## Notes

1/2 oz. of liquor is equal to 1 count. Assuming you are using a pourer on your bottles, to measure 1/2 oz. of liquor, count "1001... 1002 ... 1003" as you are pouring. After a while, you should be able to do it by eye.

To make highballs, fill glass two-thirds full of ice before adding liquor. Always pour liquor in before the mixer. Do not stir drinks containing carbonated mixers.

To make cocktails, lowballs, and other shaken or stirred drinks, fill shaker half-full of ice. For lowballs, fill the glass about half-full of ice before pouring drink.

Most shaken drinks which contain light cream can also be made as blended drinks, substituting vanilla ice cream for the light cream.

To make blended drinks, first fill blender half-full of ice. If necessary, add more ice as you are blending.

Always keep fruit juices and other mixers refrigerated.

In fruit drinks, e.g. strawberry margaritas, always use fresh fruit, not frozen.

## **Liqueur Recipes**

### **Amaretto**

2 cups sugar  
2 cups water

Bring to boil, then reduce heat and simmer for 10 minutes. Stir occasionally. Remove from heat and cool. Stir in:

2 cups vodka  
2 cups brandy  
3 to 4 tsp. almond extract

Bottle and let sit in a dark place for 30 days.

### **Aquarium Jell-o**

1 goldfish bowl (new/well-cleaned)  
4 envelopes Knox gelatin  
Blue curacao  
Purple endive, fennel leaves; anything w/pretty foliage  
Assorted Swedish gummi fish  
1 large package red hots  
jelly beans or other small, hard or coated candy

Mix gelatin according to directions, substituting curacao for water in whatever ratio you prefer. Place hard candies in bowl. When gelatin is cool but not set, pour it slowly into the bowl, be careful not to disturb candy or the color will run. Cool until half-set then add foliage and fish, placing them w/strands of spaghetti. Refrigerate.

### **Bailey's Irish Cream, Homemade**

1 cup cream  
1 can (14 oz.) sweetened condensed milk  
4 eggs  
1 1/2 cup Irish whiskey or Canadian Club  
2 tbsp. chocolate syrup  
1 tbsp. powdered coffee  
1 tsp. vanilla  
1/2 tsp. almond extract

In blender, mix well, serve cold. Stores up to a month in a refrigerator.

### **Cherry Liqueur**

Fill jar w/cherries. Add alcohol (grain) to cover cherries. Let sit for a week or so, until the cherries have swelled and there is less liquid in the jar. Pour off liquid, but save it.

a) Layer cherries with sugar and let sit another week.

b) Pour off resulting fluid.

c) Repeat steps a) and b) until the cherries are so small that they're just basically the pit covered with a very thin skin. Mix all the batches that you poured off to suit your taste. The first is most bitter, the last is the sweetest.

### **Cream Cordial**

1 (14 oz.) can Eagle Brand Sweetened Condensed Milk  
1 1/4 cups of your favorite liqueur (almond, coffee, orange or mint)  
1 cup (1/2 pint) whipping or light cream  
4 eggs (only Grade A clean, uncracked eggs)

In blender container, combine all ingredients; blend until smooth. Serve over ice if desired. Store tightly covered in refrigerator up to one month. Stir before using. (Makes about 1 quart.)

### **Cream Liqueur**

14 oz. sweetened condensed milk  
1 cup dark rum  
1 cup heavy cream  
1/4 cup chocolate-flavored syrup  
4 tsp. instant coffee powder  
1/2 tsp. ground cinnamon  
1/2 tsp. vanilla extract  
1/4 tsp. coconut extract

Combine ingredients in blender until well blended and smooth. Serve immediately over ice. Cover tightly, store in fridge <2 weeks. Stir before serving. (makes: 3 1/4 cups)

### **Egg Nog**

Separate 6 eggs. Beat the yolks until they are lemon color or lighter (the more beating the better). Beat in 1/2 cup sugar. Clean your beaters and, in a large bowl, beat the whites until they form stiff peaks. Beat in 1/2 Cup sugar. Fold the yolks into the whites. Gently stir in: 1 pt. heavy cream, 1 pt. milk, 1 pt bourbon, and 1 oz rum. It can be consumed immediately, although it mellows if you let it chill for a while, even overnight. This recipe can be easily doubled, in which case it will nicely fill up a large punch bowl.

### **Egg Nog, Dad's**

1 quart Egg Nog  
1 quart Egg Nog Ice Cream  
1 pint Meyer's Dark Rum  
1 pint inexpensive Brandy

Allow ice cream to soften or liquify. Mix all ingredients and refrigerate. Serve with ground nutmeg sprinkled on top.

