.m. to 4 p.m., Monday through Friday at the following addresses for inspection and copying: New Mexico Environment Department, 1190 St Francis Drive, Santa Fe, New Mexico 87502, and U.S. EPA, Region 6 Library, 12th Floor, First Interstate Bank Tower at Fountain Place,
