

The Need for the Proposed Action

The Commission extended the implementation schedule for operating plants to 18 months from the effective date of the rule, given that it involves a new power for power reactor sites, that some procurement problems may arise and that scheduling problems may occur. Under the present rule and current licensing schedule, the applicant would be required to implement the rule several months (depending on the actual date of operating license issuance) ahead of operating power reactors. The applicant will implement interim compensatory measures to justify the scheduler exemption.

Environmental Impacts of the Proposed Action

The applicant's request for scheduler exemption involves delaying, by several months, implementation of control measures per the regulation. The proposed action will not increase the probability or consequences of accidents, makes no changes in the types of any effluents that may be released offsite, and does not increase the allowable individual or cumulative occupational radiation exposure. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action involves features located entirely within the restricted area as defined in 10 CFR Part 20. It does not affect nonradiological plant effluents and has no other environmental impact. Accordingly, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed action.

Alternative to the Proposed Action

Since the Commission has concluded there is no measurable environmental impact associated with the proposed action, any alternatives with equal or greater environmental impact need not be evaluated. As an alternative to the proposed action, the Commission considered denial of the proposed action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action did not involve the use of any resources not previously considered in the Final Environmental Statement and Supplement 1 related to operation

of the Watts Bar Nuclear Plant, dated December 1978 and April 1995, respectively.

Agencies and Persons Consulted

In accordance with its stated policy, the NRC staff consulted with the Tennessee State official regarding the environmental impact of the proposed action. The State official had no comment.

Finding of No Significant Impact

Based upon the foregoing environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to this action, see the request for exemption dated November 30, 1994, which is available for public inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC, and at the local public document room located at the Chattanooga-Hamilton County Library, 1101 Broad Street, Chattanooga, Tennessee.

Dated at Rockville, Maryland, this 18th day of April 1995.

For the Nuclear Regulatory Commission.
Peter S. Tam,
Senior Project Manager, Project Directorate II-3, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

OFFICE OF PERSONNEL MANAGEMENT**Notice of Request for Expedited Review of Revised Form RI 10-72**

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1980 (title 44, U.S. Code, chapter 35), this notice announces a request for expedited review of a revised information collection. Form RI 10-72, Client Satisfaction Survey, is used to determine how well the Office of Personnel Management has served federal civil service annuitants and survivor annuitants. An expedited clearance is requested for this survey questionnaire so we can meet our scheduled mailing date of May 1, 1995.

The questionnaire will be sent to approximately 1500 annuitants and will

require approximately 25 minutes to complete, for a total public burden of 625 hours.

A copy of this proposal is appended to this notice.

DATES: Comments on this proposal should be received by April 28, 1995. OMB has been requested to take action within five (5) calendar days from the date of this publication.

ADDRESSES: Send or deliver comments to—

Lawrence P. Holman, Chief, Quality Assurance Division, Retirement and Insurance Group, U.S. Office of Personnel Management, 1900 E Street, NW., Room 4316, Washington, DC 20415
and
Joseph Lackey, OPM Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, NW., Room 10235, Washington, DC 20503

FOR INFORMATION REGARDING

ADMINISTRATIVE COORDINATION—CONTACT: Mary Beth Smith-Toomey, Management Services Division, (202) 606-4025.

U.S. Office of Personnel Management.

Lorraine A. Green,
Deputy Director.

Dear Annuitant: We are conducting a survey of people across the country to find out how well the Office of Personnel Management is serving the Federal annuitant population.

You are one of a relatively small number of annuitants randomly selected for this survey, so your answers are very important. This is your chance to tell us how satisfied you are with the service you receive from the Office of Personnel Management.

This survey is completely voluntary. It is your choice whether or not to help us, and your decision will not be recorded or affect your eligibility for any Government benefits. Your answers will be kept confidential. No permanent record will be kept on how you answered any of the questions.

If you have any questions about our survey, please call collect at (202) 606-0283. This is a special telephone number we have established just for this survey. Your questions about your claim or the benefits you are receiving should continue to be referred to OPM's Retirement Information Office at (202) 606-0500.

Please use the addressed, postage-paid envelope to return your questionnaire to us after you have completed it. Remember, your answers will help OPM to improve its services to you and your fellow annuitants.

Thank you for your help.

Sincerely,

James B. King,
Director.

Dear Annuitant: Several weeks ago, we mailed you a questionnaire regarding the