### **Eggnog, "Kentucky-style"**

1 quart heavy cream, whipped  
6 eggs  
1 cup sugar  
2 cups bourbon

Separate eggs. Beat yolks, add sugar. Add bourbon slowly while beating. Beat egg whites until stiff. Fold whites into egg yolk mixture; then fold whipped cream into mixture. Refrigerator for > 4 days. Stir frequently to avoid separation. Color will change to a pale yellow. Serve w/nutmeg or cinnamon

### **"Ersatz Frangelico"**

4 cups unshelled Hazelnuts (or 2 1/2 cups shelled)  
4 tsp. Angelica root (available in natural foods stores)  
31 oz. Vodka, 80 proof  
1 tbsp. Vanilla extract  
1/4 tsp. Almond extract  
1 1/2 cups Granulated sugar  
3/4 cup Water, filtered or distilled  
1 tsp. Glycerine (available in pharmacies)  
2 drops Yellow food coloring (optional)

Preheat oven to 350 degrees F. Shell hazelnuts. Roast the nuts on a baking sheet for 10 to 15 minutes. Remove from oven, and allow to cool to room temperature. Coarsely chop nuts, and place in a large glass container. Bruise angelica root with a mortar and pestle, and add to container. Add the vodka. Cap tightly and put in a dark place for 1 month. Shake jar occasionally.

Pour mixture through a fine strainer to remove the larger pieces. Then pour mixture through a cheesecloth, and finally through paper coffee filters to remove the smaller particles.

After staining and filtering, measure the volume of the alcohol mixture. It should measure 28 ounces. If the volume is less, add more vodka to make up the difference.

In a scrupulously clean sauce pan, bring the water to a boil. Add sugar, stirring until dissolved. Allow to cool to room temperature. Add syrup to alcohol mixture.

Stir in vanilla and almond extracts, glycerine, and food coloring. Allow to age for at least 3 months. A second straining may be required after the aging period.

### **Frank's Galliano**

2 cups Sugar  
1 cup Water

Boil gently for 5 min. Cool completely and add:

3 tsp. Pineapple Extract  
3 tsp. Vanilla Extract  
1/2 tsp. Banana Extract  
1/4 tsp. Anise Extract  
5 drops yellow food coloring  
1/5 100 proof Vodka

Mix and pour into bottle. Drink and enjoy.

### **Irish Cream Liqueur**

1 3/4 cups of your favorite liquor (Irish whiskey, brandy, rum,  
bourbon, scotch or rye whiskey)  
1 (14 oz.) can Eagle Brand Sweetened Condensed Milk  
1 cup (1/2 pint) whipping or light cream  
4 eggs (only Grade A clean, uncracked eggs)  
2 tbsp. chocolate flavored syrup  
2 tsp. instant coffee  
1 tsp. vanilla extract  
1/2 tsp. almond extract

In blender container, combine all ingredients; blend until smooth. Serve over ice if desired. Store tightly covered in refrigerator up to one month. Stir before serving. (Makes about 5 cups.)

### **Kahlua (1)**

3 cups Water  
3 cups Sugar  
14 tsp. Instant Coffee

Simmer these ingredients for 1 hour. Stir occasionally. Bring to boil, then turn the burner down and simmer for one more hour. Take off of heat and cool slightly. Add 1/5 100 proof Vodka and 4 tsp. Pure Vanilla. Cut one Vanilla Bean in 1/4's and place 2 pieces in each bottle. Fill with Kahlua. Place bottles (makes about 2) on sides and turn bottles over once a week for 3 weeks. Then it is ready to drink!

### **Kahlua (2)**

NOTE: The guy who posted this was writing from memory, so use at your own risk. It sounds pretty good, though.

1 liter Vodka  
2 oz. jar Instant Coffee (not decaf)  
2 1/2 cups sugar  
1 vanilla bean cut lengthwise

Put all ingredient in a jar with a tight lid on. Shake up every day for about 6 weeks (I forget the exact time span). Strain, place back in jar and let sit for at least one month, the longer, the better.

### **Rice and Raisin Wine**

2.25 lbs raisins  
3.75 lbs long grain rice  
7.5 lbs sugar  
2 tbsp. citric acid  
yeast and nutrient  
3 gallons water

Dissolve sugar in some heated water taken from the 3 gallons. Allow to cool and pour over rice and raisins (do not chop or mince the raisins). Then add the acid and remaining water and sprinkle on the yeast and nutrient. Stir and leave in a warm place. (This is all taking place in your primary fermentation bucket, I presume, and should be kept covered when you're not stirring it.) Stir daily for 21 days then strain thru a fine sieve into three 4.5 l (1

gal) jars (or, 1 3 gal jar if you have one). Fit airlocks to the jar(s) and keep them in a warm place until fermentation stops. Then filter the wine thru one of the popular filters (he lists several in his book; three or more layers of paper towel should be an adequate substitute) and it is then ready for drinking straight away. If it is not drunk within 2 months add 1 Campden tablet per gallon and leave for 9 months.

Do not discard the pulp as it can be used to make a lighter wine. Dissolve 3.5kg (8lb) sugar in 4.5l (1 gal) of water and pour it on to the rice and raisin residue. Add 6.7l (1.5 gal) of cold water plus 30g (1 oz) citric acid together with fresh yeast. Follow the same procedure as given for the first batch.

### **Rum Cream, Pete's Almost Perfect**

14 oz. sweetened condensed milk  
1 egg  
8 oz. Meyers (very) Dark Rum  
1 tbsp. vanilla

Combine in blender for 3-5 min. Place in the refrigerator overnite.

### **Sangria**

2 cups cheap red wine (jug variety)  
2 cups Ginger Ale  
3 oz. frozen pink lemonade  
1/4 cup brandy  
1/4 cup Triple Sec  
Juice from one orange  
Juice from one lime

Can add various fruits (oranges, limes, cherries, etc.)
