

dividend received from Corporation B on February 16, 1991.

(iii) On January 20, 1992, Corporation M satisfies the 10-percent stock ownership requirement of paragraphs (a)(1) and (2) of this section with respect to Corporation A. Therefore, Corporation A is a first-tier corporation within the meaning of paragraph (a)(2) of this section and Corporation M is a domestic shareholder within the meaning of paragraph (a)(1) of this section. Accordingly, for its taxable year ending on June 30, 1992, Corporation M is deemed to have paid a portion of the post-1986 foreign income taxes paid, accrued, or deemed to be paid, by Corporation A. Those taxes will include taxes paid by Corporation B that were deemed paid by Corporation A with respect to the dividend paid by Corporation B to Corporation A on February 16, 1991, even though Corporation B is no longer a second-tier corporation with respect to Corporations A and M on January 20, 1992, and has not been a second-tier corporation with respect to Corporations A and M at any time during the taxable years of Corporations A and M that include January 20, 1992.

(6) *Upper- and lower-tier corporations.* In the case of a third-tier corporation, the term upper-tier corporation means a first- or second-tier corporation. In the case of a second-tier corporation, the term upper-tier corporation means a first-tier corporation. In the case of a first-tier corporation, the term lower-tier corporation means a second- or third-tier corporation. In the case of a second-tier corporation, the term lower-tier corporation means a third-tier corporation.

(7) *Foreign income taxes.* The term foreign income taxes means income, war profits, and excess profits taxes as defined in § 1.901-2(a), and taxes included in the term income, war profits, and excess profits taxes by reason of section 903, that are imposed by a foreign country or a possession of the United States, including any such taxes deemed paid by a foreign corporation under this section. Foreign income, war profits, and excess profits taxes shall not include amounts excluded from the definition of those taxes pursuant to section 901 and the regulations under that section. See also paragraphs (c) (4) and (5) of this section (concerning foreign taxes paid with respect to foreign mineral income and in connection with the purchase or sale of oil and gas).

(8) *Post-1986 foreign income taxes—*

(i) *In general.* Except as provided in paragraphs (a)(10) and (13) of this section, the term post-1986 foreign income taxes of a foreign corporation means the sum of the foreign income taxes paid, accrued, or deemed paid in the taxable year of the foreign corporation in which it distributes a

dividend, and the foreign income taxes paid, accrued, or deemed paid in the foreign corporation's prior taxable years beginning after December 31, 1986, to the extent the foreign taxes were not paid or deemed paid by the foreign corporation on or with respect to earnings that in prior taxable years were distributed to or otherwise included in the income of a foreign or domestic shareholder, for example under sections 304, 367(b), 551, 951(a), 1248, or 1293 (whether or not the shareholder is deemed to have paid the foreign taxes). Thus, if a dividend is paid by a foreign corporation to a United States person that is not a domestic shareholder, or to a foreign person that is not a first- or second-tier corporation, then although no foreign income taxes shall be deemed paid under section 902 with respect to that dividend, foreign income taxes that would have been deemed paid had section 902 applied shall be removed from post-1986 foreign income taxes. In the case of a foreign corporation the foreign income taxes of which are determined based on an accounting period of less than one year, the term year means that accounting period. See sections 441(b)(3) and 443.

(ii) *Distributions out of earnings and profits accumulated by a lower-tier corporation in its taxable years beginning before January 1, 1987, and included in the gross income of an upper-tier corporation in its taxable year beginning after December 31, 1986.* Post-1986 foreign income taxes shall include foreign income taxes that are deemed paid by an upper-tier corporation with respect to distributions from a lower-tier corporation out of non-previously taxed pre-1987 accumulated profits, as defined in paragraph (a)(10) of this section, that are received by an upper-tier corporation in any taxable year of the upper-tier corporation beginning after December 31, 1986, provided the upper-tier corporation's earnings and profits in that year are included in its post-1986 undistributed earnings under paragraph (a)(9) of the section. Foreign income taxes deemed paid with respect to a distribution of pre-1987 accumulated profits shall be translated from the functional currency of the lower-tier corporation into dollars at the spot exchange rate in effect on the date of the distribution. To determine the character of the earnings and profits and associated taxes for foreign tax credit limitation purposes, see section 904 and § 1.904-7(a).

(iii) *Foreign income taxes paid or accrued with respect to high withholding tax interest.* Post-1986 foreign income taxes shall not include foreign income taxes paid or accrued by

a noncontrolled section 902 corporation (as defined in section 904(d)(2)(E)(i)) with respect to high withholding tax interest (as defined in section 904(d)(2)(B)) to the extent the foreign tax rate imposed on such interest exceeds 5 percent. See section 904(d)(2)(E)(ii) and § 1.904-4(g)(2)(iii). The reduction in foreign income taxes paid or accrued by the amount of tax in excess of 5 percent imposed on high withholding tax interest income must be computed in functional currency before foreign income taxes are translated into U.S. dollars and included in post-1986 foreign income taxes.

(9) *Post-1986 undistributed earnings—*(i) *In general.* Except as provided in paragraphs (a) (10) and (13) of this section, the term post-1986 undistributed earnings means the amount of the earnings and profits of a foreign corporation (computed in accordance with sections 964(a) and 986) accumulated in taxable years of the foreign corporation beginning after December 31, 1986, determined as of the close of the taxable year of the foreign corporation in which it distributes a dividend. Post-1986 undistributed earnings shall not be reduced by reason of any earnings distributed or otherwise included in income, for example, under section 304, 367(b), 551, 951(a), 1248, or 1293, during the taxable year. Post-1986 undistributed earnings shall be reduced by the amount of earnings distributed or amounts otherwise included in income in prior taxable years beginning after December 31, 1986 (whether or not the shareholder is deemed to have paid any foreign taxes). For rules on carrybacks and carryforwards of deficits and their effect on post-1986 undistributed earnings, see § 1.902-2. In the case of a foreign corporation the foreign income taxes of which are computed based on an accounting period of less than one year, the term year means that accounting period. See sections 441(b)(3) and 443.

(ii) *Distributions out of earnings and profits accumulated by a lower-tier corporation in its taxable years beginning before January 1, 1987, and included in the gross income of an upper-tier corporation in its taxable year beginning after December 31, 1986.* Distributions by a lower-tier corporation out of non-previously taxed pre-1987 accumulated profits, as defined in paragraph (a)(10) of this section, that are received by an upper-tier corporation in any taxable year of the upper-tier corporation beginning after December 31, 1986, shall be treated as post-1986 undistributed earnings of the upper-tier corporation, provided the upper-tier corporation's earnings and profits for
