## **Rituals and Magick – the Way of Wicca**

**May 7 (Sunday) 2006**  
**10:00 am – 6:00 pm.**

**Everyone uses rituals many times in their lifetime, even if one is not aware of it.** What about, for example, the ritual of a Graduation? Wedding? Or simply any kind of “celebration”?

In ancient times our ancestors used to use rituals for very many purposes – to worship Gods, to call upon rain, to bless the home, etc. The fact is that our civilization is based around rituals. More than that – most of our civilization base their everyday lives on rituals. Therefore, **learning and using rituals as a part of our life is not something that is supposed to be considered “strange”, but rather the opposite - it is a forgotten link between the Past and the Future.** Another common misunderstanding is that using ritualistic work was and, for many, still is perceived as “witchcraft” and automatically filed as “wrong” or “bad”.

We must also acknowledge that Rituals and Magick are about Power! Magick, oversimplifying of course, is a procedure of manipulation of subtle energies. **People who use rituals are definitely more empowered than others, can achieve more, and use energy more effectively...** However one thing which many people who use rituals, in my opinion, are lacking is... FAITH. **You must have Faith in your own Power, but also in the Power of your rituals. Let's then talk about the Power in You!**

During this workshop you will learn:

- **The Rules of Magick**
- **Creating Your Altar**
- **Opening and Closing the Circle**
- **When and What to Do?**
- **Correlation between days, Moon phases and your rituals**
- **Rituals for Protection**
- **Rituals for Prosperity**
- **Rituals for Love/Relationship**
- **and much more....**

**Instead of going to others to solve your problems – learn how to manage your life by using simple, but effective rituals. You will shortly find that life is easier and everything works according to your requests...**

**Will you dare to open this door?**
