§ 1.902-1 Credit for domestic corporate shareholder of a foreign corporation for foreign income taxes paid by the foreign corporation.

(a) *Definitions and special effective date.* For purposes of section 902 and §§ 1.902-1 and 1.902-2, the definitions provided in paragraphs (a) (1) through (12) of this section and the special effective date of paragraph (a)(13) of this section apply.

(1) *Domestic shareholder.* In the case of dividends received by a domestic corporation from a foreign corporation after December 31, 1986, the term domestic shareholder means a domestic corporation, other than an S corporation as defined in section 1361(a), that owns directly at least 10 percent of the voting stock of the foreign corporation at the time the domestic corporation receives a dividend from that foreign corporation.

(2) *First-tier corporation.* In the case of dividends received by a domestic shareholder from a foreign corporation in a taxable year beginning after December 31, 1986, the term first-tier corporation means a foreign corporation, at least 10 percent of the voting stock of which is owned by a domestic shareholder at the time the domestic shareholder receives a dividend from that foreign corporation. The term first-tier corporation also means a DISC or former DISC, but only with respect to dividends from the DISC or former DISC that are treated under sections 861(a)(2)(D) and 862(a)(2) as income from sources without the United States.

(3) *Second-tier corporation.* In the case of dividends paid to a first-tier corporation by a foreign corporation in a taxable year beginning after December 31, 1986, the foreign corporation is a second-tier corporation if, at the time a first-tier corporation receives a dividend from that foreign corporation, the first-tier corporation owns at least 10 percent of the foreign corporation's voting stock and the product of the following equals at least 5 percent—

(i) The percentage of voting stock owned by the domestic shareholder in the first-tier corporation; multiplied by

(ii) The percentage of voting stock owned by the first-tier corporation in the second-tier corporation.

(4) *Third-tier corporation.* In the case of dividends paid to a second-tier corporation by a foreign corporation in a taxable year beginning after December 31, 1986, a foreign corporation is a third-tier corporation if, at the time a second-tier corporation receives a dividend from that foreign corporation, the second-tier corporation owns at least 10 percent of the foreign corporation's voting stock and the product of the following equals at least 5 percent—

(i) The percentage of voting stock owned by the domestic shareholder in the first-tier corporation; multiplied by

(ii) The percentage of voting stock owned by the first-tier corporation in the second-tier corporation; multiplied by

(iii) The percentage of voting stock owned by the second-tier corporation in the third-tier corporation.

(5) *Example.* The following example illustrates the ownership requirements of paragraphs (a)(1) through (4) of this section.

Example. (i) Domestic corporation M owns 30 percent of the voting stock of foreign corporation A on January 1, 1991, and for all periods thereafter. Corporation A owns 40 percent of the voting stock of foreign corporation B on January 1, 1991, and continues to own that stock until June 1, 1991, when Corporation A sells its stock in Corporation B. Both Corporation A and Corporation B use the calendar year as the taxable year. Corporation B pays a dividend out of its post-1986 undistributed earnings to Corporation A, which Corporation A receives on February 16, 1991. Corporation A pays a dividend out of its post-1986 undistributed earnings to Corporation M, which Corporation M receives on January 20, 1992. Corporation M uses a fiscal year ending on June 30 as the taxable year.

(ii) On February 16, 1991, when Corporation B pays a dividend to Corporation A, Corporation M satisfies the 10-percent stock ownership requirement of paragraphs (a)(1) and (a)(2) of this section with respect to Corporation A. Therefore, Corporation A is a first-tier corporation within the meaning of paragraph (a)(2) of this section and Corporation M is a domestic shareholder of Corporation A within the meaning of paragraph (a)(1) of this section. Also on February 16, 1991, Corporation B is a second-tier corporation within the meaning of paragraph (a)(3) of this section because Corporation A owns at least 10 percent of its voting stock, and the percentage of voting stock owned by Corporation M in Corporation A on February 16, 1991 (30 percent) multiplied by the percentage of voting stock owned by Corporation A in Corporation B on February 16, 1991 (40 percent) equals 12 percent. Corporation A shall be deemed to have paid foreign income taxes of Corporation B with respect to the
