**Approval and Promulgation of Implementation Plans; Minnesota**

**AGENCY:** United States Environmental Protection Agency (USEPA).

**ACTION:** Proposed rule.

**SUMMARY:** USEPA proposes to approve updated air permitting regulations that Minnesota submitted on November 23, 1993. USEPA further proposes to authorize Minnesota to issue federally enforceable State operating permits (FESOPs) under these regulations, and submit properly noticed permits as SIP revision requests. In addition, USEPA proposes to find that the updated regulations continue to satisfy new source review permitting requirements.

In the final rules section of this **Federal Register**, the USEPA is approving Minnesota's updated permitting regulations as a direct final rule without prior proposal, because USEPA views the action as noncontroversial and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to the proposal of that action. If USEPA receives adverse public comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. USEPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this action must be received by June 1, 1995.
