Food Safety and Inspection Service

[Docket No. 95-016N]

National Forum on Animal Production Food Safety

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Food Safety and Inspection Service (FSIS) will hold a forum, "National Forum on Animal

Production Food Safety," on May 23-25, 1995, at the University of Maryland, The Inn and Conference Center, University College, College Park, Maryland. The forum will explore ways FSIS can refine and advance its strategy to assure the safety of meat and poultry products from farm to table as outlined in the proposal, "Pathogen Reduction; Hazard Analysis and Critical Control Point (HACCP) Systems."

FOR FURTHER INFORMATION CONTACT: Ms. Margaret Webb, Communications and Public Affairs, FSIS Animal Production Food Safety Program, FSIS, USDA, (202) 690-2683.

To register to attend, call Ms. Jennifer Callahan (202) 501-7136.

SUPPLEMENTARY INFORMATION: On February 3, 1995, FSIS published a proposed rule, "Pathogen Reduction; Hazard Analysis and Critical Control Point (HACCP) Systems" (60 FR 6774). In that document, the Agency proposed a number of regulatory changes applicable to Federal- and State-inspected meat and poultry establishments. The proposed changes are designed to reduce the occurrence and numbers of pathogenic microorganisms in meat and poultry products, thereby reducing the incidence of foodborne illness associated with the consumption of these products.

In the proposed rule, FSIS stated that public meetings would be held with the regulated industry and interested parties. Although the proposed regulations address product safety within an establishment environment, FSIS recognizes that food safety requires attention throughout the chain of production, processing, distribution, and sale. Therefore, FSIS is holding the forum, "National Forum on Animal Production Food Safety," to explore FSIS strategy to assure the safety of meat and poultry products from farm to table.

The forum, "National Forum on Animal Production Food Safety," will be held on May 23-25, 1995, at the University of Maryland, The Inn and Conference Center, University College, College Park, Maryland 20742 (301) 985-7445. On May 23 and 24 the forum will begin at 8:00 a.m. and end at 5:30 p.m. On May 25 the forum will begin at 8:00 a.m. and end at 12:30 p.m.

Forum Agenda

The forum will primarily focus on the preventive approach to reducing microbial pathogens from the farm to the slaughter plant. Objectives are to define the current status of food safety risks and possible risk reduction measures in animal production

practices; to work toward national consensus on research priorities; to identify partnerships needed for research and education; to explore effective public/private funding processes to sustain research and build science-based prevention programs; to identify roles and responsibilities of stakeholders; and to consider the role of FSIS' Animal Production Food Safety Program.

Several speakers will address key issues relating to HACCP and international animal production food safety programs. In addition, attendees will participate in commodity workshops addressing topics relating to the forum. Producers, processors, government agencies, consumer groups, university scientists, the veterinary community, and all interested groups are invited to participate. Transcripts of the forum will be available in the FSIS Docket Clerk's Office, Room 4352, South Agriculture Building, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250.

Attendance and Hotel Reservations

Seating space at the forum is limited. Please call Ms. Jennifer Callahan if you wish to attend the forum (see **FOR FURTHER INFORMATION CONTACT**). People attending the forum will be responsible for making their own hotel arrangements.

Done at Washington, DC, on: April 21, 1995.

Michael R. Taylor,

Acting Under Secretary for Food Safety.
