

# END ALL IMMIGRATION

When will the government of the United States put the economic well-being of it's citizens before the needs of Third-world immigrants? The immigration policies of both the Left-wing and Right-wing have completely betrayed the American working class as a whole and the White working class specifically.

With our country in a record deficit and high unemployment the powers-that-be have continued importing mass immigrant labor, straining the social welfare system to the breaking point. At the same time these political sell-outs are exporting jobs to countries without labor & environmental protections compounding the plight of the White American worker. The so-called 'Labor Movement' in the United States along with big business and career politicians has been complacent, in the least, regarding this blatant betrayal of White Americans. The 'Labor Movement' and it's communist puppet-masters have continued to endorse mass immigration and the forced integration of Unions with unskilled foreign labor. These policies have continued to drive down wages and create a surplus of manpower in a limited labor market.

There is only one organization truly fighting for a better future for American workers of all races, and Whites in particular, Volksfront. Volksfront retains the moral values shared by most White workers in areas such as abortion, gun control, immigration, affirmative action and patriotism, while at the same time fighting for labor rights and issues concerning the American worker.

By donating to or supporting Volksfront you are supporting a better future for the White working class and your children. Don't let the hoax of "Left wing" and "Right wing" politics enslave future generations of White workers. Do your part today to ensure a secure future for our people and support Volksfront.
