#### IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, with sections 6(b)(5) and 11 of the Act.<sup>3</sup> The Commission believes the proposal is consistent with the Section 6(b)(5) requirements that the rules of an exchange be designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market, and, in general, protect investors and the public interest. The Commission also believes that the proposal is consistent with section 11(b) of the Act and Rule 11b-1 thereunder,<sup>4</sup> which allow exchanges to promulgate rules relating to specialists in order to maintain fair and orderly markets.<sup>5</sup>

Under the current pilot program, a specialist may liquidate a position by selling stock on a direct minus tick or by purchasing stock on a direct plus tick only if such transactions are reasonably necessary for the maintenance of a fair and orderly market and only if the specialist has obtained the prior approval of a Floor Official. Liquidations on a zero minus or a zero plus tick, which previously required Floor Official approval, can be effected under the pilot procedures without a Floor Official's approval, but continue to be subject to the restriction that they be effected only when reasonably necessary to maintain a fair and orderly market. In addition, the specialist must maintain a fair and orderly market during the liquidation.

After the liquidation, a specialist is required to re-enter the market on the opposite side of the market from the liquidating transaction to offset any

imbalances between supply and demand. During any period of volatile or unusual market conditions resulting in a significant price movement in a specialist's specialty stock, the specialist's re-entry into the market must reflect, at a minimum, his or her usual level of dealer participation in the specialty stock. In addition, during such periods of volatile market conditions or unusual price movements, re-entry into the market following a series of transactions must reflect a significant level of dealer participation.

In our 1994 Approval Order,<sup>6</sup> the Commission asked the Amex to submit a report setting forth the criteria developed by the Exchange to determine whether liquidating transactions effected by specialists pursuant to the pilot were necessary and appropriate in connection with fair and orderly markets. The Commission also asked the Amex to provide information regarding the Exchange's monitoring of liquidating transactions effected by specialists on any destabilizing tick. In addition, the Commission asked the Amex to provide the following information in its report: (1) A review of all liquidating transactions effected by specialists on any destabilizing ticks; (2) a review of liquidating transactions by specialists to determine that the required Floor Official approval was obtained where necessary; and (3) a review of liquidating transactions in light of dealer participation levels and re-entry into the market in terms of timing and support.<sup>7</sup>

During the three month extension of the pilot, the Amex will prepare the report discussed above and submit the data to the Commission for its consideration of whether the pilot program should be granted permanent approval. The Commission expects the Amex to continue to monitor compliance with the pilot program procedures during the three month extension and report any non-compliance with the rule and the action the Amex has taken as a result of such non-compliance.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof. This will permit the pilot program to continue on an uninterrupted basis. In addition, the Exchange proposes to continue using the identical procedures

contained in the pilot program. The rule change that implemented the pilot program was published in the **Federal Register** for the full comment period,<sup>8</sup> and no comments were received. Furthermore, the Commission approved a similar rule change for the NYSE also without receiving comments on the proposal.<sup>9</sup>

It Therefore is Ordered, pursuant to Section 19(b)(2) of the Act,<sup>10</sup> that the proposed rule change is approved for a three month period ending on July 21, 1995.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

**Margaret H. McFarland,**  
Deputy Secretary.
