## VERICHIP™ in the Media:

*Since its announcement on December 19, 2001, VeriChip has captured enormous media attention in the U.S. and worldwide. Articles about the technology have appeared in leading publications, including:*

**Time Magazine**  
**People Magazine**  
**The Washington Post**  
**The Los Angeles Times**  
**The Chicago Tribune**  
**Wired News**  
**The Associated Press**  
**Reuters**

*Company executives have discussed and demonstrated the technology on:*

**NBC's Today Show**  
**ABC's Good Morning America**  
**CBS Early Show**  
**CBS Evening News**  
**ABC's World News Tonight**  
**CBS Eye on America**  
**The View**  
**CNN with Paula Zahn**  
**CNN Headline News**  
**ABC Family/CBN**  
**The O'Reilly Factor on Fox News**  
**Tech TV**  
**CNN-fn**  
**National Public Radio**  
**The BBC**  
**CBS Radio**  
**ABC, CBS and NBC affiliates nationwide**

# VERICHIP™ *There when you need it.*

A revolution in the making: VeriChip is a miniaturized, implantable radio frequency identification (RFID) device for use in a variety of identification and information applications. About the size of a grain of rice, each VeriChip contains a unique verification number, which can be used to access a subscriber-supplied database providing personal related information.

VeriChip is there when you need it. Unlike traditional forms of identification, VeriChip can't be lost, stolen, misplaced or counterfeited.

## How VERICHIP™ Works

Once implanted just under the skin, via a quick, simple and painless outpatient procedure (much like getting a shot), the VeriChip can be scanned when necessary with a proprietary VeriChip scanner. A small amount of radio frequency energy passes from the scanner energizing the dormant VeriChip, which then emits a radio frequency signal transmitting the individual's unique personal verification (VeriChip ID) number. The VeriChip Subscriber Number then provides instant access to the Global VeriChip Subscriber (GVS) Registry – through secure, password-protected web access to subscriber-supplied information. This data is maintained by state-of-the-art GVS Registry operations centers in Riverside, California and Owings, Maryland.

## Why VERICHIP™?

Benefits as a VeriChip Personal Verification System subscriber include:

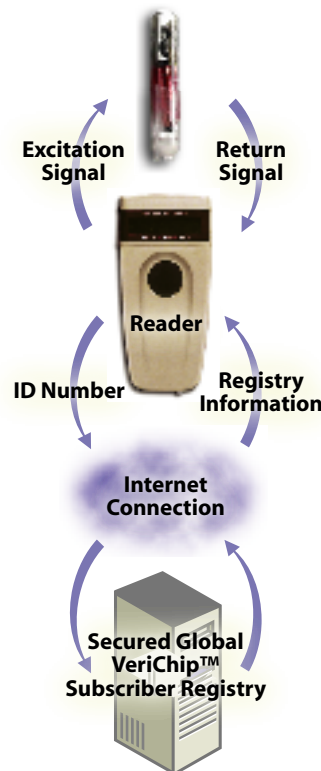

*Secure, tamper-proof microchip technology providing immediate identification and retrieval of subscriber-supplied GVS Registry information at VeriChip Affiliates*

*Password-protected, secure access to your records in the Global VeriChip Subscriber Registry (GVS Registry)*

*Support from a growing number of VeriChip Affiliate™ financial, security and other organizations across the country*

*The flexibility to update GVS Registry information on-line at any time*

*Support associates available 24/7 by calling the Subscriber hot line at 800-557-9241*

## The Future of VERICHIP™

Use of advanced VeriChip technology means the risk of theft, loss, duplication or counterfeiting of data is substantially reduced or eliminated. VeriChip products are being actively developed for a variety of security, defense, homeland security and secure-access applications, such as authorized access control to government and private sector facilities, research laboratories, and sensitive transportation resources, including the area of airport security.

In these markets, VeriChip is able to function as stand-alone personal verification technology or it is able to operate in conjunction with other security devices such as ID badges and advanced biometrics.

In the financial arena, VeriChip has enormous potential as a personal verification technology that could help curb identity theft and prevent fraudulent access to banking and credit card accounts.

VeriChip accomplishes this without batteries or any internal source of power. It lies dormant under your skin until energized by a proprietary VeriChip reader. The VeriChip then transmits your personal verification number in milliseconds to the external reader.

## Get Chipped!™

Persons interested in dealer/distributor opportunities, please contact **561-805-8012**. To "get chipped" see the list of Authorized VeriChip Centers at [www.4verichip.com](http://www.4verichip.com). Should you need additional information about the VeriChip product or company, please contact [www.4verichip.com](http://www.4verichip.com) or **800-970-CHIP**.
