Children as Witnesses to Community Violence—170,658

Overarching Programs

New Programs

SafeFutures: Partnerships to Reduce Youth Violence and Delinquency—\$7,200,000

Background

The SafeFutures: Partnerships to Reduce Youth Violence and Delinquency Program rests on two important premises: The first is that public safety can be improved by providing prevention, intervention and treatment services to all at-risk youth. These three elements constitute a continuum of care that should be directed at youth throughout their development. The second premise is that the strategy for implementing this continuum of care lies with a comprehensive, customer-focused approach in which there is broad collaboration between all service agencies, all levels of government, and the public and private sectors. Availability of services, community responsiveness, and partnerships leading to increased public safety constitute the heart of the SafeFutures Program.

Many communities throughout the country have been engaged in reform efforts to develop a comprehensive, community-based service delivery
