

sources and documents of which the petitioner is award and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date. Where petitions are filed during the last 10 days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1-(800) 248-5100 (in Missouri 1-(800) 342-6700). The Western Union operator should be given Datagram Identification Number N1023 and the following message addressed to William D. Beckner: petitioner's name and telephone number, date petition was mailed, plant name, and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the

General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Mr. Nicholas S. Reynolds, Winston & Strawn, 1400 L Street, NW., Washington, DC 20005-3502, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1) (i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated August 30, 1994, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Tomlinson Library, Arkansas Tech University, Russellville, Arkansas 72801.

Dated at Rockville, Maryland, this 10th day of January 1995.

For the Nuclear Regulatory Commission.

Thomas W. Alexion,

*Project Manager, Project Directorate IV-1,
Division of Reactor Projects—III/IV, Office of
Nuclear Reactor Regulation.*

OFFICE OF MANAGEMENT AND BUDGET

National Information Infrastructure Security Issues Forum; Public Meeting

AGENCY: Office of Management and Budget.

ACTION: Notice of Public Meetings and request for public comments.

SUMMARY: The National Information Infrastructure Security Issues Forum will conduct two public meetings to continue a dialogue between government and the private and public interest sectors on issues related to the security of information on the National Information Infrastructure (NII).

Interested parties—especially beneficiaries of Aid to Families with Dependent Children and Food Stamps, and users of public information, and participants in the sophisticated communications networks which support the U.S. transportation and customs systems—are invited to submit a 1–2 page position statement and request to testify.

The meetings are sponsored by the NII Security Issues Forum of the Information Infrastructure Task Force and Mega-Project III of the U.S. Advisory Council on the NII.

DATES: Both public meetings, “Security of the Electronic Delivery of Government Information and Services” and “Security for Intelligent Transportation Systems and Trade Information,” will be held simultaneously on Friday, January 27, 1995, from 9:00 a.m. to 12:30 p.m. in Raleigh, North Carolina.

Those wishing to testify should submit a 1–2 page position statement and request to participate by January 20, 1995. Individuals wishing to offer general comments or present questions may request to do so during the meeting. Written comments may be submitted on paper or electronically, in ASCII format, and will be accepted until February 10, 1995.

ADDRESSES: The public meeting, “Security of the Electronic Delivery of Government Information and Services,” will be held in the Auditorium of the North Carolina Museum of History, 1 East Edenton Street, Raleigh, North Carolina. The public meeting, “Security

[Docket No. 70-36]

Combustion Engineering Hematite Facility; Closing of Local Public Document Room

Notice is hereby given that the Nuclear Regulatory Commission (NRC) is closing the local public document room (LPDR) for records pertaining to the Combustion Engineering (CE) Hematite Nuclear Fuel Manufacturing Facility located at the Jefferson College, Hillsboro, Missouri, effective February 1, 1995.

This LPDR was established in April 1993 during the NRC's review of CE's license renewal application. There is no longer a need for the LPDR since Special Nuclear Material License SNM-33 was renewed for a 10-year term on July 28, 1994.

Dated at Rockville, Maryland, this 10th day of January, 1995.
