

CATEGORIES OF RECORDS IN THE SYSTEM:

Records involving either suspected or actual Counterintelligence (CI) issues detected in Personnel Security Investigations (PSI) or Industrial Security Administrative Inquiries (AI). The database will include; Subject name, title, origin of the issue, type of action, type of issue, agent's name, company name, target technology, country of origin and miscellaneous agents notes and recommendations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, Department of Regulations; E.O. 10450, Security Requirements for Government Employment; DOD Directive 5200.2, Department of Defense Personnel security Program; DOD Dir 5200.27 (Section IV A and B), Acquisition of information concerning Persons and organizations not affiliated with the DOD; DOD Dir 5220.28, Application of Special Eligibility and Clearance Requirements in the SIOP-ESI program for contractor employees.

PURPOSE(S):

Provides a central database to document, refer, track, monitor and evaluate CI indicators/issues surfaced during PSI and through AIs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, these records or information contained therein may specifically be disclosed outside the DoD as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

The 'Blanket Routine Uses' set forth at the beginning of OSD's compilation of systems of records notices apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Computerized database, paper records, microfilm, diskettes, are maintained at the CIO.

RETRIEVABILITY:

Information in the automated system is retrieved through any entry in the data base to include name and file number.

Paper files are retrieved by name or file number.

SAFEGUARDS:

Paper records are contained and stored in regulation safes, filing cabinets and on magnetic tape which is located in a secure area with limited

access. The database is maintained in secure office space with password entry to the system. Access is provided on a need to know basis only.

RETENTION AND DISPOSAL:

Automated records are maintained for 15 years. CI paper records relating to the automated system and not associated with a PSI will be retained for one year; Files developed on persons who are being considered for affiliation with the Department of Defense will be destroyed within one year if the affiliation is not completed.

Information within the purview of DOD Directive 5200.27 will be retained no longer than one year.

SYSTEM MANAGER(S) AND ADDRESS:

Defense Investigative Service, Deputy Director(s) (Industrial Security and Investigations), 1340 Braddock Place, Alexandria, VA. 22314-1651.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether information about themselves is contained in this system should address written inquiries to the Defense Investigative Service, Information and Public Affairs Office, 1340 Braddock Place, Alexandria VA 22314-1651.

Requesters should provide full name and any former names used, date and place of birth, and Social Security Number.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information about themselves contained in this system of records should address written inquiries to Defense Investigative Service, Information and Public Affairs Office, Alexandria, VA 22314-1651.

CONTESTING RECORDS PROCEDURES:

The OSD's rules for accessing records, for contesting contents and appealing initial agency determinations are contained in DIS Regulation 01-13; 32 CFR part 321; or may be obtained from the Defense Investigative Service, Information and Public Affairs Office, 1340 Braddock Place, Alexandria, VA 22314-1651.

RECORD SOURCE CATEGORIES:

Federal, State and local law enforcement/intelligence agencies; Industrial Security Administrative inquiries and Personnel Security Investigations.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Portions of this system may be exempt pursuant to 5 U.S.C. 552a (k) (1), (k)(2), (k)(3), and (k)(5), as applicable.

An exemption rule for this record system has been promulgated in

accordance with the requirements of 5 U.S.C. 553(b) (1), (2), and (3), (c) and (e) and published in 32 CFR part 321. For additional information contact the system manager.

BILLING CODE 5000-04-F

Department of the Navy**Record of Decision for the Homeporting of Seawolf Class Submarines on the East Coast of the United States**

Pursuant to section 102(2) of the National Environmental Policy Act (NEPA) of 1969 and the Council on Environmental Quality regulations implementing NEPA procedures (40 CFR 1500-1508), the Department of the Navy announces its decision to homeport the SEAWOLF class submarine at the Naval Submarine Base (SUBASE) New London, Groton, CT and to implement required dredging of the Thames River to provide safe access.

Up to three SEAWOLF class submarines will be homeported at the SUBASE replacing three existing homeported submarines resulting in no net increase in submarine or personnel loading at the SUBASE. Dredging will deepen the access channel from 35 ft to 39 ft below mean low water (MLW) in the Thames River from the Gold Star (I-95 Highway) Bridge to pier 17 at the SUBASE. Dredging will also occur from the channel to piers 8 and 10, which are designated as the SEAWOLF home port piers, and for access to pier 17 (located up-river from piers 8 and 10) to provide for submarine maintenance. Up to three berths at piers 8 and 10 will be deepened to 42 feet below MLW. The entire existing width of the navigation channel will be dredged from the I-95 bridge to the south end of the SUBASE. This area has been determined to contain marine sediments which are suitable for unconfined open water disposal. Dredging of the section of the river where sediments contain elevated levels of contaminants will be minimized by limiting the width of the channel to allow only a one way passage of the SEAWOLF class submarine for this short stretch. This 300 foot width will reduce significantly the volume of contaminated sediment being removed. Disposal of a total of 1.1 million cubic yards (CY) of dredged sediment will be at the New London Disposal Site (NLDS) in Long Island Sound.

In 1991, the Navy issued a draft environmental impact statement addressing a proposal to dredge the Thames River to allow access for the
