**Foreign Fishing; Pacific Coast Groundfish Fishery; Annual Specifications and Management Measures**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic Atmospheric Administration (NOAA), Commerce.

**ACTION:** 1995 groundfish fishery specifications and management measures; request for comments.

**SUMMARY:** NMFS announces the 1995 fishery specifications and management measures for groundfish taken in the U.S. exclusive economic zone and state waters off the coasts of Washington, Oregon, and California as authorized by the Pacific Coast Groundfish Fishery Management Plan (FMP). The specifications include the level of the acceptable biological catch (ABC) and harvest guidelines including the distribution between domestic and foreign fishing operations. The harvest guidelines are allocated between the limited-entry and open-access fisheries. The management measures for 1995 are designed to keep landings within the harvest guidelines, for those species for which there are harvest guidelines, and to achieve the goals and objectives of the FMP and its implementing regulations. The intended effect of these actions is to establish allowable harvest levels of Pacific Coast groundfish and to implement management measures designed to achieve, but not exceed those harvest levels, while extending fishing and processing opportunities as long as possible during the year.

**DATES:** Effective January 4, 1995 until the 1996 annual specifications and management measures are filed for public inspection with the Office of the Federal Register, unless modified, superseded, or rescinded. All landings between January 1, 1995, and January 4, 1995, inclusive, will be counted toward cumulative trip limits. Comments will be accepted until February 8, 1995.

**ADDRESSES:** Comments on these specifications should be sent to Mr. William Stelle, Jr., Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way N.E., BIN C15700, Bldg. 1, Seattle, WA 98115-0070; or Ms. Hilda Diaz-Soltero, Director, Southwest Region, National Marine Fisheries Service, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213. Information relevant to these specifications and management measures, including the SAFE report, has been compiled in aggregate form and is available for public review during business hours at the office of the Director, Northwest Region, NMFS (Regional Director), or may be obtained from the Pacific Fishery Management Council (Council), by writing the Council at 2130 SW Fifth Avenue, Suite 224, Portland, OR 97201.

**FOR FURTHER INFORMATION CONTACT:** William L. Robinson (Northwest Region, NMFS) 206-526-6140; or Rodney R. McInnis (Southwest Region, NMFS) 310-980-4040.

**SUPPLEMENTARY INFORMATION:** The FMP requires that fishery specifications for groundfish be evaluated each calendar year, that harvest guidelines or quotas be specified for species or species groups in need of additional protection, and that management measures designed to achieve the harvest guidelines or quotas be published in the **Federal Register** and made effective by January 1, the beginning of the next fishing year. This action announces and makes effective the final 1995 fishery specifications and the management measures designed to achieve them. These specifications and measures were considered by the Council at two meetings and were recommended to NMFS by the Council at its October 1994 meeting.

**I. Final Specifications**

ABCs and Harvest Guidelines; Apportionments to Foreign and Joint Venture Fisheries; Open Access and Limited-Entry Allocations.

The fishery specifications include ABCs, the designation of harvest guidelines or quotas for species that need individual management, the apportionment of the harvest guidelines or quotas between domestic and foreign fisheries, and allocation between the open-access and limited-entry segments of the domestic fishery.

The final 1995 specifications for ABCs, harvest guidelines, and limited-entry and open-access allocations are listed in Table 1, followed by a discussion of each 1995 specification that differs from 1994 levels. The
