

## Anti-Christ Philosophy Already Controls America and Europe

All thinking people in America realize an anti-Christian, anti-moral, and anti-American philosophy permeates this country and the world. It dominates the public school system from kindergarten through graduate school. It controls the media from the daily print press to popular magazines (from porno to mainline), the six major TV networks, most of all cable TV; it dominates the entertainment industry, and it elects a predominance of liberals to both parties in our national government.

This alien philosophy does not come from the Bible, but is antithetical to it. In this country it flies under the banner of “liberalism,” but in reality it is atheistic socialism at best and Marxism at worst. If those who hold this philosophy were honest and admitted publicly they were hostile to God, His Son Jesus Christ, moral values and true freedom for all individuals, they would be voted out of office in three quarters of the congressional districts and states in our country. Instead, they use the title “liberal” to define themselves and include the ACLU (the most harmful organization in American history), unions like the NEA (the largest teachers union in the

country), and thousands of other “liberal” organizations to destroy the Biblical principles this country was founded on and replace them with freedom from responsibility. These actions always lead to anarchy.

Anyone who takes the time to study the very effective workings of these “liberal” organizations will find they despise the mention of God (except in blasphemy), they disparage the name and people of Jesus Christ (easily the most influential person in all of human history), and they defame the moral values of Scripture (like virtue, honesty, and reverence). Instead, they advocate promiscuity by providing radically explicit sex education and providing condoms to minors, disregarding the concerns of the parents. They advocate homosexuality and demand that such sodomites be permitted to teach our young people. Abortion on demand is their way of coping with the unfortunate results of promiscuity, but they expect government to supply the money for research to overcome the sexually transmitted diseases that result from ignoring Biblical morality. Yet, these socialist communists who masquerade as “liberals” or “moderates” repeatedly condemn the Christian community for “imposing” our moral values on them, while raising our taxes to pay for the human tragedies that result from their anti-moral, government encouraged, libertine policies.

The fact that this socialist Marxist philosophy dominates most of the governments of the world in the name of “democratic socialism” can be seen by the kind of delegates they have sent to the United Nations to set up their version of global government. The average man or woman can see that these “liberals” hate Christianity and its moral values, but they embrace (or tolerate) any other religion, such as Wicca, which I saw them practice at the UN headquarters in New York as a “devotional experience.” This is similar to the recent radio report by Dr. Laura Slessinger of the Army chaplain who was rebuked for mentioning the name of Jesus during a service in the Army chapel, but then these same rebukers condoned a Wicca service on the same airbase in the name of tolerance.

The purchase of the 1996 election of the United States for Bill Clinton by the Chinese communists (which has been downplayed or ignored by our socialistic Marxist loving media) has resulted in the most corrupt administration in American history. Our current leaders see nothing wrong with betraying our national security secrets to their socialist Marxist friends whose world government policies they share.

All of which highlights the importance of the US elections in the year 2000. Have you noticed how the socialist Marxist media, unions, and liberal politicians are gearing up for this election? They know that he who controls

the appointing of the next three Supreme Court justices will influence the philosophy of the United States for the next twenty-five years. This may make it the most significant election in our lifetime.

We are the only nation that can halt the socialist Marxist enthronement of the UN as THE GLOBAL GOVERNMENT of the world, but it will require a conservative administration and Supreme Court committed to judicially interpreting our nation's laws that were originally based on moral Biblical principles.

Obviously, all it would take for the world government of socialistic Marxism to dominate this world with more anti-Christian, anti-moral values is the rapture of all Christians and the appearance of "the Man of Sin" who for seven years will "do his will." The signs of such a possibility are more apparent than they have ever been before.

One of the chief characteristics of the Antichrist's government will be "lawlessness," according to 2 Thess. 2:8. As soon as "He who now restrains will do so until He is taken out of the way" (whom most prophecy scholars consider to be the Holy Spirit's presence in believers), is taken out of this world at the time of the rapture, then the "lawless one" will be revealed. Not only does that teach that the rapture occurs just before the Antichrist is

revealed, it also teaches that we are the restraining influence in the world today.

Can you even imagine what our world would be like culturally and socially if all the Christians were snatched out of this world? Suddenly there would be no one to champion the cause of the unborn, or oppose Planned Parenthood's promotion of sexual promiscuity and abortion in the public school, or government corruption or laws against gambling, drugs, homosexuality, pornography, and the list goes on. Bear in mind, these sins are already being advocated at government expense in the model nation in the world, the country that is called "the last best hope of mankind." The spontaneous carnage and immorality at Woodstock '99 is only a sample of what life will be like after the Rapture. For there will be no "religious right" trying to "impose Biblical morality" on the people. Instead, as it says in Revelation 9:20-21 of those "lawless" days when Antichrist rules the earth, "But the rest of mankind...did not repent of their works...that they should not worship demons, and idols...and did not repent of their murders or their sorceries (drugs) or their sexual immorality or their thefts."

If sixty million or so Christians were suddenly removed from this earth, leaving it without any morally "restraining" influence, how long do you think it would take for the other 200 million to turn this entire nation

into Woodstock 2000 – everyday, everywhere? Let’s face it, the Antichrist’s philosophy is already here. And the only “restraining” influence are packing their bags because soon there will be “a shout from heaven” and we are out of here. I sure hope you are ready!
