

## IMMIGRATION MUST CEASE!

Rising unemployment in non-college graduate Whites. Loss of our official national language. Neighborhoods ruined. Gangs rampant. Centuries of culture destroyed. Bloodlines lost. Crime on the rise. Teenage pregnancy and drug use skyrocketing. employment migrates South and West of the border.

Welcome to twentieth century America. A nation at war... Cultural warfare is taking place in all the nation's urban centers and now rural communities as well. Spanish, among other languages, is fast becoming the official language, already in many communities English is dead.

For centuries European immigrants to this nation adopted the English language and assimilated into the many other European cultures here, thus creating the American culture. These were people of similar or related blood who shared history and continent.

The multitudes of brown peoples flooding this nation no longer view themselves as guests, they view themselves as the economic conquerers of this land. They make no attempt to respect the traditions or culture of their host. They openly flaunt and display their national orgin, then wonder why they are subject to hostility and aggression. What audacity possesses these people to openly display contempt to the nation which graciously provides them and their foreign relatives with livelyhood?

These people must be sent back! They provide no invaluable skills and in no way add to the dignity and strength of the nation. It is our intention to provide the existing employment oppurtunities of our country to its own citizens. Any remaining employment oppurtunities will be allowed to only those immigrants with a rare or invaluable skill on a guest basis. Only when the inhabitants of this nation reach a 0.00% unemployment level should we even contemplate introduction of foreign labor, and then on a purely temporary basis.

All ethnic groups have in the past adopted the English language which has served to bind the people, this is no longer the general practice with today's immigrants. They seek to transplant their native cultures to our soil, this has essentially the same effect as a military invasion. Whole cities and towns have ceased to have any resemblance to an American city. They are under foreign occupation.

In Europe the immigration dilema is worse. Here are some unemployment immigration statistics of today's Europe:

## UNEMPLOYMENT PERCENTAGES (1998)

Austria 4.4%
Belgium 9.6%
Denmark 6.3%
Finland 15.4%
France 12.5%
Germany 9.7%
Greece?
Ireland 11.7%
Italy?
Luxembourg 3.6%
Netherlands 5.7%

Portugal 7.2%
Spain 21.4%
Sweden 10.9%
European Union Average 10.9%

**United States 5.3%** 

In Europe they have attempted to be very generous to the tides of non-White immigrants and the preceding figures are the result of a suicidal immigration policy. Those immigrants in Europe who do not obtain jobs live nicely on the over generous unemployment benefits given by the majority of European states.

Compare the unemployment statistics with 1994 immigration statistics from three African nations. Remember these statistics are only for a single year, and immigration is rising in the countries mentioned...

As you can see Europe as a continent is in extreme danger of losing the identity of its indigenous culture. These numbers are only from three Negro nations and are only a single year's numbers.

Turkish will soon surplant German as the official language of Germany if present trends continue. Britain is realizing, much too late, that its open border policy with other Common Wealth nations will cost it its centuries old tradition and heritage.

People of European ancestry account for only 11.9% of the worlds population. As such we are the global minority. The media is endorsing abortion and miscegenation at such a rate that the European or Aryan race may no longer be able to continue as a healthy, distinct, and economically independent people for more than a century or two.

A man of foresight can easily see the end of civilization as we know it. Whites today make up only 72.4% of the population of the United States. By 2020 non-Whites will outnumber the White citizens of this nation. The birth and death of our nation will be determined with the fate of its creators.

Our nation's wealth must be preserved for future generations of its own citizens. The liberal media and government would like to deceive the citizens of this country and lull them into a sense of false security but there is no security in the the present decline of our society and civilization.

Repatriation is the only cure for this disease. We must enact laws to ensure to integrity of our blood, culture, and nation.

We are in the midst of an economical war with these people, yet, we are at an extreme disadvantage as the majority of our people aren't even aware we are at war.

The Volksfront, along with many organizations here and abroad, is educating our people and is in the prossess of political struggle with our would-be destroyers. We are acting to protect the life-style and culture of our children. We are not content to be spectators while our fathers' civilization is sold to alien peoples.

We encourage the re-education of our people in a manner conducive to building a strong sense of identity, awareness, and pride. We are rebuilding a sense of racial/cultural community among European-Americans. For only together will we as a people ensure the advancement and preservation of the greatest collective civilization in the world's history, the civilization of the White man.
