Beer Bottle Magic Trick

Make A Bottle Stick To A Wall

WARNING THIS TRICK MIGHT WIN YOU SEVERAL BEERS!!!

This bar trick should be practiced, it is definitely not for amateurs!!

It is always best to take care and have consideration for the establishment you are in.

Remember if you are not at home, you are a guest. Bars owners can get upset because they are always fussy about scratching up their expensively decorated walls.

Have enough courtesy and respect to at least put a rubbish bin underneath the bottle to try to catch it.

(NOTE: There's no guarantee the rubbish bin will catch it either) because it will not stick more than few seconds or minutes. This trick should be done in an area where there is a soft floor covering.

REMEMBER: This bar trick will not work on all wall surfaces. DRY-WALL is generally a good surface (but not always). This bar trick has been known to work on some other surfaces to.

THE BOTTLE WILL ONLY STICK FOR A FEW SECONDS OR MINUTES!!

If the bottle breaks or you scratch up expensive wall paneling, this trick it is also a great way to get thrown out of your favourite bar on your ass!!! Be careful!!!

GOAL: To freak people out by sticking a bottle to a wall without glue or bubble gum.

MATERIALS: One EMPTY beer bottle and a wall made of DRY-WALL (No stupid!! Not a "dry wall" but a wall "MADE of DRY-WALL")

HOW ITS DONE:

Walk over to a corner, place the empty beer bottle in the corner making sure that each wall is flush with the bottle.

Gently rub the bottle in an up and down motion with VERY VERY short strokes. (The bottle should not move more than 3cm in either direction)

Friction will cause the bottle to move in even shorter movements, when the bottle doesn't move in either direction, let go GENTELY.

If you want to try some really clever stuff, there are lots of levitation secrets explained in the Learn to Levitate DVD which explains how to levitate yourself and objects quickly and easily, leaving your audience completely surprised.
