

corrected the deficiency by submitting a complete corrective program.

If EPA disapproves any of the nineteen districts' complete corrective program, EPA will apply sanctions to that district or districts as required by section 502(d)(2) on the date 18 months after the effective date of the disapproval, unless prior to that date the district or districts has submitted a revised program and EPA has determined that the district or districts corrected the deficiencies that prompted the disapproval.

In addition, discretionary sanctions may be applied where warranted any time after the expiration of an interim approval period if any of the nineteen districts has not timely submitted a complete corrective program or EPA has disapproved its submitted corrective program. Moreover, if EPA has not granted full approval to any of the nineteen districts' programs by the expiration of this interim approval and that expiration occurs after November 15, 1995, EPA must promulgate, administer and enforce a Federal permits program for those districts lacking full approval, upon interim approval expiration.

Requirements for approval, specified in 40 CFR 70.4(b), encompass section 112(l)(5) requirements for approval of a program for delegation of section 112 standards as promulgated by EPA as they apply to part 70 sources. Section 112(l)(5) requires that the State or District's program contain adequate authorities, adequate resources for implementation, and an expeditious compliance schedule, which are also requirements under part 70. Therefore, the EPA is also promulgating approval under section 112(l)(5) and 40 CFR 63.91 of the nineteen districts' programs for receiving delegation of section 112 standards that are unchanged from Federal standards as promulgated. This program for delegations only applies to sources covered by the part 70 program.

III. Administrative Requirements

A. Docket

Copies of the nineteen districts' submittals and other information relied upon for the final interim approval, including two public comments received and reviewed by EPA on the proposal, are contained in docket number CA-NONGR19-94-01-OPS, maintained at the EPA Regional Office. The docket is an organized and complete file of all the information submitted to, or otherwise considered by, EPA in the development of this final interim approval. The docket is available for public inspection at the

location listed under the ADDRESSES section of this document.

B. Executive Order 12866

The Office of Management and Budget has exempted this action from Executive Order 12866 review.

The EPA's actions under section 502 of the Act do not create any new requirements, but simply address operating permits programs submitted to satisfy the requirements of 40 CFR part 70. Because this action does not impose any new requirements, it does not have a significant impact on a substantial number of small entities.

C. Regulatory Flexibility Act

List of Subjects in 40 CFR Part 70

Environmental protection, Administrative practice and procedure, Air pollution control, Intergovernmental relations, Operating permits, Reporting and recordkeeping requirements.

Dated: April 21, 1995.

John Wise,

Acting Regional Administrator.

Part 70, title 40 of the Code of Federal Regulations is amended as follows:

PART 70—[AMENDED]

1. The authority citation for part 70 continues to read as follows:

Authority: 42 U.S.C. 7401, *et seq.*

2. Appendix A to part 70 is amended by adding the entry for California in alphabetical order to read as follows:

Appendix A to Part 70—Approval Status of State and Local Operating Permits Programs

* * * *

California

The following district programs were submitted by the California Air Resources Board on behalf of:
