

Minerals Management Service (MMS) established regulations at 30 CFR part 230 (59 FR 38365, July 28, 1994, effective August 29, 1994) implementing Section 10 of the Outer Continental Shelf Lands Act, 43 U.S.C. 1339.

Section 10 requires that requests for refunds or credits of excess payments on Federal offshore leases be authorized only if (1) a request for refund or credit is filed within 2 years after the making of the payment, and (2) 30 days expire after both Houses of Congress are notified of the refund request.

In the regulations, MMS identified certain transactions not subject to Section 10. Under one of those exceptions, the regulations at 30 CFR 230.461(h) permit payors to file credit adjustments for de minimis amounts without filing requests for refunds with MMS. Those rules provide that MMS periodically will publish in the **Federal Register** what the de minimis threshold is. Based on the cost experience for fiscal year 1994, MMS is establishing \$250 as this amount. MMS will recalculate the amount whenever costs to process a Section 10 refund request change significantly.

Under these procedures, payors may make credit adjustments for \$250 or less for each OCS lease and report month without filing a request with MMS. A credit adjustment for a lease within a unit may exceed \$250 of credits during one report month, provided the net credit adjustment for that month considering all positive and negative adjustments for leases in the unit is less than \$250. For example, if leases A and B are part of a unit, a payor may submit a credit adjustment of \$10,000 for lease A and a payment of \$9,800 for lease B within the same report month. Since the two leases within the unit net to a credit of \$200, the payor is within the de minimis amount. As provided by the regulations, the overpayment recoupments must be made within 2 years of the date MMS received the payment.

Dated: April 20, 1995.
