

recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Committee, its consultants, and staff. Persons desiring to make oral statements should notify the ACNW Executive Director, Dr. John T. Larkins, as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture, and television cameras during this meeting may be limited to selected portions of the meeting as determined by the ACNW Chairman. Information regarding the time to be set aside for this purpose may be obtained by contacting the ACNW Executive Director prior to the meeting. In view of the possibility that the schedule for ACNW meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the ACNW Executive Director if such rescheduling would result in major inconvenience.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the ACNW Executive Director, Dr. John T. Larkins (telephone 301/415-7360), between 7:30 a.m. and 4:15 p.m. EDT.

**Boston Edison Company; Pilgrim Nuclear Power Station; Receipt of Petition for Director's Decision Under 10 CFR 2.206**

Notice is hereby given that by letter dated March 10, 1995, Mary Elizabeth Lampert and 62 other persons request that the U.S. Nuclear Regulatory Commission (NRC) take action with regard to the Pilgrim Nuclear Power Station operated by the Boston Edison Company (the licensee).

Petitioners request that during the March 25, 1995, refueling outage and In-Vessel Visual Inspection conducted by the licensee, certain technical concerns be addressed, and that before Pilgrim goes back on-line, appropriate repairs be made or corrective action be taken, and that the NRC discuss the status of such repairs and corrective actions with the

public in Plymouth, Massachusetts. Petitioners also request that the NRC terminate its policy of issuing Notices of Enforcement Discretion (NOED) and commence enforcing NRC regulations again. Finally, Petitioners request that the letter be treated as a Petition pursuant to 10 CFR 2.206.

As the bases for their requests, Petitioners identify three groups of technical concerns: (1) Age-related deterioration of 25 safety related reactor internals; (2) parts and components "known to be a problem at Pilgrim," including the core shroud, water level indicators, QA for fuel pool cooling system during loss-of-coolant accident/loss-of-coolant protection, coolant protection, motor-operated valves, containment integrity, drywell liner corrosion vulnerability, station blackout vulnerability, and Rosemount transmitters; and (3) parts and components "potentially a problem at Pilgrim," including potential fuel rod corrosion and substandard and/or counterfeit parts. Additionally, Petitioners contend that allowing a reactor to operate under an NOED cannot pose less risk to the public health and safety than keeping the reactor shut down until NRC regulations are met.

The Petition is being evaluated pursuant to 10 CFR 2.206 of the Commission's regulations. The Petition has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by Section 2.206, appropriate action will be taken on this Petition within a reasonable time.

A copy of the Petition is available for inspection at the Commission's Public Document Room at 2120 L Street, NW., Washington, DC 20001.

Dated at Rockville, Maryland, this 19th day of April 1995.

For the Nuclear Regulatory Commission.
