

Standard No. 208 *Occupant Crash Protection*: (a) Installation of a U.S.-model seat belt in the driver's position, or a belt webbing-actuated microswitch inside the driver's seat belt retractor; (b) installation of an ignition switch-actuated seat belt warning lamp and buzzer; (c) installation of U.S.-model driver's and passenger's side airbags and knee bolsters. The petitioner states that the vehicle is equipped at its front designated seating positions with combination lap and shoulder belts that adjust by means of an automatic retractor and release by means of a single push button. The petitioner also states that the vehicle is equipped in at its rear outboard seating positions with combination lap and shoulder belts that have a single release button, and with a lap belt in the rear center seating position.

Standard No. 214 *Side Impact Protection*: Installation of reinforcing beams.

Standard No. 301 *Fuel System Integrity*: Installation of a rollover valve in the fuel tank vent line between the fuel tank and the evaporative emissions collection canister.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141 (a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: April 26, 1995.

[Docket No. 95-31; Notice 1]

Receipt of Petition for Decision That Nonconforming 1994 BMW 520i 4-Door Sedan Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for decision that nonconforming 1994 BMW 520i 4-Door Sedan passenger cars are eligible for importation.

SUMMARY: This notice announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that a 1994 BMW 520i 4-Door Sedan that was not originally manufactured to comply with all applicable Federal motor vehicle safety standards is eligible for importation into the United States because (1) it is substantially similar to a vehicle that was originally manufactured for importation into and sale in the United States and that was certified by its manufacturer as complying with the safety standards, and (2) it is capable of being readily altered to conform to the standards.

DATES: The closing date for comments on the petition is May 31, 1995.

ADDRESSES: Comments should refer to the docket number and notice number, and be submitted to: Docket Section, Room 5109, National Highway Traffic Safety Administration, 400 Seventh St., SW, Washington, DC 20590. (Docket hours are from 9:30 am to 4 pm.)

FOR FURTHER INFORMATION CONTACT: George Entwistle, Office of Vehicle Safety Compliance, NHTSA (202-366-5306).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A) (formerly section 108(c)(3)(A)(i)(I) of the National Traffic and Motor Vehicle Safety Act (the Act)), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115 (formerly section 114 of the Act), and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or

importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Champagne Imports, Inc. of Lansdale, Pennsylvania (Registered Importer No. R-90-009) has petitioned NHTSA to decide whether 1994 BMW 520i 4-Door Sedan passenger cars are eligible for importation into the United States. The vehicle which Champagne believes is substantially similar is the 1994 BMW 525i 4-Door Sedan. Champagne has submitted information indicating that Bayerische Motoren Werke A.G., the company that manufactured the 1994 BMW 525i 4-Door Sedan, certified that vehicle as conforming to all applicable Federal motor vehicle safety standards and offered it for sale in the United States.

The petitioner contends that it carefully compared the 520i to the 525i, and found the two models to be substantially similar with respect to compliance with most applicable Federal motor vehicle safety standards.

Champagne submitted information with its petition intended to demonstrate that the 1994 model 520i, as originally manufactured, conforms to many Federal motor vehicle safety standards in the same manner as the 1994 model 525i that was offered for sale in the United States, or is capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that the 1994 model 520i is identical to the certified 1994 model 525i with respect to compliance with Standard Nos. 102 *Transmission Shift Lever Sequence* * * *, 103 *Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 105 *Hydraulic Brake Systems*, 106 *Brake Hoses*, 107 *Reflecting Surfaces*, 109 *New Pneumatic Tires*, 113 *Hood Latch Systems*, 116 *Brake Fluid*, 124 *Accelerator Control Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 211 *Wheel Nuts, Wheel Discs and Hubcaps*, 212 *Windshield Retention*, 216 *Roof Crush*
